 - (3) नेताजी धीरे-धीरे मंचपर आए और बोले, "माइयो और बहनो, आप मेरी बात ध्यान से सनिए"।
 - (4) नेताजी धीरे-धीरे मंच पर आए और बोले, "भाइयो और बहनो, आप मेरी बात ध्यान से स्निए?

निम्न गद्यांश को पढ़िए और उस पर आधारित प्रश्नों के उत्तर पर चिह्न लगाइए।

• बात जब राष्ट्रभाषा की हो तो बहुत कुछ सोचना पड़ता है। 64 साल बाद भी हम राष्ट्रभाषा के प्रश्न को हल न कर पाए तो महज इसलिए के हममें सिर्फ सेंटिमेंट(भावुकता) मर है, संकल्प-शक्ति और व्यावहारिकता में हम आज भी कोरे हैं। कमाल पाशा तुर्क की यह कथा आज किंवदंती बन चुकी है जिसमें कमाल ने तुर्की आजादी के तुरंत बाद अपने अधिकारियों से पूछा कि कितने दिनों में तुर्की भाषा अंग्रेजी का स्थान ले लेगी, जवाब मिला दो से तीन वर्ष। इस पर कमाल ने कहा 'तब मान लो कि वह अवधि आज पूरी हो गई' और उसी दिन से तुर्की वहां की राष्ट्रभाषा बन गई।

उलझनें हिन्दी की राह में इसलिए भी अधिक हैं कि उसके संयुक्त परिवार में अपनी—अपनी सत्ता और पहचान के लिए प्यास बढ़ती जा रही है। पता नहीं कब मैथिली, मराठी, भोजपुरी, खोरठा, अवधी, ब्रज, राजस्थानी आदि अपने अपने चूल्हें अलग कर लें। यदि ऐसा हुआ तो जिस संख्या के आधार पर कल तक हम दावें करते आए थे, उसे खोखला सिद्ध करने में कितनी देर लगेगी। हर बोली की उन्नति हो, अकादिमयां बनें, यह तो न्यायसंगत है मगर हिन्दी की सारी बोलियां उससे अलग अपने नितान्त स्वतंत्र अस्तित्व का जेहाद कर लें तो हिन्दी किस मुंह से दावा करेगी? पहले माषा अलग होगी फिर भाषावार प्रान्त—यह राजलिप्सा का परिणाम है। लेकिन हिंदी की रोटी खाने वाले_हमारे कई धुरन्धर साहित्यकार अपने अटपटे आचरण से उसी आत्मधाती राजनीति का पक्षपोषण कर रहे हैं।

- ;38. राष्ट्रभाषा के प्रश्न को हल न कर पाने का क्या कारण है?
 - (1) संकल्प का अभाव
 - (2) प्रश्न की जटिलता
 - (3) समस्या की लंबी अवधि
 - (4) समस्या के प्रति समझ की कमी
- 39. 'संकल्पशक्ति और व्यावहारिकता में हम आज भी कोरे हैं' वाक्य में कोरेपन से क्या तात्पर्य है?
 - (1) अनिभज्ञ
 - (2) सरल
 - (3) कमज़ोर
 - (4) मूर्ख
- 40. कमालपाशा ने किस गुण के आधार पर तुर्की भाषा को तुरंत लागू किया?
 - (1) दृढ़ इच्छा-शक्ति
 - (2) सैन्य शक्ति
 - (3) धन-वैभव
 - (4) शौर्य-पराक्रम
- 41. दिए गए गद्यांश के संदर्भ में 'अपने-अपने चूल्हे अलग कर लें' से क्या तात्पर्य है?
 - (1) अलग–अलग चूल्हों पर रोटी सेंकना
 - (2) अपनी-अलग सत्ता स्थापित करना
 - (3) अलग भोजन करना
 - (4) अलग हो जाना
- 42. हमारे कई धुरन्धर साहित्यकार अपने <u>अटपटे</u> आचरण से उसी आत्मघाती राजनीति का पक्ष पोषण कर रहे हैं।
 - रेखांकित शब्द का सर्वाधिक उपयुक्त समानार्थी कौन सा है?
 - (1) अजीब
 - (2) अस्पष्ट
 - (3) अमद्र
 - (4) अशिष्ट

51-55. Read the following passage and answer questions 51 to 55.

Europeans in the middle ages were great builders of churches and castles. These two classes of buildings expressed the ideas that ruled medieval life. The village might be, and generally was, a collection of damp, dirty and droughty hovels, the city an insanitary huddle of houses, fit breeding place for plague, the castle primarily a insanitary huddle of houses, fit breeding place for plague, the castle primarily a fortress and secondarily a dark, cold inconvenient dwelling. But the church was built as well as decorated, as lavishly as local effort could manage. Its windows were of glass and its walls were painted with pictures in bright colours. Its spire or the tower pointing upwards, directed the gaze of villager and citizen away from an unsatisfactory condition of earthly life to a cloud-land of vision and fancy.

Europe?

- (1) castles
- 12) houses
- (3) villages
- (A) churches
- 52. Why were the medieval cities fit places for breeding plague?
 - The houses were built very near to each other,
 - (2) Insanitary conditions prevailed everywhere.
 - (3) The dwellings were damp and cold.
 - (4) The houses were droughty and inconvenient.
- 53. The medieval castles were intolerable places to live in because they were
 - (1) primarily fortresses.
 - (2) breeding places for plague.
 - (3) dark and cold.
 - (4) surrounded by villages.
- 54. The churches were made specially beautiful in the middle ages because-
 - (1) the beauty of the church made the people forget their miseries
 - (2) people believed that God could live only in beautiful places.
 - (3) the church was considered to be supreme.
 - (4) angels come to live only in beautiful churches.
- 55. While writing about the Europe of the Middle Ages in this passage, the author attempts to project
 - the blind faith and ignorance of people.
 - (2) the simple philosophy of life of the people.
 - (3) the contrasts in living conditions.
 - (4) the insanitary conditions of the cities.
- 56-60 Read the following passage and answer the questions.

One third of all our food – fruits and vegetables – would not exist without pollinators visiting flowers. But honeybees, the primary agents that fertilize food-producing plants, have suffered a dramatic decline in recent times, mostly from afflictions introduced by humans.

Domestic honeybees have already lost as many as one-third of their hives and their wild cousins have become virtually extinct in many places around the world.

A variety of troubles threaten the pollinators: Endless waves of development destroy nesting and feeding grounds; pesticides decimate them along with other beneficial insects.

Agribusiness increasingly treats honeybees as a mass commodity, exposing them to uncontrollable plagues of pests, introduced through human error.

Researchers have seen fewer and fewer pollinators during their travel right from the Sonoram Desert to the Malaysian rainforests. Floral biologists too increasingly realise that there is a reduction in the number of pollinators. The problem can be solved if farmers, beekeepers and pesticide applicators can come together to protect bees which are the primary flower fertilizers. This effort will require operations that extend from farms, orchards and backyards to the deserts of Mexico. Indeed nothing short of a global initiative can reverse the situation.

