The University of Calcutta has introduced a two year full time (Day) Master of Business Administration in Finance, abbreviated as MBA in Finance, under the Department of Commerce, University College of Business Studies, from the academic session 2005-2007. Since then the course has been running successfully. The sixth batch of students (2010-2012) will be admitted. Particulars about the Department, course structure, fees payable and the Regulations are given hereunder for information of the interested students.

About the Commerce Department

Started in 1922, the Department of Commerce of the University of Calcutta had traversed a long way before it reached its present state with major indicators of development in terms of number of students, the number of teachers, research work, curricula and course contents. Almost from the very beginning, the Department has been utilizing the services of a number of guest faculty members drawn from both academic institutions and industrial organizations of repute. At present, it has 18 whole time teachers and 39 guest faculty members. Many of the distinguished faculty members have done Ph.D. and are members of various professional institutions. Some of them have also travelled abroad for attending national and international seminars and conferences.

The Department, in keeping with the advancement made in different branches of commerce, has revised the curriculum from time to time. Under the present curriculum there are 20 papers of 50 marks each for the popular M. Com. Course, run by the Department both in the Day and in the Evening Sections. It started its M. Phil. Course in 1988.

The Ph.D. programme of the Department is one of the strong areas. Quite a large number of researchers have got their Ph.D. degrees in accounting, finance, management and other allied areas in commerce under the supervision of distinguished members of the faculty. At present, a good number of research scholars are carrying on research work in various fields.

The Department publishes a bi-annual journal, Business Studies. This publication is based on the contributions from reputed academicians and researchers all over the country.

Research and teaching performance of the teachers of the Department had earned all India recognition leading to sanction of Special Assistance Programme (SAP) by the University Grants Commission in 1987. The third phase of the SAP has been continuing. The Department has published a number of research volumes under this programme during the last two phases. National Seminars and Conferences on contemporary issues are held periodically in each year. In 2005-06, the Department in recognition of its contribution to academic and research activities has been granted ASIHSS, an Infrastructure Development Programme, by the University Grants Commission. The Commerce Department of the Calcutta University has earned this unique distinction in the country.

Having regard to the growing need of the hour to have a Master's Degree in Finance, the Department designed a two-year full-time MBA Course in Finance, and introduced it in the academic session 2005-2006. The course has become popular among the students within a very short period of time.
