

FIITJEE
WORLD SCHOOL

World Class School Education for Class VI to X

Ideal School Education

...an Initiative of FIITJEE Foundation

Our Main Aim

Prepare Honest, Truthful and Conscious Citizens of the World

who can attain leadership positions and also be conscious of their responsibility towards the Society and the World.

We also Aim for

Preparing Students comprehensively to compete in all Scholastic / Competitive Exams relevant for that class.

- To facilitate student's success in various competitive & scholastic exams in India **e.g. NTSE / National Science Olympiads / JEE Main / JEE Advanced / KVPY / CPT / CAT / JIPMER / AIIMS / AIPMT etc. *and***
Enable students to secure admission in **Prestigious Colleges / Universities of the United States of America (in all Science Streams, Engineering & Medical Faculties).**
- Students will be prepared extensively for SAT, SAT Subject Tests (US College Board), TOEFL and Advanced Placement Tests for admission into Colleges / Institutes / Universities ahead of IITs in the World Rankings.

Why FIITJEE World School ?

Yes, an excellent future for your child is what we promise to deliver. By pushing the boundaries of orthodox education system, by questioning age-old methods of imparting education, by giving young minds the freedom to dream, the inspiration to imagine, and by introducing them to the very idea of excellence, which can transform perceptions, habits, lifestyles, and thus, one's future. When you want nothing but the best for your child, can you compromise on his/her education with something less than extraordinary? We believe the answer is no. And that's exactly the reason why we present to you **FIITJEE World School**.

The FIITJEE World School idea was further strengthened by the expectations of good students and their parents across the country. These expectations were uncovered during a comprehensive study conducted by FIITJEE Foundation across the country. This study focused on academically excellent students and their parents, who had a potential to reach the pinnacle of academic achievement. The key outcomes of this study were:

- Schools should empower a child, to not only dream and aspire for the best in the world, but also to pursue his ambitions, without the need of any external support in the form of tuitions, or specialized trainings or coaching of any sort.
- It should be the onus of the school system to enable a child to be ready for taking up, competing in and succeeding in any career choice he makes. Fact is that any individual spends almost 70% of one's conscious time in his life, in pursuance of a career / profession. How can a school not focus on this aspect and completely alienate schooling from careers, as is happening currently.
- The school should contribute towards developing the inherent talent of all students. However, what happens currently is that school just provides a platform for those with explicit talent to exhibit the same. That is why you will find that the same set of students who are excellent debaters will always represent the school in any debate competition - throughout their school life.
- The personality is developed in a way that the child is able to face the real world on a sound footing. Be it communication, creativity or analytical thinking – the child should be given equal opportunities / individual attention to develop / hone these skills.
- The importance of good value systems like being truthful, honest, respectful to others and concern for the world at large – is instilled in the child right from the beginning.

Ideal School Education

... is one where you do not have to make choices. Choices between performance in boards or competitive exams. Choices between academics and extracurricular activities. Choices between learning and remembering. And most importantly choices between enjoying education and not being stressed by it.

Ideal School Education is one with a holistic approach that is comprehensive, so that there is no need for any sort of coaching / tuitions / supplementary support services. Where the goal is not just good marks in the Board exams and, in the pursuance of this goal, other areas like competitive exam preparation etc. are not neglected / discouraged. Where a child is not stressed during the pursuit of a good performance in the board exams and in the competitive exams. And where the child is able to deliver his / her best in both – boards as well as competitions – that too by having to go through a single system of learning. Where the extracurricular activities are in consonance with the overall objective of wholesome education – making students ready for global careers as well as enabling them to conduct their lives in a much desired, honest, ethical and truthful manner.

Truly Complete Ideal School Education @ FIITJEE World School :

- Focus on life skills and ethics which enable students to lead a better life.
- Conduction of periodical seminars for students focusing on the importance of topics like Self discipline, Goal Setting, Time management resulting in better studentship.
- Regular need based (individual and group) counseling
- Identifying and nurturing the innate abilities of every child.
- Giving a Platform to Students for Global Careers.
- Making Education a Completely Enjoyable Process by Eliminating Stress out of the Child's life.