- If we do not protect the bees, a time will come when 56.
 - the business of beekeepers will get severally hurt. (1)
 - there would not be enough fruits and vegetables for us to eat. (2)
 - farmers, and pesticide applicators will have no business.
 - we will have to depend upon only artificial food and chemicals. (3)(4)
- Which of the following is not a direct reason for the decline in the number of bees? 57. pesticides used by humans.
 - (1)
 - destruction of their nesting grounds. (2)
 - use of honey in medicines. (3)
 - destruction of the feeding grounds of bees. (4)
- The problem of reduction in the number of bees can be solved when 58.
 - beekeepers will stop keeping bees for their honey.
 - agriculture related persons will keep bee protection in mind. (1)
 - special methods will be used to attract bees to flowers. (2)
 - writers and journalists will start writing about protection of bees. (3) (4)
 - The word in Paragraph 1 which means 'diseases' is
 - pollinators (1)
 - declines (2)

10-3

- afflictions bluow addutages but after book mo the a bank and (3)
- species of along yourning oil, and and hull amount guintage (4)
- allonse, have suffered a dramatic duchine in recent times, mostly The word 'reverse' in the last paragraph means -60.
 - to make a vehicle move backwards for parking.
 - to change something so much that it becomes the opposite of the original. (2)
 - to admit that the stand one took in an argument was wrong. (3)
 - to respect what has been said before and accept it. (4) A variety of troubles threaten the polimators: Endless

	DECEMBER 6001)		

They were supposed to plant the acorn a few hundred yards away from the spaceship

but they forgot to do so. You can't really blame them though. They had so much else to do. But what if they had remembered to plant the acorn?

An acorn doesn't need a lot of things to grow. It needs water, soil, sunlight and carbon-dioxide. There is plenty of soil and sunlight on the moon but water and carbon dioxide are in short supply. That is why the astronauts had also taken a watering can with them.

They also carried a small plastic greenhouse with them. The plan was to place the green house right over the planted acorn. Then the greenhouse was supposed to be filled with carbon dioxide.

After the acorn sprouted, it would pop up through the soil right in the middle of the green house. There would be lots of water, soil, sunlight and carbon dioxide for the small plant to grow tall and strong. As the little oak tree grew, it would produce more and more carbon dioxide from its leaves. Its branches would reach out and bump into the walls of the greenhouse. One day; the top of the oak tree would poke its way through the top of the greenhouse when that happened, some of the carbon dioxide and the oxygen would escape through this hole. But the strong plant would continue to grow and continue to produce more of the needed gases.

So if you think of the moon's atmosphere as a small glass bottle in space, it might be possible for an oak tree to grow in its soil. If only the astronauts had not forgotten to plant the acorn...

Select the most appropriate word to fill in the blanks in the given sentence.

- 81 An acorn is the -----of an oak tree.
 - (1) seed
 - (2) sapling
 - (3) cutting
 - (4) back
- 82. The passage is about
 - (1) why the astronauts forgot to plant the acorn.
 - (2) what the astronauts carried with them.
 - (3) how the acorn would have grown on the moon.
 - (4) how to grow an oak tree.
- .83. The surface of the moon would allow the plant to grow because it has enough-
 - (1) water and soil.
 - (2) sunlight and soil.
 - (3) carbon dioxide and water.
 - (4) carbon dioxide and sunlight.

- 84. A green house is-----
 - (1) a green building in which a large variety of plants are grown.
 - (2) a house made of the green plants of different kinds.
 - (3) a glass house that shelters plants from the vagaries of weather.
 - (4) a house where rare and delicate plants are stored.
- 85. The phrase 'reach out' in the passage means:
 - grow under the walls of the greenhouse
 - (2) strike the wall of the greenhouse
 - (3) enter the wall of the greenhouse
 - (4) grow over the wall of the greenhouse

Read the following passage and answer the questions that follow:

Today the animal reserves in East Africa are facing a number of threats. Although they earn considerable revenue by attracting tourists, they do occupy land which is increasingly sought after by local people. While these reserves feed and protect animals, they are in danger of turning into barren areas or deserts. Trees, shrubs, and grass too are gradually being eaten by grazing herds.

Another problem is to be found in the changing attitude of the animals themselves. Many of them are losing their hereditary fear of man. In this way they may become a danger to visitors and in turn to themselves. Attacks on vehicles are also beginning to increase, and it is possible that the problem will become more serious in a few years time.

The problem of shortage of land is not a simple one. As the population increases, more and more people look hungrily at the land set aside for animal reserves. They claim that a Government's first duty is towards the citizens and not towards the tourists or wild animals. Despite the income obtained from tourism, this is an argument which is difficult to counter satisfactorily.

- 86. Which of the following will be the most appropriate title for the passage?
 - (1) Problems Facing East African Tourists
 - (2) Popularity of Animal Reserves as Tourist Spots
 - (3) Survival of Forest Reserves
 - (4) The insanitary conditions of the cities
- 87. Why do many local people look hungrily at the animal reserves?
 - (1) They may wish to visit them frequently.
 - (2) They may seek land for their cultivation.
 - (3) They may want to kill the animals for food.

- (4) They may dislike living in deserted places.
- 88. What is the Government's interest in maintaining the animal reserves according to the passage?
 - (1) To feed and protect wild animals
 - (2) To stop the people from using the land
 - (3) To protect people from wild animals
 - (4) To obtain income from tourism
- 89. What does 'this' refer to in the last sentence of the passage?
 - (1) The revenue derived from tourism.
 - (2) The claim put forward regarding the duty of the government.
 - (3) The fact that animals are becoming less shy.
 - (4) The problems concerning the animal reserves.
- 90. What may be the attitude of animals in these reserves in a few years time?
 - (1) They may endanger every visitor who enters an animal reserve.
- (2) They may become so shy that they are never seen.

The problem of shortage of land is not a simple one. As the population increases, more and more people look hungrily at the land set aside for animal reserves. They claim that a Government's first duty is towards the cilizens and not towards the tourists or wild animals. Despite the income obtained from tourism, this is an argument which is difficult to counter

- (3) They may not fear the vehicles of the tourists.
- (4) They may start leaving the reserve and attacking the local people.

