- d) Differently abled: 3%

2. Over and above the Sanctioned intake:

- a) International Students: 15%
- b) Kashmiri Migrants: 2 seats per course

About the Programme:

Symbiosis Institute of International Business [SIIB], a premier management Institute of Symbiosis International University [SIU] offers this unique MBA- Energy & Environment – a two year full time residential program which concentrates exclusively on the Energy & Environment sector, in the global context and addresses the current needs of the industry.

Energy is at the core of all economic activity; indeed, the pace of development of any country is determined by this crucial sector. To ensure sustainable development it is imperative to understand the related Environment issues such as climate change, loss of bio-diversity ozone layer depletion etc. These are global issues and have been a key feature in all recent global debates.

As an Institute of International Business, SIIB believes that strengthening and building capacity in this emerging sector is critical and has taken this initiative to create young professionals who can be assets to organizations in this crucial sector - a sector whose importance will only grow, and grow at an amazing pace, in the years to come.

This MBA – Energy & Environment program will focus attention on both Energy & Environment and equip aspiring global managers with managerial, economic, legal and relevant technical competence. They will serve as experts who provide the link between the worlds of technology and business.

The programme provides a judicious blend of theory and practice and thus prepares the applicant to meet contemporary global requirements.

Course Structure:

Semester – I	Semester – II
Business Economics	Environment Management – The Corporate Perspective
Marketing Management	Global Energy Markets
Concepts of Finance	Project & Process Management
Understanding Carbon Credits	Data Driven Decision Making

Method of Assessment: There will be 100 credits in 4 semesters. Out of which 90 credits will have 60% component of internal evaluation and 40% component of external evaluation. The balance 10 credits will be exclusively (100%) internal evaluation.

Each credit is defined as 15 hours of teaching and each credit is assessed for 50 marks.

Standard of Passing: The assessment of the student for each course is based on the relative performance of the student compared to the class average. Maximum GP is 4 corresponding to A+. For all courses the student is required to pass both Internal and External exams separately with a minimum grade point of 1.6 corresponding to the D-grade point average.

Award of Degree: 'MBA (Energy & Environment)' degree will be awarded by the Symbiosis International University at the end of 4th Semester examination by taking into consideration the performance of all 4 Semesters' examinations after obtaining minimum 2.00 CGPA out of 4.00 CGPA.

The Learning Process:

The focus of this unique program will be to impart the vast area of knowledge in this crucial sector, through case-studies, field trips, visits to industries. The small class size will ensure excellent interaction among peers and with experienced Faculty. The program will focus on learning the practical aspects rather than on merely imparting the theory.

Selection Procedure:

Selection will be based on Personal Interview and essay writing.
