From The Director's Desk

It is with pleasure that I write in the placement brochure inviting Companies to visit us at LIBA. LIBA has continued to grow from strength to strength over the years. The values of ethics and excellence have been the foundation upon which every student of this institute has developed and grown. Our students have been moulded and shaped to inculcate these values in their various activities whether at work or play. Our curriculum has been honed and shaped to let every student experience a wholesomeness of learning and holistic experience of cutting edge management thought.

This is why, despite the economic downturn, LIBA with its quality of students, the training it provides and the image of the institution has stood the test of time. Last year was a record year for placements at LIBA in terms of the new companies we had on campus and the salaries offered. Some of you experienced the students and have expressed keenness to return. For those of you who have not visited us before, please come to the campus and experience the LIBA student.

The LIBA student not only gets exposure to the quality faculty that we have, but also has regular interactions with industry stalwarts through guest lectures which help students to gain a perspective about the current business scenario. Special skill development workshops are also organized to help the students to sharpen their skills to face the Corporate world. Another unique aspect for the LIBA student is the opportunity to interact with several global leaders. LIBA has interactions across the world with international universities of repute and hence gives the student the opportunity to go as an exchange student, collaborate with students who come on campus and develop an international flavour within.

While the challenges and changes that we see in the business world are only increasing on a daily basis and several countries are grappling with the economic crisis that are affecting them, LIBA has tried to create and develop students who not only have the knowledge and skills to face challenges but more importantly the positive attitude and perseverance to continuously strive for a better tomorrow. At LIBA the students are trained to be effective leaders with a global mindset rooted in sound ethical principles. LIBA develops leaders who have passion, confidence and discipline.

I take great pride in introducing to you the class of 2013 for the final placements and the class of 2014 for summer internships. These batches have been shaped by LIBA'S vision and its ideal of promoting true "corporate citizens." Do come and meet our students and experience LIBA and its spirit of vibrancy and originality. I am sure our students will be great assets to your organization.

With warm regards,

DIRECTOR, LIBA.

From The Placement Chairperson

The placement season at LIBA is once again around the corner. This year we bring to you through our brochure a glimpse of the myriad colours which make up that which is LIBA! We want to emphasize the diversity that exists in our world, as reflected in the microcosm of LIBA and how despite all the differences comes out a beautiful pattern that blends together in our institution.

LIBA stands as an example of what we see in India today. Calm reflection will show that attempts to enforce complete unity and disallow any differences of thought and approach in a large country like India would prove counter-productive and self-defeating. People can hold different views on life, religion, social, economic and political systems and yet they can live together in the oneness that is India. So also at LIBA. Here we have students who are different not just in religious, social, political views but even in their ideas, thoughts and approaches to management - and yet they all come together to uphold the values for which LIBA stands for, Ethics and Excellence.

LIBA's students are constantly encouraged to push boundaries and explore new territories, question the status quo and seek differences and consensus in their quest for knowledge. LIBA's students are known for their commitment to work, their proactive nature and their ability to consistently perform under pressure. It is because of this record of quality and consistency that recruiters return to LIBA year on year.

With the economy not showing much signs of recovery and the demand for talent very specific, LIBA is fully equipped to address the gap between demand and supply. Our syllabus has been exclusively designed to meet the needs of industry, with special attention paid to the rapid changes taking place in today's business environment. We have regular interactions with industry through numerous guest lectures by stalwarts of industry. Students also undergo an intensive 8-week summer internship, which gives them an insight into the functioning of companies and exposes them to the challenges of a real-time business environment.

The aim of this brochure is to give you an insight into what LIBA stands for—passion, excellence, commitment, and a unique spirit of unity in diversity. The brochure highlights a variety of activities that contribute to the holistic development of students. Above all, it profiles the core of LIBA - the students themselves.

I invite you to come and experience Placement 2013 at LIBA. We are certain that this interaction will pave the way for a long and mutually beneficial relationship.

With warm regards,

Dr. Susan Thomas
Associate Professor &
Chairperson – Placements

LOYOLA BUSINESS INSTITUTE OF ADMINISTRATION

Vision

LIBA to be a premier management school focusing on excellence and ethics.