Socressitation of the following will be the most appropriate title for the passing

 - (4) दैया
- 74. 79 को शब्दों में क्या कहते हैं?
 - (1) एक कम अस्सी
 - (2) उनासी
 - (3) उन्न्यासी
 - (4) उन्नासी

नीचे लिखे पद्यांश को पढ़िए और पूछे गए प्रश्नों के सही उत्तरों पर निशान लगाइए।

यह अरण्य झुरमुट जो काटे अपनी राह बना ले! क्रीतदास यह नहीं किसी का, जो चाहे अपना ले! जीवन उसका नहीं युधिष्टिर, जो उससे डरते हैं वह उनका जो चरण रोक निर्मय होकर लड़ते हैं।

- इस कविता की विषय वस्तु क्या है?
 - जंगल (1)
 - खरीदा गया गुलाम (2)
 - लडाई (3)
 - जीवन (4)
- किसका जीवन सार्थक हैं?
 - जो उसे अपना लेते हैं। (1)
 - जो परिस्थितियों का मुकाबला निडर होकर करते हैं। (2)
 - जो उससे डरते हैं। (3)
 - जो अपनी राह खुद बनाते हैं। (4)
- 'अरण्य' शब्द का अर्थ है-
 - झ्रमुट (1)
 - बगीचा (2)
 - जंगल (3)
 - पेड-पौधे (4)
- 'अपनी राह बनाना'— मुहावरे का आशय है— 78.
 - अपने गंतव्य तक पहुंचने के लिए स्वयं प्रयत्न करना। (1)
 - अपनी इच्छानुसार कार्य करना। (2)
 - अपनी राह खोजना। (3)
 - निर्भय होकर लड़ना। (4)
- 79. यह कविता किसको संबोधित है?
 - अरण्य को . (1)
 - यधिष्टिर को (2)
 - क्रीतदास को (3)
 - जीवन को

निम्नलिखित गद्यांश पढिए और पूछे गए प्रश्नों के सही उत्तर पर निशान लगाए। राष्ट्रीय एकता की बहुत बड़ी पहचान हैं - राष्ट्रमाषा। सम्पूर्ण राष्ट्र में अंतरराज्यीय व्यवहार के लिए एक राष्ट्रीय भाषा का होना आवश्यक है। भारत की राष्ट्रभाषा हिमालय से लेकर कन्याकुमारी तक विशाल- राष्ट्र को एक सूत्र में पिरो सकती है। संविधान ने हिन्दी को 'राजमाषा' माना है। मारत के राजनीतिज्ञों ने राष्ट्रीय एकता के इस सूत्र को राजनीति का मुद्दा बना दिया है। राष्ट्रीय एकता की प्रतीक हिन्दी की बात करने वालों को संकीर्णतावादी कहना ठीक नहीं है। भारत की समी भाषाओं को विकसित और समृद्ध होने का अधिकार है। उनमें परस्पर विरोध ठीक नहीं। अंग्रेजी उनकी फूट का लाम उठा रही है। इस देश की खूबियां इसी देश के चश्मे से पहचानी जा सकती हैं, विदेशी चश्मे से नहीं। अंग्रेजी प्रयोग के अपने क्षेत्र हैं। देश के चौमुखी विकास में आज उसका भी योगदान है पर वह यहां के आम लोगों की भाषा कभी नहीं हों सकती।

- 'देश का चश्मा' से क्या अभिप्राय है?
 - (1) देश में बना चश्मा
 - (2) देश को देखने का नजरिया
 - (3) देश की भाषाएं

SECTION - IV

This section consists of two parts. One part has 60 questions on Mathematics and Science and the other has 60 questions on Social Studies. A candidate has to choose one of the two parts to answer questions from.

(A) Social Studies

- The application of the essential principles of modern engineering in Harappan cities is 91. most characteristically evident from the practice of
 - lay out of many of these cities in two or more parts.
 - channeling of water into the Great Bath and the drainage of used water from it. (2)
 - building of one or two-storey high houses with rooms around a courtyard. (3)
 - laying of bricks in an interlocking pattern while building walls. (4)
- One of the possible reasons for the absence of pompous buildings in the Harappan 92. cities was
 - low living standard of the Harappan people. (1)
 - absence of class distinction in the Harappan society. (2)
 - absence of a monarchical system of government. (3)
 - scarcity of requisite material necessary for their construction. (4)
- The most striking way in which the rising heterodox faiths like Jainism and Buddhism 93. differed from the Later Vedic view of life was in relation to:
 - The law of Karma (1)
 - (2)The doctrine of rebirth
 - The faith in self-purification

 The belief in God (3)
 - (4) The belief in God
- In one of his inscriptions, Ashoka proclaimed, "Work I do, and work I must; yet, I am not satisfied". The said statement shows that Ashoka -
 - was not satisfied with the progress made by Buddhism under his patronage.
 - (2) desired his officials to emulate his noble example of serving the people.
 - (3) wanted to extol his image in the eyes of the contemporary kings and his
 - was genuinely committed to serving the people relentlessly.
- In ancient times rulers wanted to control major trading routes primarily because -95.
 - (1) such routes passing through many kingdoms provided an easy option for territorial aggrandizement.
 - trade routes were also in most instances, the routes through which culture and religion travelled.
 - (3) control of these routes served the strategic purpose of preventing foreign cultural influence and military invasions.
 - they could benefit from taxes, tributes and gifts that were brought by traders travelling along these routes.
- In the context of studying the past, manuscripts as important material for historical 96. reconstruction, are rather difficult to use because
 - they provide a great deal of detailed information to be precisely used by (1) historians.
 - they are often found in monastic or temple repositories away from public (2)
 - these documents frequently provide multiple versions of the same text. (3)
 - writings in these documents are often of archaic nature and difficult to read.

- 97. In medieval India, the term 'Rajput' generally referred to a group of -
 - (1) extremely chivalrous people who were of royal descent.
 - (2) warlike people who inhabited parts of medieval Rajputana.
 - (3) rulers, chieftains and warriors who claimed the status of Kshatriyas.
 - (4) people who represented the ruling class all over the subcontinent.
- 98. Which of the following statements is not true about castes in medieval India?
 - People were grouped into castes and sub-castes on the basis of their heritage and occupations.
 - (2) Irrespective of the power and resources controlled by the members of a caste, caste rankings in the society were fixed permanently.
 - (3) Castes framed their own rules and regulations to manage the conduct of their members
 - (4) Along with the rules and regulations of their respective castes people were also required to follow the rules of villages in which they lived.
- 99. Which of the following statements about the Mughal rule in India is not true?
 - (1) The Mughals imposed structures of administration and ideas of governance that outlasted their rule.
 - (2) The Mughals celebrated their genealogy pictorially, with each ruler getting a picture made of Timur and himself.
 - (3) The careful balance between defeating and not humiliating their opponents enabled the Mughals to extend their influence over many kings and chieftains.
 - (4) The Mughals copiously followed the rule of primogeniture to ensure smooth succession.
- 100. Which of the following statements is **true** about the new religious developments in medieval India?
 - (1) New religious developments were hindered in medieval India due to the inherent orthodoxy of the major religious groups in India.
 - (2) This was an age when Islam, Brahmanical Hinduism, Sufism and the various strands of 'bhakti' influenced one another.
 - (3) New religious developments in medieval India were made possible essentially because of the liberal political attitude of rulers like Akbar.
 - (4) Despite the propagation of liberal ideas like human equality and universal brotherhood no 'sufi' or 'bhakti' saint actually rejected the prevalent orthodox religions.
- 101. Which one of the following factors most helped the rise of the Marathas in the Deccan?
 - (1) The conquest of Muslim territories of the South.
 - (2) Their appointments of Muslims on higher judicial posts.
 - (3) Their training in the arts of administration and war.
 - (4) Their insistence about maintaining equality in social affairs.
- 102. Under the British, written records were maintained and preserved primarily because -
 - (1) the British wanted to prove their administrative superiority over the earlier Indian rulers.
 - (2) through written records the British wanted to claim legal legitimacy for their rule in India.