Ensuring Success

- ❖ Unique Integrated Curriculum which gives a wider and deeper understanding of the Subject.
- ❖ Emphasis on strengthening fundamentals, rather than rote learning.
- ❖ Conducive environment in the classroom.
- ❖ Equal focus on languages and social sciences.
- ❖ Teaching the young learners 'How to learn.'
- ❖ Periodical Goal Setting for students and tracking them.
- ❖ Continuous grading & examinations as a tool to instill competitiveness and completeness.
- ❖ Personal Mentoring outside Class in addition to mentoring and Doubt Clarification Sessions.
- ❖ Training Students for all kinds of Target Exams at one place through a single system.
- ❖ No requirement of any extra help / tuitions from anywhere else.

We Instill -

- Discipline & Confidence
- Punctuality
- Cleanliness & Purity
- Devotion to Duty
- Scientific Temperament
- Sense of Humanism

Enhancing IQ and Raising Competition

Internal Competition and Appraisal Programme (ICAP)

Our weekly objective test (based on micro-scheduled teaching during that week) helps children in continual learning and grading where the child is not burdened just before the exam to learn many things.

Thus a student in FIITJEE World School is NEVER unhappy or tensed about any exam as learning is a constant UPGRADING, ENRICHING, and ENTHRALLING experience.

Individual Assessment and Development Programme (IADP)

This is our month end exam which is based on the month long learning of the child in different subjects. This is a subjective paper which is to hone the writing skills of the child.

Visual and Performing Arts as a medium of Relaxation

Arts of different mediums in our schools (Painting, Music, Dance) is for relaxation so that they improve student's classroom performance. They are forms of giving an output to their parallel medium of communication.

Games like Spell-O and Chess are introduced to keep their concentration sharp

On an everyday basis we have Yoga and Meditation classes which helps children to relax and concentrate better in their classes

Inter-House Competitions

The schools are divided into four houses where in regular intervals competitions like Debates, Declamation, Quiz, Dancing, Singing, Theatre, Bulletin Board etc. are being conducted.

Extra Curricular

Creating Global Indian Citizens

Recognizing the fact that schools need to play a proactive role in nurturing and developing personalities and preparing the students as global citizens with a strong grounding in Indian Value system, FIITJEE World Schools aim for:

1. Proficient & Confident communication ability for each and every student.
2. Inculcating sports / exercises as a discipline for physical fitness throughout the life of each student.
3. Improvement of memory, IQ, mental, physical & spiritual well being, awareness & growth through intensive yoga & meditation for each student.
4. Instilling Indian culture and values in each student, not to learn all this as History & Geography but learn to live like that.
5. Developing personality traits (focus, effective communication, leadership ability, determination, strategic planning, pro-active approach, handling failures, stress and positive attitude required etc.) for success. (This is what corporate sector tries to teach employees who are 25 - 55+ years of age and hardly respond to changes required).

Individual Development Program

- In FIITJEE World Schools, irrespective of IQ levels of the children, best learning environment is provided for nurturing their inherent talents and honing their skills.
- Recognizing the major anomalies in the current education system, FIITJEE World School has come up with a unique Individual Development Program (IDP).
- IDP through an ongoing Mentorship endeavours to provide equal opportunities to every single student.
- The Mentorship is individualized and its sole objective is to identify, develop and enhance the inherent talent / skills in every single student.
- Not restricted to the academic aspects only, IDP ensures the development of the core soft / life skills of the students.

Residential Facilities

World-class hostel facilities that promote a sense of well-being among children in a conducive environment to nourish them and enable them to blossom into ideal human beings.

