A Rich Selection of Quality Content

Wiley Online Library hosts the most extensive multidisciplinary collection of online resources. Providing access to over two centuries of research, it comprises some of the most influential papers and discoveries in the life, health, physical sciences, social science and humanities. Coverage includes content from Wiley as well as key imprints such as Wiley-VCH, Jossey-Bass and IEEE.

Wiley Online Library has been engineered from the ground up in consultation with our users, publishing partners and customers to ensure it serves the complex needs of today's researchers, authors, professional and scholarly societies, libraries and information specialists.

A Few Quick Facts

- 800+ society partners
- 5+ million articles
- Over 1,500 peer-reviewed journals
- 14,500+ online books and book series
- 140+ multi-volume reference works, encyclopedias and handbooks
- Essential chemistry, spectroscopy, and evidence-based medicine databases including The Cochrane Library and eEROS
- 16,000+ step-by-step and regularly revised laboratory protocols

JOURNALS

Wiley Online Library delivers seamless, integrated access to high impact factor, peer-reviewed primary research and survey journals to meet the information needs of your institution. Operating in partnership with over 800 professional and scholarly societies, Wiley Online Library hosts the official journals of many internationally prestigious organizations. Journals are available at the title level or in four Standard Collections:

- Science, Technology & Medicine Collection
- Medicine & Nursing Collection
- Social Science & Humanities Collection
- Full Collection

Wiley also offers two open access options to complement its subscription publishing:

- *OnlineOpen*: a hybrid open access option for over 1,240 journals and
- *Wiley Open Access*: a program of fully open access journals.

BACKFILES

Wiley backfiles span three centuries of scientific research across 18 million pages from more than 900 journals. Backfiles rescue and preserve that has been effectively beyond for decades, bringing back content and context to the discovery process.

- Coverage extends to Volume 1, Issue 1, and includes issues dating as far back as the 1700s
- Featuring many of the best and earliest journals in their respective fields
- Articles are presented as full-text PDFs that have been optimized for searching, and enhanced to achieve exceptional print quality

Impact Factors for Wiley Journals According to Thomson ISI 2012 Journal Citation Reports (JCR)

- Wiley publishes the largest share of titles in 50 JCR subject categories
- 1,192 journals are now ranked in the 2012 JCR, an increase of 3.2% from 2011 JCR
- The number of Wiley journals with a top category rank increased by 19% from 2011 JCR
- 264 Wiley journals achieved a top 10 category rank across 341 categories

ONLINE BOOKS AND BOOK SERIES

Online Books provide the perfect opportunity for you to add prize-winning and top-selling titles to your electronic resources collection and make them available to the broadest possible audience. With over 14,500 titles available and no DRM restrictions, including handbooks, dictionaries, monographs, guides, and classic book series, they are the ideal complement to Wiley's world class journals.

Online Book Series deliver landmark research across your institution's community while eliminating physical volumes and associated administrative demands. Edited by eminent and pioneering scientists, and Nobel Laureates, these volumes feature cutting edge material to inform current research as well as historical overviews suitable for newcomers to the field.

ONLINE REFERENCE WORKS

Wiley Online Reference Works range from multi-volume encyclopedias to comprehensive dictionaries and handbooks. Available on Wiley Online Library, they offer a rich and comprehensive compendium of knowledge for students, researchers and clinicians across disciplines.

Features include:

- Highly structured full-text articles presented in HTML with embedded references
- Full-text articles available in PDF format for selected works
- Detailed descriptive abstracts and verified bibliographies
- Multi-level subject index
- Author index

Key Reference Works

- Burger's Medicinal Chemistry and Drug Discovery
- Comprehensive Physiology
- Encyclopedia of Applied Linguistics
- Encyclopedia of Financial Models
- Encyclopedia of Life Sciences (eLS)
- Encyclopedia of War
- The Homer Encyclopedia
- Kirk-Othmer Encyclopedia of Chemical Technology
- Patai's Chemistry of Functional Groups
- Ullman's Encyclopedia of Industrial Chemistry

WIREs

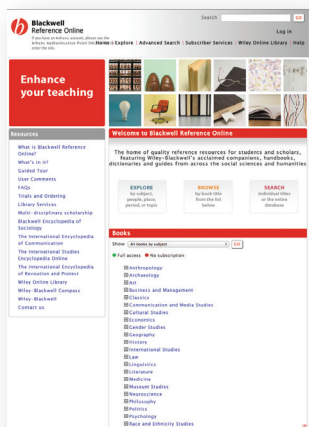

WIREs are unique hybrid publications that combine the most powerful features of online reference works with review journals, emphasizing the importance of interdisciplinary collaboration in research and education. WIREs publications offer state-of-the-science reviews covering all aspects of new and emerging areas of interdisciplinary investigation. The WIREs focus on high-profile research areas. Content is invite-only and reviewed by an internationally renowned Editorial Board, ensuring that the highest scientific and presentational standards are maintained. Each WIRE is carefully crafted to provide encyclopedic coverage of the field and is updated every month with new and fresh reviews, ensuring that the most current information in the field is always available.