- the British administration in India was accountable to the Home § (3)
- the culture of keeping administrative records helped the British in studying (4) and deciding policies.
- In the context of the British rule in India the term 'colonial' meant : 1012 3169 103.
 - India's status as a dependent country under Britain
 - Britain's rule in India as a victorious power in war (1)
 - Britain's holding of territory in India for economic interests (2)
 - Complete subjugation of India by Britain in all spheres (3) (4)
- Which of the following statements is true about the lives of tribal groups during the 104. British rule?
 - The tribal chiefs retained much of their traditional administrative power but (1) lost their land titles.
 - 'Jhum' cultivators who took to plough cultivation often reaped good harvests.
 - The Forest Department established forest villages in many regions to ensure a (2)(3)regular supply of cheap labour.
 - The opening up of the forest areas to trade improved the economic condition (4) of the tribal people.
- Which of the following statements is not true about Gandhiji's leadership in Indian 105.
 - (1) Throughout India's freedom movement Gandhiji wished to build class unity and not class conflict.
 - During the course of the freedom struggle sometimes people thought of (2)Gandhiji as a kind of messiah.
 - At times, using Gandhiji's name, tribals and peasants undertook actions that (3) did not conform to Gandhian ideals.
 - Throughout India's freedom movement Gandhiji's leadership remained (4) uncontested.
- Which climatic region has the least temperature range? 106.
 - Equatorial region (1)
 - Monsoon region (2)
 - Tropical region (3)
 - Tundra region $(4)_{+}$
- The core of the Earth is: 107.
 - (1) Solid
 - (2) Liquid
 - (3) Gaseous
 - (4) Plasma
- In plantation farming-108.
 - a single cash crop is grown and processed for export
 - the farming is practised in semi-arid areas and therefore crop failure is (1) (2)common.
 - number of crops are grown. (3)
 - there is no special emphasis on any one crop. (4)