Mission

LIBA aims to provide quality and ethical management education, consultancy and research services to include holistic formation, forming men and women for others.

LIBA works systematically to build world class resources (men, materials and facilities) to enable its students and research scholars to excel in their areas of work.

LIBA builds its international linkages with institutions of academic and moral excellence, to form world class leaders.

LIBA, keeping the Jesuit spirit of service to society, provides access to managerial knowledge and skills to all sections of learning community through specially tailor-made programmes, thus meeting the social need for access to learning for all.

LIBA recognizes those who contribute for the cause of managerial excellence, corporate social responsibility, sustainable development and ethics, through nationally/internationally acclaimed awards, thereby inspiring others in the corporate world to achieve excellence ethically.

LIBA strives to promote social and business entrepreneurship with a spirit of innovation and inquiry in close interface with industry.

Values

LIBA, as a Jesuit institution managed by Loyola College Society, is committed to the core values of honesty, integrity, excellence and service to society.

Its management, while maintaining these values, will constantly strive to uphold respect for individuals without compromising on core values; it will conduct itself as a trustee of the faith and direction of Jesuit Values.

Its faculty is committed to the acquisition of and imparting the best and latest knowledge and skills in management principles and practices, and transfer them to the students. While dealing with the students fairly and justly, the faculty will foster in the minds of the students the spirit of inquiry, innovation and scientific temper.

Its students are expected to be committed to learn, in a spirit of inquiry and humbleness, the latest managerial knowledge, develop highest levels of professional skills and develop an attitude of positive thinking, leading to Magis (excellence in everything), high ethical values and service to society.

Human Resources Development
Management Information Systems
Operations Management II
Organisational Behaviour II
Research Methodology

Summer Project

During summer, students take up project work in an industrial or business organisation for a duration of 8-10 weeks. During this period, students work under the supervision of the functional executives of the organisations. The summer project helps expose students to real-time problems faced by the industry and helps sharpen their decision-making skills and their ability to effectively perform executive functions.

Management Development Centre

LIBA's Management Development Centre realizes the need to cater to the specific requirements of the corporate and therefore designs customized programmes that are relevant to the students. These programmes provide opportunities to develop specific skill sets

Long Term Executive Programmes

Designed to cater to the needs of corporates, these programmes are recognized and supported by the industry in terms of the course content and structure. Sponsorship arrangements are provided on the basis of merit.

Short Term Executive Programmes

These programmes are targeted at developing specific skill sets and key knowledge areas for executives who require in-depth knowledge of specific business areas or management verticals. They are conducted during the weekend for the convenience of the students.

Management Development Programmes

These programmes aim to equip and enable executives to take up management leadership roles in their respective industries. They look at developing the effectiveness and leadership qualities in the senior executives.

Consultancy

Strategic Partnerships with firms enable us to provide consultancy opportunities to our faculty and also assistance to graduate students with real time projects.

Centres of Excellence

Along with imparting education that equips the students to understand the business world and apply their knowledge in a real world scenario, LIBA also educates its students in various ancillary aspects of business that would provide a deep insight to the students, thereby giving them the edge.

Centre for Business Ethics and Corporate Governance

LIBA has established the Loyola Centre for Business Ethics and Corporate Governance to educate the students about business ethics and their importance and also about corporate governance practices among its students. It strives to mould the students into responsible corporate leaders and increase awareness about ethical issues that plague the world of business.

Centre for Supply Chain Management

The prime objective of the centre is to develop productive practices in engineering, design, manufacturing and movement of goods and services. It equips IT professionals with skills to handle critical supply network issues.

Centre for Retail Management

Its prime objective is to impart knowledge about efficient and optimal retail management practices and engage students in research and development on development of effective retail management models and techniques

Centre for Entrepreneurial Excellence

This centre promotes and creates an environment of entrepreneurial exploration by urging and supporting the students to transform their business ideas to real projects by providing a platform where students exchange ideas and knowledge and develop sustainable business projects. It also provides seed funding for the same

Centre for Behavioural Science

The Human nature is the most intangible factor involved in business. In all its intricacies and complexities, the human behaviour provides a challenging study. And The Centre for Behavioural Science tries to explore and find solutions to behavioural issues that might develop at the work place or in personal life.