WIREs

- Climate Change
- Cognitive Science
- Computational Molecular Science
- Computational Statistics
- Data Mining and Knowledge Discovery
- Developmental Biology
- Energy and Environment
- Membrane Transport and Signaling
- Nanomedicine and Nanobiotechnology
- Systems Biology and Medicine
- RNA
- Water **NEW IN 2014**

BLACKWELL REFERENCE ONLINE

Featuring the critically-acclaimed Blackwell Companions and Handbooks, as well as valuable dictionaries and authoritative encyclopedias, Blackwell Reference Online is the ideal starting point for teaching, learning and research in the social sciences and humanities. Published in annual multidisciplinary collections, or as a complete compendium of reference resources, this vital addition to your social sciences and humanities library now incorporates the full text of almost 600 titles. With contributions from leading scholars from across the globe, Blackwell Reference Online not only charts and summarizes existing scholarship, but also provides inspiring new perspectives.

Volumes featured in the 2013 collection include:

- A Companion to American Legal History
- A Companion to Creative Writing
- A Companion to Media Authorship
- A Companion to World War II, 2 Volume Set
- A Handbook of Middle English Studies
- A Handbook of Modernism Studies
- The Handbook of Global Companies
- The Wiley-Blackwell Companion to Cultural Geography

DATABASES

Global Clinical Solutions Databases

Wiley offers evidence-based medicine databases that are designed to provide healthcare professionals with up-to-date, impartial medical information to facilitate diagnosis and improve patient care by improving outcomes.

This unparalleled resource provides practitioners with protocols, systematic reviews, abstracts, technology assessments, economic evaluations, and clinical trials abstracts, ensuring they have the most up-to-date, independent, and assessed healthcare information at their fingertips.

thecochranelibrary.com

Designed for clinicians who deliver first-contact care, this resource includes more than 13,000 topics, guidelines, abstracts and summaries, covering all the information required to make critical patient care decisions. Essential Evidence Plus now comprises EBM Guidelines when licensed directly from Wiley.

essentialevidenceplus.com

An easy-to-use collection of clinical guidelines for primary and ambulatory care linked to the best available evidence summaries from Cochrane and other sources.

ebmg.wiley.com

The Health Economic Evaluations Database provides access to studies of cost effectiveness and other forms of economic evaluation of medicines, treatments, and medical information, allowing practitioners to make decisions informed by more than 40,000 records over 50 years and the results of searches through more than 5000 journals weekly. Find this database on wileyonlinelibrary.com

Chemistry Databases

Wiley offers a suite of chemistry databases that are designed to complement full-text articles with uniquely powerful features such as chemical structure, sub-structure, reaction, spectrum and property searching. Continuously updated with fresh content, new capabilities, and an expanding network of live links, these databases will boost the working efficiency of active chemists, material scientists, and engineers.

Title List:

- Encyclopedia of Reagents for Organic Syntheses (e-EROS)
- Organic Reactions
- Organic Syntheses
- Organic-Chemical Drugs and Their Synonyms
- SpecInfo
- Wiley Database of Polymer Properties
- Wiley Registry of Mass Spectral Data

CURRENT PROTOCOLS

The Fine Art of Experimentation

Provide your Life Sciences researchers with access to the most up-to-date and comprehensive laboratory protocols. Current Protocols have been the leading source of laboratory protocols for over 26 years and now comprise more than 16,000 techniques and procedures across 17 titles.

Peer-reviewed

Selected and reviewed by editorial boards consisting of distinguished life sciences researchers, Current Protocols techniques are rigorously edited by scientifically qualified in-house staff. All techniques are indexed in PubMed and Scopus.

Up-to-date

Current Protocols content is regularly revised and updated with new material, ensuring that all titles present the latest developments in their fields. Clear, thorough, and easy to use, combining a high level of detail with straightforward, step-by-step presentation, Current Protocols procedures improve the scientific accuracy of your experiments. Further guidance is provided in helpful annotations, as well as in commentaries that include critical parameters and troubleshooting tips.