109. The sea between Sri Lanka and India is known as: (1) Palk Isthmus (2) Palk Strait (3) Tuticorin (4) Gulf of Kuchchh 110. Which one of the following is the most porous rock? (1) Basalt (2) Granite (3) Sandstone (4) Slate 111. Which layer of the Earth is most suitable for flying jet aircraft? (1) Troposphere (2) Stratosphere (3) Thermosphere (4) Exosphere 112. If the axis of the earth were perpendicular to the plane of the ecliptic, then- (1) all parts of the world would have only days. (2) half of the world would have only days and other half would have only nights. (3) all parts of the globe would have equal days and nights at all times of the year. (4) all parts of the world would have varying lengths of days and nights. 113. Most of the countries adopt their respective standard time from the— (1) longitude of the country. (2) latitude of the country. (3) central meridian of the country. (4) longitude and Latitude both of the country. (5) Sedimentary rocks (6) Sedimentary rocks (7) Metamorphic rocks (8) Metamorphic rocks (9) Sedimentary rocks (10) I5° (11) I5° (12) 30° (13) 45° (14) 60°			he of keeping administrative records helped me officer as	Hira wit	
(1) Palk Isthmus (2) Palk Strait (3) Tuticorin (4) Gulf of Kuchchh 110. Which one of the following is the most porous rock? (1) Basalt (2) Granite (3) Sandstone (4) Slate 111. Which layer of the Earth is most suitable for flying jet aircraft? (1) Troposphere (2) Stratosphere (3) Thermosphere (4) Exosphere 112. If the axis of the earth were perpendicular to the plane of the ecliptic, then- (1) all parts of the world would have only days. (2) half of the world would have only days and other half would have only nights. (3) all parts of the globe would have equal days and nights at all times of the year. (4) all parts of the world would have varying lengths of days and nights. 113. Most of the countries adopt their respective standard time from the – (1) longitude of the country. (2) latitude of the country. (3) central meridian of the country. (4) longitude and Latitude both of the country. (5) Sedimentary rocks (6) Sedimentary rocks (7) Sedimentary rocks (8) Metamorphic rocks (9) Sedimentary rocks (1) Ipneous rocks (1) Ipneous rocks (2) Sedimentary rocks (3) Metamorphic rocks (4) Igneous rocks (5) Sedimentary rocks (6) Sedimentary rocks (7) Sedimentary rocks (8) Metamorphic rocks (9) Sedimentary rocks (1) Ipneous rocks (2) Sedimentary rocks (3) Metamorphic rocks (4) Igneous rocks	109	The se	ea between Sri Lanka and India is known as:		- 1
(2) Palk Strait (3) Tuticorin (4) Gulf of Kuchchh 110. Which one of the following is the most porous rock? (1) Basalt (2) Granite (3) Sandstone (4) Slate 111. Which layer of the Earth is most suitable for flying jet aircraft? (1) Troposphere (2) Stratosphere (3) Thermosphere (4) Exosphere 112. If the axis of the earth were perpendicular to the plane of the ecliptic, then- (1) all parts of the world would have only days. (2) half of the world would have only days and other half would have only nights. (3) all parts of the globe would have varying lengths of days and nights at all times of the year. (4) all parts of the world would have varying lengths of days and nights. 113. Most of the countries adopt their respective standard time from the — (1) longitude of the country. (2) latitude of the country. (3) central meridian of the country. (4) longitude and Latitude both of the country. (5) Sedimentary rocks (6) Sedimentary rocks (7) Metamorphic rocks (8) Metamorphic rocks (9) Sedimentary rocks (10) Is plutonic rocks (11) Is plutonic rocks (12) Is a time of one hour the longitudinal distance is equal to- (1) 15° (2) 30° (3) 45°	107.		D II 1 1		
(3) Tuticorin (4) Gulf of Kuchehh 110. Which one of the following is the most porous rock? (1) Basalt (2) Granite (3) Sandstone (4) Slate 111. Which layer of the Earth is most suitable for flying jet aircraft? (1) Troposphere (2) Stratosphere (3) Thermosphere (4) Exosphere 112. If the axis of the earth were perpendicular to the plane of the ecliptic, then- (1) all parts of the world would have only days. (2) half of the world would have only days and other half would have only nights. (3) all parts of the globe would have equal days and nights at all times of the year. (4) all parts of the world would have varying lengths of days and nights. 113. Most of the countries adopt their respective standard time from the — (1) longitude of the country. (2) latitude of the country. (3) central meridian of the country. (4) longitude and Latitude both of the country. 114. Fossils of animals, plants and other micro organisms are found in: (1) Plutonic rocks (2) Sedimentary rocks (3) Metamorphic rocks (4) Igneous rocks (5) For a time of one hour the longitudinal distance is equal to- (1) 15° (2) 30° (3) 45°		7			
(4) Gulf of Kuchchh 110. Which one of the following is the most porous rock? (1) Basalt (2) Granite (3) Sandstone (4) Slate 111. Which layer of the Earth is most suitable for flying jet aircraft? (1) Troposphere (2) Stratosphere (3) Thermosphere (4) Exosphere 112. If the axis of the earth were perpendicular to the plane of the ecliptic, then- (1) all parts of the world would have only days. (2) half of the world would have only days and other half would have only nights. (3) all parts of the globe would have equal days and nights at all times of the year. (4) all parts of the world would have varying lengths of days and nights. 113. Most of the countries adopt their respective standard time from the— (1) longitude of the country. (2) latitude of the country. (3) central meridian of the country. (4) longitude and Latitude both of the country. 114. Fossils of animals, plants and other micro organisms are found in: (1) Plutonic rocks (2) Sedimentary rocks (3) Metamorphic rocks (4) Igneous rocks 115. For a time of one hour the longitudinal distance is equal to— (1) 15° (2) 30° (3) 45°					
110. Which one of the following is the most porous rock? (1) Basalt (2) Granite (3) Sandstone (4) Slate 111. Which layer of the Earth is most suitable for flying jet aircraft? (1) Troposphere (2) Stratosphere (3) Thermosphere (4) Exosphere 112. If the axis of the earth were perpendicular to the plane of the ecliptic, then- (1) all parts of the world would have only days. (2) half of the world would have only days and other half would have only nights. (3) all parts of the globe would have equal days and nights at all times of the year. (4) all parts of the world would have varying lengths of days and nights. 113. Most of the countries adopt their respective standard time from the – (1) longitude of the country. (2) latitude of the country. (3) central meridian of the country. (4) longitude and Latitude both of the country. 114. Fossils of animals, plants and other micro organisms are found in: (1) Plutonic rocks (2) Sedimentary rocks (3) Metamorphic rocks (4) Igneous rocks 115. For a time of one hour the longitudinal distance is equal to- (1) 15° (2) 30° (3) 45°		-	C 1C CT 1 11		
(1) Basalt (2) Granite (3) Sandstone (4) Slate 111. Which layer of the Earth is most suitable for flying jet aircraft? (1) Troposphere (2) Stratosphere (3) Thermosphere (4) Exosphere (4) Exosphere 112. If the axis of the earth were perpendicular to the plane of the ecliptic, then- (1) all parts of the world would have only days. - All societies hold the same views similarly about the roles that the boys and girls play.
- (2) Our society does not differentiate between boys and girls when they are growing up.
- (3) The work that women do at home is valued as much as what men do outside home.
- (4) Care-giving work is not a part of the larger system of social inequality.
- 133. Which of the following statements is not true:
 - (1) The Fundamental Rights are the conscience of the Constitution.
 - (2) Directive Principles of State Policy are directions to the government.
 - (β) Secularism is a principle that does not allow a state religion.
 - (4) Federalism refers to equality of status between the Central and State governments.
- 134. It is important to separate religion from the state because it -
 - (1) helps the state in protecting the democratic rights of citizens irrespective of their religion.
 - (2) enables the state to prevent anyone from changing her / his religion.
 - (3) helps the state to enact any legislation that may even run contrary to the religious sensibilities of any particular group.
 - helps the state to effectively regulate the activities of different religious organizations.
- 135: The basic idea of a representative democracy is that:
 - (1) The government takes steps to ensure who the people will choose as their representatives.
 - (2) The people decide for themselves who their representatives will be through free and fair elections.
 - (3) The representatives of people decide what type of government the state will
 - (4) The government seeks the opinion of the people's representatives to formulate state policies.
- 136. The independence of judiciary in India has been ensured by -
 - (1) vesting the courts with the power to resolve disputes.
 - (2) accepting the courts as the final interpreter of the Constitution.
 - (3) providing for the enforcement of Fundamental Rights by the courts.
 - (4) Instituting the scheme of separation of powers in the Constitution.
- 137. The Supreme Court and the High Courts in India have the power to modify or cancel laws if -
 - people, who think such laws are not fair, approach any of these courts to decide on the issue.
 - (2) such laws are perceived to be in favour of the interests of certain groups and against the interests of others.
 - (3) on appeal, any of these courts is satisfied that such laws do not adhere to the basic tenets of the Constitution.
 - (4) such laws become controversial on account of a lack of consensus among the political parties.

- 138. In which one of the following is prevention of Atrocities Act 1989 not violated?
 - Forcing a member of SC/ST to drink or eat any inedible items
 - Forcing any one not to vote or to vote for a particular candidate (2)
 - Provision of employment in Govt. Sector organisations (3)

society does not differentiate hetween how and girls when

Forcing to remove clothes from the person of a member of a SC/ST (4) community

The independence of judiciary in India has been ensured by -

accepting the courts as the flust interpreter of the Constitution. providing for the enforcement of Fundamental Rights by the courts Instituting the scheme of separation of powers in the Constitution.

The Sugreme Court and the High Courts in India have the power to modify or concel

such laws are perceived to be in layour of the interests of certain groups and

such laws become controversial on account of a lack of consensus among

In which year were the fundamental duties added to our constitution?

The representatives of people decide what type of government the state will

The government socies the opinion of the people's regresentatives to formula

- (1) 1976

- 141. People are more likely to be healthy if -
 - (1) the public distribution system is made more efficient.
 - (2) they have proper housing facilities.
 - (3) appropriate sanitation facilities are provided.
 - (4) they get minimum education and work opportunity.
- 142. Health service is called public when such services are -
 - (1) owned by the members of the public.
 - (2) available to the general public without discrimination.
 - (3) provided by the government to all citizens.
 - (4) provided to the people by philanthropic organizations.
- 143. Agricultural labourers in villages are forced to accept low wages because -
 - (1) labourers are available in abundance in villages.
 - (2) they do not own their own farm lands to grow crops.
 - (3) they work in others' fields as servants.
 - (4) they are unskilled workers.
- 144. In which of the following ways does the media not play an important role?
 - In covering news and discussing events taking place in the country and the world.
 - (2) In mobilizing public opinion by focusing on a particular story.
 - (3) In setting an agenda for the government to pursue.
 - (4) In giving primacy to uncritical news and views fovouring the government.
- 145. In the context of cotton cultivation and the marketing of cotton cloth in India the merchants make a lot of profit because -
 - (1) the cotton producers are mostly ignorant about how the market operates.
 - (2) the cotton producers remain mostly busy in production activities and have no time for marketing activities.
 - (3) the cotton producers remain mostly dependent on merchants for both raw materials and markets.
 - (4) the government does not help the cotton producers in marketing their products.
- 146. In India the government bears the primary responsibility for providing public facilities because -
 - (1) there is a general lack of private initiatives in providing essential public facilities in India.
 - (2) provision of such facilities can be shared by all.
 - (3) the government collects taxes for providing such facilities to general public.
 - (4) people cannot afford the facilities provided for by private parties.
- 147.11 Multinational companies are eager to set up production bases in India because -
 - (1) they want to contribute to the process of economic development in India.
 - (2) the cost of production in India is much lower than in the developed countries.
 - (3) they can get around laws in India to do profitable business.
 - (4) there is a good communication system available in India.

