## National Oil and Gas Accounting School (NOGAS)

Houston / September 8-11, 2014  
Denver / October 20-23, 2014  
32 CPE Hours / \$1,895

Because of the unique nature of oil and gas operations, accounting methods used by oil and gas exploration and production companies are different from the methods used in other industries. Accountants in both public firms and industry offices will be introduced to the basic operating activities of an oil and gas exploration and production company, and the proper accounting for property, exploration and development costs under the successful efforts and full cost methods. The focus will be on generally accepted accounting principles for financial reporting purposes.

### Who Should Attend

NOGAS is for all accounting, financial, and tax personnel in oil companies, as well as CPAs who audit these firms or who have oil and gas clients. This school is designed for those who have little on-the-job experience or whose industry experience has been limited to a small segment of the industry's operations. An accounting background is recommended.

### Highlights

- Exploration, development and production operations
- Accounting principles for oil and gas producing activities
- Accounting for exploration costs
- Unproved property acquisition, retention, and surrender
- Accounting for costs incurred in drilling and equipping oil and gas properties
- Depreciation, depletion and amortization under the successful efforts method
- Asset retirement obligations
- Impairment of long-lived assets
- Full costs accounting method
- Accounting for oil and gas sales
- Accounting for production costs
- Accounting for conveyances
- Production payment and net profits interest
- Farmouts, carried interest and unitizations
- Disclosures about oil and gas producing activities
- Standardized measure of oil and gas reserves
- IFRS implications for the oil and gas industry

### Instructor

**Don Looney, CPA**, has over 28 years of supervisory experience in all phases of finance and accounting in the oil and gas industry. Since retiring from Amerada Hess Corporation as Revenue Accounting Manager, Don has become a highly rated instructor for PDI teaching numerous courses in oil and gas accounting.

## National Accounting and Auditing School for Joint Interest Operations (NAASJIO)

Houston / October 13-16, 2014  
32 CPE Hours / \$1,895

NAASJIO provides the latest information on joint interest accounting and auditing trends, with emphasis on COPAS pronouncements. This course focuses on areas of potential operator and non-operator disputes over treatment of joint account transactions as well as identification of areas where operators may not be maximizing recoupment of costs. Participants will gain an understanding of the agreements used, how these agreements have changed, and the way they are impacted by COPAS Interpretations and Accounting Guidelines. Individuals will be introduced to COPAS audit techniques and protocols, and examine the challenges facing the joint interest auditor. Discussion of current COPAS projects and case studies complement the course material.

### Who Should Attend

Oil and gas accountants and supervisors who work in joint interest accounting groups, oil and gas auditors and supervisors who perform joint interest audits for non-operators, employees responsible for the hosting of joint interest audits for operators, and employees involved in the negotiation/execution of joint operating agreements. CPAs and firms whose clients own both operated and non-operated working interests.

### Highlights

- Background and purpose of joint operations
- Duties and obligations of the parties to a joint operating agreement
- Comparisons of COPAS accounting procedures and related interpretations
- Overhead recovery mechanisms and agreement "check-off" elections
- Impact of COPAS 24-month adjustment and audit periods
- Audit sampling and testing, with focus on JADE analysis
- Audit protocol and the claims resolution process
- Discussion of problem areas, emerging issues and trends and current COPAS projects
- Case studies focused on chargeability of transactions to the joint account

### Instructor

**Jeff Alcott** has more than 30 years of experience in oil and gas accounting. The James Madison University graduate began his career with Texaco. He has a background in both upstream and downstream accounting and his areas of responsibility have included financial reporting, supervision of joint venture and gas pipeline accounting groups, special projects, Joint Operating Agreement review and negotiation and joint venture audit resolution. Following his retirement from ChevronTexaco Jeff became a consultant, specializing in joint venture audits, vendor audits, internal reviews and litigation support. Jeff served as COPAS President in 2006. He served as COPAS Joint Interest Chair and was a member of the drafting teams of various COPAS documents. Jeff is a past president of COPAS of New Orleans and is an Accredited Petroleum Accountant®.

## National Oil and Gas Revenue Accounting School (NOGRAS)

Houston / November 3-6, 2014  
32 CPE Hours / \$1,895

Accounting for oil and gas revenue in today's changing environment demands a thorough understanding of the many complex issues involving oil and gas production volumetrics, allocations, valuations and sales. Maximizing cash flow, while determining the correct handling of the revenue, is also essential to every company. It is imperative that your revenue personnel understand the many different facets of oil and gas revenues and their accounting and disbursement to industry partners, royalty owners and working interest owners.

### Who Should Attend

For those occasionally working with revenue or just starting in this field, participants will be exposed to the overall theory and concepts that go into accounting for oil and gas revenue as well as internal and external revenue auditing.

### Highlights

- Basic terminology
- How oil and gas are produced
- Measuring oil and gas production and sales
- Allocating oil and gas production to producing properties
- Ownership of oil and gas sales
- Valuing oil and gas sales
- Calculating and paying severance taxes
- Recording production sales and taxes in the accounts
- Accounting for producer and pipeline imbalances
- Gas plant accounting
- Fundamentals of revenue audits

**Instructor - Don Looney**

### Program Location / Accommodation Information

Class hours are 8 a.m. to 5 p.m. Dress is casual. The Houston programs will be held at the Texas Training and Conference Center, 11490 Westheimer, Ste. 600, Houston, TX 77077. Phone: 281.589.1400. Within a short distance of the conference center are a number of hotels to choose from. Most have shuttle service to and from the facility. For the listing, go to [www.txtacc.com](http://www.txtacc.com) and click on nearby hotels. The conference center has negotiated a rate package with each hotel, so make sure you ask for the Texas Training and Conference Centers rate package when you call to book your reservation. However, if you would like to make your reservation online, click on the hotel link and you will be taken to the reservation page with the Texas TACC rate code already filled in.

The Denver programs will be held at the offices of Eide Bailly, 440 Indiana St., Golden, CO., 80401. Closest hotels are Marriott Courtyard Denver West/Golden (next door) at 14700 W. 6th Ave., Golden, CO., 303-271-0776; and Sheraton Denver West, 360 Union Blvd., Lakewood, CO., 303-987-2000. Sheraton shuttle availability within 10 mile radius. For those flying in, you might want to rent a car for ease of transportation in the evening.