Dayton University, USA.
Summer 2012

Student Exchange Program

The LIBA student exchange programme was established with a view to provide its students with a broader perspective and understanding of international cultures and business realities in different countries.

The rate of student exchange has steadily increased with the number of students going abroad for exchange programmes soaring over the past few years. There was also a growth in the number of international students on the campus. This provides an opportunity for students to interact with the exchange participant and gain an understanding of their culture and promotes a global perspective. LIBA's student exchange programme was created with an objective of turning them into responsible and mature global citizens with an understanding of different cultures and business practices.

Insight

As the name suggests, the core objective of LIBA's flagship symposium is to provide insights to its students about the various aspects of the corporate world. Insight enables the students to interact with the leaders and game changers of today's industry. It aims to equip the students with the knowledge and a mindset that would lead them to professional and personal success.

From the former President Dr. A.P.J Abdul Kalam, to Mr. Arun Jain (CEO Polaris Software Lab Ltd), to Mr. N. Murali (MD Hindu Group) and Kevin Thieneman (Country Manager Caterpillar India) Insight has had several eminent personalities share their knowledge, experiences and opinions with the students of LIBA.

Beacon

Businesses can no longer tread the ethical grey areas to maximize business objectives. In order to further explore the social and environmental responsibilities of businesses, LIBA provides a forum to shed further light on this topic.

BEACON is a progressive symposium that focuses on the ever increasingly important topic of business ethics and its relevance in today's world.

This symposium aims to provide the students with a platform to debate and discuss the importance of business ethics and develop an outlook that gives due importance to sustainability in the matters of business and industry.

Mother Teresa Award

The Mother Teresa Award for the Corporate Citizen, instituted in 1998, is presented every year to a company that has shown exemplary commitment to the ideals of corporate citizenship. The objective of the Award, which has acquired an all-India reputation and is well known in corporate circles, is to showcase a corporation which has gone far beyond its call of duty to promote welfare activities for the benefit of the poor and marginalized sections of society and is environmentally conscious.

The Award winner should be a successful, profit-making listed company that excels in its duty to all its stakeholders, via value addition to the shareholders, commitment to quality, customer satisfaction, harmonious industrial relations, welfare of workers and gender equity.

*Winner of the Mother Teresa
Award for Corporate Citizen 2011 :
TATA CHEMICALS Ltd*

*Winner of a Special Award
SOBHA DEVELOPERS Ltd.*

H.R.Conclave

Human Resources form the core of any organization. Employing a sustainable HR strategy and efficient HR functions has become imperative for an organization in order to achieve its overall objectives. Delving into the importance of the role that HR plays in today's business environment, LIBA seeks to provide its students an opportunity to interact with the thought leaders of the HR industry through its annual event "H.R. Conclave". The objective of HR Conclave is to enlighten students about the latest developments and various innovations in the HR industry. The students learn immensely from the insights of various professionals who provide them with first-hand knowledge about the functioning of the industry.

Finance conclave

Finesse, the Finance club of LIBA conducted the first ever Finance Conclave of LIBA on the 4th and 5th of November, 2011. Under the umbrella of the official theme - "Efficient Frontiers:The Way Ahead", a myriad of topics were taken up and discussed by a plethora of eminent speakers from the financial domain. From the ongoing European debt crisis to the role of India in the financial sector, no stone was left unturned to give a comprehensive view of the real world around us, sparking interest amongst the students to delve more into this world of financial mystery and intrigue - a world within this world itself.

NSEF

The National Social Entrepreneurship Forum is a non-profit organization influencing the youth culture in India both in practice and academia by inspiring, training and supporting students for social innovation & entrepreneurship and in the process, emerged as India's premier youth platform for social innovations with pan-India chapters facilitating the growth of leaders of change.

NSEF Idea Conference is an event to catalyze social entrepreneurship among the youth, drive home social innovation and entrepreneurship and a place to mutually learn about effective solutions to the most pressing social problems.