- 148. "Malls" are:
 - (1) the markets of consumer durables.
 - (2) places with eating joints and fitness saloons.
 - (3) a place where whole sale buying and selling takes place.

in the cortext of cotton cultivation and the marketing of cotton cloth in India the

the cotton producers remain mostly busy in production activities and laye no

the cotton producers remain mostly dependent on merchants for both raw

the government does not help the cotton producers in marketing their products

there is a general lack of private initiatives in providing essential public

In India the government bears the primary responsibility for providing public facilities.

- (4) an enclosed shopping centre with many shops.
- 149. Which of the following is not a common means of livelihood in traditional villages?
 - (1) Services
 - (2) Fishing
 - (3) Farming
 - (4) Weaving
- 150. The scrutiny of which type of content is NOT a part of Censorship of TV Programmes?
 - (1) Interests of Political Parties
 - (2) Vulgarity and violence
 - (3) National Integration
 - (4) Communal harmony.

there is a good communication system available in India.

- 91. Which set shows the given numbers ordered from greatest to smallest
 - $\frac{3}{8}$, 38%. 0.0038, -3.8 and and
 - $\frac{3}{8}$ 38% 0.0038
 - $\frac{3}{8} \qquad 0.0038 3.8$
 - 3 38% 0.0038
- 92. Which expression is true?
 - (1) /-16 > -15 man below below and look
 - (2) 16 < 20 na bourery out donor live Q bus A sioled
 - (3) 16 > 1
 - (4) 16 < -3
- 93. In 1997, the population of China was approximately 1,240,000,000. How is this population written in scientific notation?

ma 0/81

- (1) 1.24×10^9
- (2) 124×10^7
- (3) 1.24×10^8
- (4) 12.4×10^8
- 94. The sides of a right- angled triangle are in the ratio 5:12:13. The sum of the shortest side and the longest side is 144 cm, what is the length of the third side of the triangle?

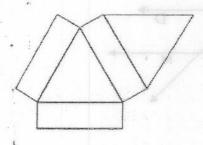

45 gens, How many centils did she sel

- (1) 104cm
- (2) 96cm
- (3) 40cm carried in interior and new land with the interior
- (4) 6cm

- 95. The prime factorization of two numbers is 2 x 3 x 7 x 13 and 3 x 7 x 13³ x 17. Which of the following is NOT a common factor?
 - (1) 147
 - (2) 637
 - (3) 1911
 - (4) 1326
- 96. The circumferences of the front wheel and the rear wheel of a tricycle are 60cm and 45cm respectively. When Bobby begins to ride the tricycle, the point P on the front wheel and the point Q on the rear wheel touch the ground. What is the minimum distance travelled before P and Q will touch the ground again at the same time?
 - (1) 105 cm
 - (2) 180 cm
 - (3) 210 cm
 - (4) 360 cm
- 97. A shopkeeper earns a profit of Rs.2 per pen and incurs a loss of 50 paise per pencil while selling pens and pencils of her old stock. In a particular month she incurred a loss of Rs.10. In this month she sold 45 pens. How many pencils did she sell in the month?
 - (1) 90 pencils
 - (2) 120 pencils
 - (3) 160 pencils
 - (4) 200 pencils
- 98. The weight of a 3 month old baby is 6.08 kg. This is 190% of her weight at birth. What was her weight at birth?
 - (1) 3.2 kg
 - (2) 3.02 kg
 - (3) 2.3 kg
 - (4) 2.03 kg

- (1) $.63.5 \times 10^5$
- (2) $^{1},653 \times 10^{4}$
- (3) 730000 Disc of islanding are perpendicular to smill 201
- (4) 0.065×10^9

100. How many faces are there of the solid formed with the following net?

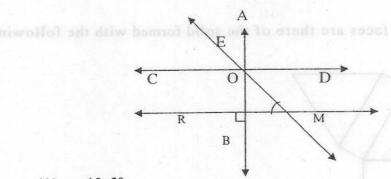

- (1) Eight
- (2) Six
- (3) Five
- (4) Four

101. Which of the following will give: $x \le 12$?

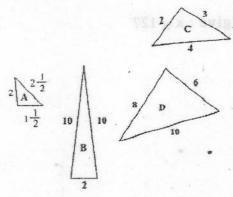

- (1) $3x + 3 \ge 12$
- (2) $6x \ge 2x + 8$
- (3) $4x 12 \le 3x$
- (4) $\frac{1}{2}x + 6 \ge 24x$

102. Lines AB and RM are perpendicular to each other. Line CD is parallel. to line RM. If ∠AOE IS 43.5°, what is the measure of ∠2?

- (1) 43.5°
- (2) 46.5°
- (3) 50.5°
- (4) 90°

103. Which two triangles are similar?

- (1) Triangles A and D
- (2) Triangles B and C
- (3) Triangles C and D
- (4) Triangles A and B

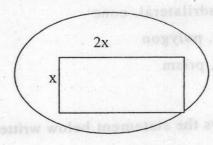

- 104. Which of the following lists contains only the three-dimensional objects?
 - (1) pentagon, sphere, octahedron
 - (2) pyramid, quadrilateral. cone
 - (3) prism, circle, polygon
 - (4) sphere, cone, prism
- 105. Which choice shows the statement below written in algebraic form?

 "The sum of ten times a number and sixteen is greater than four fifth of the number."
 - (1) 10(n+16) > 4n-5
 - (2) $10(n+16) \le 4(\frac{n}{5})$
 - (3) 10n+16-4(n-5)
 - (4) $10n + 16 > \frac{4}{5}n$
- 106. The exact value of \Box (64 × 10⁻⁶)
 - (1) 24×10^{-3}
 - (2) 24×10^{-2}
 - (3) 4×10^{-3}
 - (4) 4×10^{-2}
- 107. Which conclusion about the roots of the equation $(x-1)^2 = -1$ is correct?