Inter School Athlete Meet

Studying in Class IX

Academics

- In line with the requirement to prepare students for a Global Higher Education Scenario, the curriculum will cover syllabi of IB, IGCSE, CBSE, ICSE & SSC Board Andhra Pradesh.
- Focus is on conceptual learning rather than memorizing skills.
- Designed in a way that students are prepared for various National / International Level Competitive / Scholarship Exams relevant during the class the child is studying in.
- World-class academic infrastructure like state-of-the-art labs and a very well stocked library support academics.
- Academic processes are constantly innovated and benchmarked with the best in the world. Dedicated academic R & D focused on providing the best possible learning intervention to the students.
- Skill-based, concept-based and competency-based academic inputs that optimise inherent talents and capabilities.

Class VI : Creating a scientific temperament, introduction to competitiveness and versatility in terms of learning while a concept – oriented teaching methodology is followed. Reinforcement of learning is done through lab activities, projects, seminars, discussion on current affairs, latest who's who, field trips.

Class VII & VIII : Take-off on a higher plane keeping in view the competitive exams and a gradual build up of application of concepts begins. Encouraged to solve a number of IDP worksheets to ensure the completion of learning process at the given point of time.

Class IX : Begins with a concrete understanding of the goals set. NTSE, IIT, Medical and General studies – children get branched off based on their interest of pursuit.

Every programme is backed with teaching – learning materials drawn from multiple sources. A dynamic programme continually upgrading itself as per the changing education scenario of the Indian sub-continent. Worksheets, seminars, paper presentations and lab activities – tap the creative corner of the child to bring out the genius in it.

Class X : The class where the means and goals merge into one. AP Board exams- the planning, programme, revision – all culminate in bidding a grand farewell to school education.

Parent Speaks

Mrs. Hari Priya

Mother of **K.V.K. Karthikeyan**

Student of FIITJEE World School, Studying in Class IX

My Son K.V.K. Karthikeyan joined FWS, Ameerpet. Before that he was in a CBSE school, a very well known school in Hyderabad. We changed him to FWS as the syllabus of CBSE was less for him and he used to get bored. Today I am happy that I made the change at the right time. He is very happy to be a part of this school. Earlier he needed me everytime he sat for studying. But now he studies by himself and even forgets that I am near him or not. All the credit for this goes to his teachers and Principal who had encouraged and supported him in every possible way. Last year he was ready to take holiday even when not needed, but today I have to force and beg him to take holiday and he too he is not interested and reluctant. After coming to FWS, Ameerpet only he started taking his studies seriously. He was always good at studies but never had to prepare for exams as giving attention in the class was more than enough to secure grades. Here in FWS he awaits eagerly for the exams and feels the need to excel himself in every subject. Due to the encouragement and importance given, he has improved his handwriting also. I take this opportunity to thank all the teaching faculty and Principal of FWS, Ameerpet.

(Hari Priya (Mother of K.V.K. Karthikeyan))

Parents Speak

Mrs. Latashree & Mr. Shreeram Chakravarthy

Parents of **Bomma Vayunand**

Student of FIITJEE World School in Class IX & X, presently studying at FIITJEE Jr. College in Class XII

Like every human, our child Bomma Vayunand, resisted the change that we initiated in changing his school of 10 yrs. Although we as parents, took a conscious decision for better education of our child were equally worried as to how our child would get along with the changed environment.

All we knew that FIITJEE was pioneer in coaching students to face competitive exams & trusted them to do similar (good) job with school. After almost 2 yrs at FIITJEE Ameerpet, our trust in FIITJEE has been reinforced as our child has evolved to a responsible student in all spheres of activity, more so to do with his approach to academics. As parents, we are glad the way things have turned out for our child not to mention the immense pleasure of our child performing at best of his abilities.

We appreciate all the extra effort put in by the staff members and the Principal in bringing about the positive changes in our child. Thank you team FIITJEE Ameerpet!!

With best regards

Bomma Latashree & Sri Ram Chakravarthy.

About FIITJEE

We had a very humble beginning in 1992 as a forum for IIT-JEE, with a vision to provide an ideal launch pad for serious JEE aspirants.