Mindful Leadership

Loyola Institute of Business Administration, Chennai, in collaboration with University of Dayton, US, has been instrumental in highlighting several social, economic and global issues influencing India and in inviting student volunteers pan-India to participate in their essay-writing competition "Mindful Leadership". The theme for last year was "Entrepreneurs: Wake-up Call for India Inc." This was an eventful experience as LIBA saw a list of eminent jury as well as extremely competitive finalists. The theme felt apt because women all over the world have come a long way to prove to their 20 male counterparts that they are no longer the weaker section of the society. The rewards of the event were handsome, the first prize being a fully sponsored 1-week trip to the University of Dayton, a cash prize and a gold medal.

Outbound Learning Programme

Learning comes from experiments and experiences. The outbound learning programme is aimed to provide students with a hands-on experience by working in a simulated environment. Through carefully thought-out tasks, students are taught the essence of team building and co-operation which cannot be taught through the medium books or PowerPoint presentations!

Rural Visit

The villages are the crux of our nation. A majority of the population lives in the villages. LIBA understands the importance of villages in the nation's economy and sends its students to the villages in order to learn and understand the issues that these villages face. The students are expected to develop innovative solutions to tackle the problems. This is to ensure that the growth and development in the villages do not face obstacles.

One of the most innovative and exciting initiatives of LIBA is the LIBA Premier League. It is an event which is conceived, developed and executed solely by the students. The LPL, modeled on the Indian Premier League is meant to develop managerial qualities and strategic planning abilities among the students. Since it would involve all the students in LIBA, it aims to develop critical qualities like, Teamwork, Integrity, Communication and Coordination etc. among the students.

Similar to the IPL, teams would have to raise funds and bid for a particular city. Upon acquisition, it is up to the team owner to manage the team using the available resources. The teams would be pitted against each other across various sport, management and cultural events that would test the strategizing and coordination abilities of the team members and owners.

All existing clubs like Ignite, 360 Degrees, MarkIt, Finesse and Le Vox Populi have important roles in contributing to their team's success. The objective of this event, which spans a period of one month, is to develop planning and strategizing abilities of the students while building their entrepreneurial skills. An event of grandeur, LPL would ensure every aspect of LIBA would be involved in this magnum opus of an event which aims to promote holistic development across various skills at the same providing a great experience to all the participants.

LPL is a concept that is still growing as the students who are the crux of the event, keep adding various innovative aspects that aim to make it a more enriching and educating experience.

Radius
Social Service Club

With a view to imbibe a sense of responsibility and create socially responsible business leaders, LIBA's Radius was formed. It conducts various events, workshops and drives which deal with many social issues that affect our society. It also provides the students an opportunity to give back to the society. Among the events conducted by Radius were Joy Of Giving Week, Eureka Run and many others.

Beyond Management

Ekalavya

Ekalavya is a progressive and innovative initiative taken up by LIBA. It is a platform for students to interact and share knowledge on various subjects by teaching each other. It encourages the students to learn from one another through lectures, debates and discussions. It provides an opportunity to the students to study a wide variety of topics that interest them by finding like-minded students.

Guest Lecture Series

LIBA gives its students opportunities to learn from the success stories of the industry. Along with regular lectures, the students can attend guest lectures conducted by various professionals from the industry. This provides the students an insight to the functioning of the industry and the ground realities of the business world. The guest lecture series aims to give the students an edge by providing them the opportunity to interact with professionals with an illustrious industry experience.

Ignite

Ignite is the Entrepreneurship Cell of LIBA. It aims to develop the skills and knowledge required to start up a venture. Entrepreneurship is a rewarding career option that develops professionals into business leaders. Ignite assists the students by providing them opportunities to undertake projects and organize seminars, workshops and mentorship programmes. It has partnered with TIE [The Indus Entrepreneurs] and NEN [National Entrepreneurship Network] for various activities and competitions.