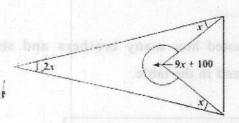

4X + (10 - x) + (7 - x)

- (1) The roots are real and unequal.
 - (2) The roots are real and equal.
 - (3) The roots are imaginary and equal
 - (4) The roots are imaginary and unequal.

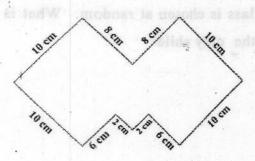

108. If the area of the rectangle given in the figure is 32cm^2 , what will be the circumference of the Circle in case?

- (1)
- (2)
- (3)
- (4)
- 109. A rectangular piece of card measures 20cm by 14cm. Squares of side x cm are cut from the four corners and the card is folded to make an open box. What is the volume of the box?
 - (1) $4 \times (10 x)(7 x)$
 - (2) 4X + (10-x) + (7-x)
 - (3) $4 \times [(10-x)+(7-x)]$
 - (4) $4 \times (10 x)^2 (7 x)$
- 110. What is the sum of internal angles of a polygon of 20 sides?
 - (1) 360°
 - (2) 720°
 - (3) 1620°
 - (4) 3240°

- (1) 20°
- (2) 25°
- (3) 30°
- (4) 35°
- 112. What is the area of this shape?

- (1) 140cm^2
- $(2) 160 \text{cm}^2$
- (3) 180cm^2
- (4) 200cm²
- 113. Cherie rolls a dice ten times and writes down her scores:

2525621542

What is the median of this data?

- (1) 2
- (2) 3
- (3) 3.4
- (4)

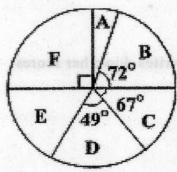

114. A class of 32 students noted how many brothers and sisters they had.

Their results are summarized in the table.

			Brothers		
		0	1	2	3
	0	4	5	1	0
Sister	1	7	6	3	0
7	2	0	4	0	0
	3	1	0	0	1

One students from the class is chosen at random. What is the probability that this student will be the only child?

- (1) 1/8
- (2) 5/32
- (3) 7/32
- (4) 41/3
- 115. The pie chart represents the votes cast for six candidates in a school council election:

What fraction of the votes was cast for candidate E?

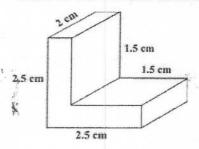

- (1) 64/360
- (2) 1/20
- (3) 1/4
- (4) 29/90

Rs.550

116. Which of the following expressions on simplification gives (3x+4)?

Hexagon ABCDEF has a perimeter of 40cm. Equilateral triangles BCD

- (1) $\frac{3(x+4)+4(3x+2)}{5}$ is gride sold? ORETER too tride by tride A. (91)
- (2) $\frac{2(5x + 6) + 4(x + 5)}{5}$
- (3) $\frac{3(x+4)+4(3x+7)}{5}$
- $(4) \qquad \frac{(5x+15)+4(3-4x)}{5}$
- 117. What is the surface area of this solid?

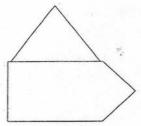

- (A) 18cm^2
- (B) 22cm²
- (€) 28cm²
- (D) $32cm^2$
- 118. A group of boys and girls planted a total of 148 trees. Each boy planted 7 trees and each girl planted 5 trees. There were 4 more boys than girls in the group. How many girls were there in the group?
 - (1) 10
 - (2) 14
 - (3) 8
 - (4) 12

- 119. A shirt and skirt cost Rs.1380. Three shirts and two skirts cost Rs.3310. What is the cost of a skirt?
 - (1) Rs.1930
 - (2) Rs.550
 - (3) Rs.830
 - (4) Rs.1020
- 120. Hexagon ABCDEF has a perimeter of 40cm. Equilateral triangles BCD and DEF have perimeters of 18cm and 12cm respectively. What is the area of rectangle ABDF?

A group of boys and girls planted a total of 148 trees. Each boy planted 7

the group. How many girls were there in the group?

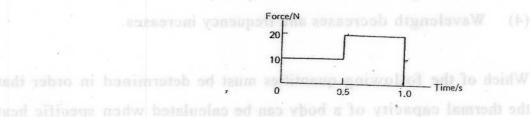

(1) $12cm^2$

1

- (2) $24cm^2$
- $(3) 30 \text{cm}^2$
- (4) 34cm²

(Physics)

121. Force is applied to an object of mass 3 Kg. at rest on a friction free horizontal surface as indicated on the graph:

After one second, the speed of the object in ms⁻¹ is:

- (1) 5
- (2)
- 15
- (4)20
- 122. A car of mass m has an engine which can deliver power P. The minimum time in which the car can be accelerated from rest to a speed v is:
- $(2) \quad \frac{P}{mv} \qquad (3) \quad \frac{2P}{mv^2}$
- 123. A star has a diameter of approximately 0.5 that of Earth and mass of 0.1 that of Earth. The force experienced by a body of mass 1 Kg. on the surface of that star compared to that on Earth is greater by factor:

 - (1) 0.2 (2) 0.4 (3) 0.8 (4)

200

- 124. When light enters glass from air:
 - (1) Wavelength increases and velocity decreases.
 - (2) Wavelength decreases and velocity decreases.
 - (3) Wavelength increases and frequency decreases.
 - (4) Wavelength decreases and frequency increases.
- 125. Which of the following quantities must be determined in order that the thermal capacity of a body can be calculated when specific heat capacity of the body is known?
 - (1) Latent heat.
 - (2) Temperature.
 - (3) Mass.
 - (4) Thermal conductivity.
- 126. A vibrator sets up standing waves in a string as shown in the diagram. If the frequency of vibrator is 'f' then the speed of the wave is:

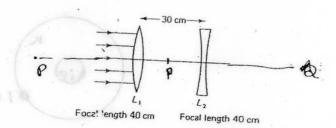

A car of mass m has an engine which can deliver power P,

(1) $\frac{fL}{6}$

- earn box $f(2) = \frac{fL}{3}$ of $f(2) = \frac{fL}{3}$ of
 - (3) 3fL
 - (4) 6fL
 - 127. A diverging lens is prescribed by ophthalmologist to correct-
 - (1) myopia.
 - (2) presbyopia.
 - (3) hyper metropia
 - (4) astigmatism.

128. A diagram represents two thin lenses L₁ and L₂ placed coaxially 30cm apart. A beam of light parallel to the axis is incident on L₁. The final image formed by refraction through both the lenses is-

- (1) Real and between L_1 and L_2
- (2) Real and between L2 and Q.
- (3) Virtual and between P and L₁.
- (4) Virtual and between L₂ and Q.
- 129. Electric bill is paid for:
 - (1) Power
 - (2) Energy
 - (3) Resistance
 - (4) Current
- 130. The physical quantity which corresponds the rate of change of momentum is:

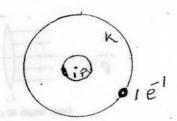

elements are mixtures of isobars.