Today, FIITJEE is the most powerful brand in competitive examination training and education, and therefore needs no introduction. Driven by passion and commitment to grow, we wanted to make FIITJEE synonymous with excellence. And as a result, today we have come a long way from a pure IIT-JEE coaching institute to an ideal learning model that teaches students to learn. We prepare students for competitive exams like Science Olympiads, SAT (Reasoning) Test, SAT (Subject) Tests, KVPY, Olympiads, NTSE etc. The focus remained on developing and enhancing the thinking skills of students. And it was this focus on contributing to the overall development of education as a whole that saw FIITJEE evolving from a pure coaching institute to a holistic education provider.

Having developed the core competencies and delivered unmatched success in handling school education for Class VII to Class XII over last 8 years, our zest for making a difference to student's life grew stronger and stronger. In all the years of imparting education, we have always strived to catch them young. We teach and train these beautiful young minds and thereby create brilliant individuals with strong roots of knowledge and value based education. This spark of an idea became our inspiration for this one-of-a-kind world-class education model. And FIITJEE World School was born.

FIITJEE World School launched under the aegis of FIITJEE Foundation for Education Research & Training, a non profit society, is yet another milestone in our journey. In a way FIITJEE World School is a consolidation of our proven expertise in handling the educational needs of the students - right from basic schooling to preparing them for the best in the world in terms of higher education opportunities. Yet we say - it is another beginning for us. A beginning to create an unparalleled education system with a focus on, not only meeting but surpassing student / parent needs & expectations, in an ongoing way - always.

This journey from just an IIT-JEE coaching institute to the most powerful brand in serious education has been exhilarating. However, the journey is not over yet. For us at FIITJEE, the journey will never be over... For us, this journey itself is the destination.

Few Important Facts One Must Know

Today Indians are considered among the best professionals across the globe. Key contributors to this recognition have been IITians – who are definitely considered the best and comparable with graduates from the Top Universities in the world.

But can the same be said about IITs? Where do IITians go for higher studies after B.Tech?

- The fact is that most of the IITians aspire for top US Universities for higher education in form of MS or MBA. The inherent talent of Indians is what has enabled us to leave an indelible mark on the global front where today Indians & IITians are considered the best, but our education institutes are nowhere comparable to the best in the world.
- Among all Universities the best is for IIT Delhi which is placed at a rank of 222. (Detailed rankings are given on page no. 27 & 28).

The vision of our first Prime Minister Honorable Pt. Jawahar Lal Nehru which resulted in the creation of IITs has not seen any further consolidation over the last 50 years and it is difficult to foresee any major changes in the near future.

Another indicator of the inherent talent of Indians is the fact that for the last 27 years starting from 1986, more than 50% of scholastic awards upto class XII level in US have been won by Indians – who contribute less than 1% of the total population (India Abroad Magazine).

Imagine a similar education system in India and see what we as a nation could have achieved.

And the current school system is also not helping in anyway. In the quest for a good performance in local Boards the larger global prospective is completely ignored.

These facts germinated an idea in our minds. An idea to provide deserving students a platform, an environment, where their aspirations are not limited only to the IITs. Where they can break all the barriers and seek to make a name for themselves and their country across its boundaries. Where they can look for opportunities beyond IITs and actually aspire to go to the best institutions in the world – right after their schooling.

Where their personalities and value systems are ingrained in a way that they are able to handle each and every challenge that life throws at them. That a sound value system is not only sermonized but also practiced so that it gets amalgamated into their DNA. Where a whole new generation is groomed to be world leaders in their chosen areas, and yet be firmly grounded in Indian culture and tradition. Where they become the brand ambassadors for BRAND INDIA – not only for their expertise, but also for their contribution to creating better societies.

FIITJEE continuing with its tradition of innovation and setting new benchmarks in the education domain has conceptualized and embarked onto the path of establishing FIITJEE World Schools for students of class VI, VII, VIII, IX & X. Established under the aegis of FIITJEE Foundation, FIITJEE World Schools are concentrated effort towards preparing students, within the regular school hours, for admission into World Class Universities - An endeavour to reach beyond.