Currentprotocols.com provides instant, easy access to protocol abstracts, material lists, and more, while linking to full-text content hosted on Wiley Online Library. The site features tools, calculators, videos, and webinars to help researchers both in the lab and beyond the bench.

Current Protocols

- Current Protocols in Bioinformatics
- Current Protocols in Cell Biology
- Current Protocols in Chemical Biology
- Current Protocols in Cytometry
- Current Protocols Essential Laboratory Techniques
- Current Protocols in Human Genetics
- Current Protocols in Immunology
- Current Protocols Magnetic Resonance Imaging
- Current Protocols in Microbiology
- Current Protocols in Molecular Biology
- Current Protocols in Mouse Biology
- Current Protocols in Neuroscience
- Current Protocols in Nucleic Acid Chemistry
- Current Protocols in Pharmacology
- Current Protocols in Protein Science
- Current Protocols in Stem Cell Biology
- Current Protocols in Toxicology

Enhanced Functionality – Adding Value to Your Research

✓ New Design and Architecture

- Built to ensure robust delivery and discoverability
- Intuitive, user-friendly interface – enabling quick and easy navigation, with “jump to” menu options
- Access journals, online books, reference works and databases on a single user interface
- Powerful search engine with enhanced filtering of results
- Designed to comply with the latest accessibility standards

✓ Enhanced Publication Features

- Content Alerts – now with journal branding, available also for Early View and Accepted Articles
- Save and share research easily using tools at the article and chapter level
- Export citations using a variety of reference manager options
- Seamlessly link to references or citing articles within and outside the service

✓ Discoverability Tools

- Discover related articles on the same topic or by the same author
- Federated Searching is enabled through support for the Z39.50 protocol
- Access Control – use Shibboleth, Athens, IP address or username and password for remote users
- Enhanced MARC records – available for online books and reference works
- OpenURL supported with links and DOIs at title, article and chapter level for all content types

✓ Full Text Features

- Download articles in PDF or read in HTML, for most journals
- Enlarge pictures, tables and graphs from links in the HTML full text
- View moving images and 3D interactive models from within the article full text, for select articles

✓ Free Content and Access Icons

- Access Icons are available at the Title, Chapter and Article level so you can easily identify which content is provided by your institution or which content is offered for free on the site
- Online Open – free access to articles funded by the author or author’s institutions
- Free access to tables of contents, article abstracts, chapter summaries, references, author details
- Free supporting information: video, audio, charts and graphs
- Free sample issues and trials

Customer Administration Area

Log into a much improved Customer Administration Area, helping you better manage your holdings. Upload library branding, manage access control, purchase Article Select tokens online and more. Access usage statistics: download COUNTERcompliant usage reports for Online Books and Reference Works and for Journals and Databases, with SUSHI.

Licensing Options

Wiley offers a range of subscription and licensing options to institutions and library consortia designed to meet different needs and circumstances. Select a multi-year deal and take advantage of predictable pricing, pick your holdings title-by-title or in standard collections to benefit from volume discounts. Choose between **Online Only**, **Print Only**, or **Print+Online** combined subscriptions. License directly with Wiley or through a subscription agent or book seller, as a single institution or as a consortium member. We have options for smaller libraries and corporate institutions including Pay- Per-View and Article Select Tokens for downloading articles individually.

A Confident Choice for Libraries

By selecting resources on Wiley Online Library you will be giving your library users the best opportunity to further their studies and research, whatever their field. Some of the benefits include:

- Unlimited, concurrent access for multiple users
- Counter-compliant usage data for your institution
- Flexible selection by title or by collection
- Free course-pack use and walk-in user access
- Campus-wide single site access
- Access to content dating back to 1997 (where available for licensed customers)
- Perpetual access rights
- Flexible access 24/7 from your library, home, or on the road
- OpenURL with links and DOIs
- MARC records and Z39.50 for easy discoverability

Training and Support

- Global Customer Service: including telephone and email support 24/5 and self-help online support 24/7
- Online Tutorials: available 24/7 for key products and in a range of languages
- Webex training: participate in live webinars and online tutorials. Personalized training sessions can be requested for your institution.
- Library Marketing Toolkit: get resources and ideas to help you promote your online resources to your library community
- Subject Librarian Newsletters: get updates on new and upcoming content and special offers in your specialized subject discipline
- Wiley Exchanges: our ideas, research and discussion blog