Which one of the following is an ionic compound?

- (1) Mass.
- (2) Acceleration.
- (3) Impulse. Many automong ni ton ou atnomble lie
- (4) Force.

CHEMISTRY) . (CHEMISTRY) arallel to the axis is incident on La

131. The following atomic diagram represents:

Virtual and between L2 and O.

- (1) Nitrogen atom
- (2) Helium atom
- (3) Hydrogen atom
- (4) Sodium atom
- 132. Which one of the following is an ionic compound?
 - (1) H₂O
 - (2) NH₃
 - (3) CO_2
 - (4) NaCl
- 133. The relative atomic masses of many elements are not whole numbers because -
 - (1) elements are mixtures of isotopes.
 - (2) elements are mixtures of isobars.
 - (3) elements have fractional absolute masses.
 - (4) all elements are not in gaseous state.

- 134. A solution 'x' reacts with crushed egg-shells to give a gas that turns lime water milky. The solution 'x' contains:
 - (1) KCl (Aq) of the observations are given belo (Aq)
- (2) NaCl (Aq)
- (3) HCl (Aq) and moissing pradules and glass ragged
 - (4) LiCl (Aq)
- 135. In which of the following cases you expect can a displacement reaction be expected?
 - (1) Zinc sulphate solution + Copper turnings
 - (2) Copper sulphate solution + Granulated zinc
 - (3) Zinc sulphate solution + Iron filings
 - (4) Ferrous sulphate solution + Copper turnings
- 136. A magnesium ribbon was burnt in air, its ash was dissolved in water. The resulting solution was tested with blue litmus paper, red litmus paper and phenolphthalein solution. Which of the following would be the expected outcome?
 - (1) Blue litmus changes to red.
 - (2) Red litmus remains unchanged.
 - (3) Phenolphthalein solution remains colour less.
 - (4) Colour of phenolphthalein solution changes to pink.

- 137. Some of the observations are given below:
 - (i) Copper sulphate solution gets decolourised by zinc metal.
 - (ii) Copper sulphate solution gets decolourised by iron metal.
 - (iii) Iron does not affect zinc sulphate solution.

In the context of the above statement which one of the following is the correct ascending (increasing) order of reactivity?

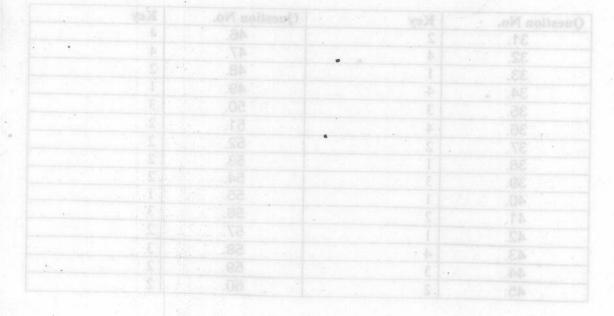

- (1) Cu < Fe < Zn
- (2) Cu < Zn < Fe
- (3) Fe < Cu < Zn
- (4) Fe < Zn < Cu
- 138. Which of the following is a neutralization reaction?
- (1) $2Cu + H_2O + CO_2 + O_2 \longrightarrow Cu(OH)_2 + CuCo_3$
- (2) $SO_2 + H_2O \longrightarrow H_2SO_3$
 - (3) $HCl + NaOH \longrightarrow NaCl + H_2O$
 - $(4) Zn + H₂SO₄ \longrightarrow ZnSO₄ + H₂$
 - Which acid is secreted by the stomach wall to activate digestive enzymes?
 - (1) Lactic Acid.
 - (2) Hydrochloric Acid.
 - (3) Sulphuric Acid.
 - (4) Tartaric Acid.

- An inorganic compound 'x' on strongly heating gave oxygen, an oxide of nitrogen and a residue. Compound 'x' does not dissolve in nitric acid but dissolves in ammonium hydroxide solution. On being treated with tap water it gave a white turbidity. The compound x is:
 - (1) Ag NO_3
 - (2) K NO_3
 - (3) Na NO₃
 - (4) NH₄ NO₃

(BIOLOGY)

- Organic manure as a better option to the use than Chemical fertilizers because -
 - (1) it improves soil texture.
 - (2) it helps to increase eco-friendly microbes in soil.
 - (3) it decreases the water holding capacity of soil.
 - (4) it increases the porosity of soil.
- 142. During the rainy season you and your friend find one small snake like worm moving on the ground. Your friend wonders whether it is a small snake or an earthworm. You point out to him that it is an Earthworm, as it has:
 - (1) a mouth and an anus
 - (2) a clitellum near its mouth
 - (3) moist skin.
 - (4) soft skin.
- 143. After vigorous exercise, a person may experience pain in muscles due to -
 - break down of glucose and release of energy.
 - (2) accumulation of Pyruvic acid.
 - (3) formation and accumulation of Lactic Acid
 - (4) formation of ethyl alcohol.
- 144. Mosquitoes, Cockroaches and Butterflies are classified under the same phylum because all of them have -
 - (1) 3 pairs of jointed legs.
 - (2) wings to fly.
 - (3) metamorphosis.
 - (4) mouth Parts
- 145. In human blood, a toxic substance called carbamino haemoglobin is formed by -
 - (1) the combination of carbon dioxide with haemoglobin.
 - (2) the combination of carbon monoxide with haemoglobin.
 - (3) combination of methane with haemoglobin.
 - (4) combination of nitrogen with haemoglobin
- 146. Identify the correct pair:
 - (1) Puberty Childhood (2) Larynx - Adam's Apple
 - (3) Male Hormone TSH
 - (4) Menarche Stoppage of Menstrual cycle

- 147. Which among the following statements about the process of fertilization is correct?
 - (1) Fertilization always occurs inside the body of an organism.
 - (2) Fertilization also occurs during asexual reproduction.
 - (3) Fertilization does not occur in plants.
 - (4) Fertilization involves fusion of male and female gametes.
- 148. Which of the following is the correct sequence of the components starting from smaller to larger structures?
 - (1) Chromosome Gene Nucleus Protoplasm.
 - (2) DNA Chromosome Nucleus Protoplasm.
 - (3) Chromosome DNA Gene Nucleus.
 - (4) Nucleus Protoplasm Mitochondria Cell wall.
- 149. Identify the incorrect pair:
 - (1) Pancreas endocrine gland
 - (2) Pancreas exocrine gland
 - '(3) Pancreas digestive gland
 - (4) Pancreas excretory gland.
- 150. An industrial unit is situated in a city near a river. It emits gases from the chimney and also other effluents without any treatment which of the following situations would be unlikely to happen in the city?
 - (1) The river water will not be polluted at all.
 - (2) The percentage of pollutant gases will increase in air.
 - (3) The aquatic plants and animals of the river will be adversely affected.
 - (4) Chances for residents of the city to suffer from respiratory diseases will be higher.