Breakfree

Adding elements of fun and excitement to the learning process, the 360 degrees club organizes one of the most anticipated events at LIBA - "Breakfree". A fund raiser where students can unwind and entertain themselves, "Breakfree" is a carnival of sorts where students set up various stalls with different activities and products. It also provides a platform for the entrepreneur in the students to shine, as they are required to develop and sell different types of innovative products at the event.

Espire

PAN India Business Plan Competition

The 3rd edition of PAN India Business Plan Competition "Espire 2010 - Passion to be an Entrepreneur" was organized by LIBA in association with The Indus Entrepreneurs [TIE], Entrepreneurship Development Institute of India [EDI], Government of Tamil Nadu and National Entrepreneurship Network. ESPIRE is aimed to identify, promote and develop today's budding entrepreneurs and tomorrow's business leaders. The results for the competition were announced at a special event at the Chennai Trade Centre. Rediff.com CEO, Mr. Ajith Balakrishnan presided over the event and the winners were facilitated by various dignitaries that included Mr. Ramraj, President, TIE, Chennai and Mr. Sudeep Jain, IAS, Special officer, EDI.

Student Affairs Committee

The Student Affairs Committee acts as the link between the student body and the administration of the institute. They address the concerns of the students and communicate it to the university on their behalf. Various committees such as Placement, Alumni, Corporate Interface, 360 degrees, Conferences and Events are formed and managed by students.

LIBArated

An intra - collegiate cultural competition where the part time and the full - time students challenge each other across a variety of events, LIBArated is organized by 360 degrees. It allows the students to showcase their talents across various cultural platforms like dance, music, photography, cinema. Usually designed around a theme, this cultural festival brings the creative sides of the students to the forefront.

Chrysalis

One of the most exciting inter-collegiate festivals that is a part of life at LIBA is Chrysalis. It is a juxtaposition of various cultural, management and online events where colleges across the nation participate and enthusiastically compete. It is a grand event which is spearheaded by 360 degrees, the Student Affairs Committee.

Cultural Festivals

Being a hub of different cultures, different religions and different sensibilities, LIBA respects and celebrates all the cultural festivals with equal zest and enthusiasm. Nothing exemplifies a secular institution more than the participation of people from different backgrounds in the various festival celebrations organized by LIBA. Pongal, Onam, Janmashtami and others are some of the festivals celebrated. Various events that include music, dance, plays and other cultural activities define LIBA's involvement.

Alumni Club

This committee works to develop a strong alumni network in order to maintain a healthy relationship with the most vital resource for the institution. The alumni are kept informed about all the activities of LIBA through a monthly E-newsletter. They are invited to meet the faculty and the students every year on the Annual Alumni Meet and the Silver Jubilee Meet in Chennai. They are also called as guest speakers for lectures and various conferences that are held in LIBA.

Alumni Meet

LIBA hosts regular Alumni meets with an objective to provide its erstwhile students a networking opportunity to meet and connect with other alumni who are pursuing their careers in various industries. Alumni interacting with students provide them with insights from their experiences and advice on understanding the business world. The Alumni meet is a place to facilitate exchange of ideas and business cards.

Finesse

[Finance Club]

The Finance Club of LIBA, popularly called as Finesse provides a platform for the students to improve their understanding of the complex financial system. By providing opportunities to explore the world of finance through interaction with, professionals and thought leaders, Finesse helps students develop their financial acumen.

Le Vox Populi

[HR. Club]

The HR club of LIBA was formed to help students understand the various HR functions of the industry through several innovative initiatives and workshops conducted throughout the year. The H.R club promotes exchange of ideas and latest trends within the sector and enables the members to stay abreast of the industry developments.

Mark-it

[Marketing Club]

Mark-it is an association that focuses on breaking barriers through innovation and application. It allows the members interested in innovative marketing techniques to apply their knowledge in the real world. Technology and its impact on marketing is constantly discussed and analyzed by the members of Mark-it.

Mindworks

Quiz Club

The Quiz Club of LIBA, Mindworks is a group of students who share a common passion for quizzing. The ability of retention and recollection of information at will is a talent that needs to be perfected. The students at Mindworks hone this ability and take part in quizzes across the nation. They also organize ExQuizite, LIBA's flagship quiz contest along with various others.
