Why Postal Course

- Allow a working person to prepare for AMIE examinations in a manner most suitable to him
- Does not interfere your daily routine
- Sensible worked out study program (well structured, focussed, trendy & dynamic)
- You does not have to physically be present, hence there is no geographical limitations
- Extremely useful for working aspirants having no time to attend classroom courses

Why you should enrol at once.....

- Don't wait for an *emergency* - when everything depends on whether you have completed **AMIE** or not(interview for promotion, for example). Join at once.
- Don't wait till the day when you have to apply for re-registration.
- Don't wait for such do-or-die situation. Act **NOW**. And prepare for **AMIE** examinations to pass subjects at once. Sign on for this course *today!*

Faculty

AMIE(I) STUDY CIRCLE (REGD.) is a network of professors(Retd.)/eminent scholars(M.Tech/Ph.D.) from IIT, Roorkee. Their vast teaching experience has been wholly utilized while preparing the course.

MEMBERSHIP PACKAGE FOR DIPLOMA HOLDERS

Notes for overseas students

The fee mentioned in this package are valid only if you get membership at your **Indian address**. However you may appear in AMIE examinations at your overseas centre(Qatar, for example) by choosing examination centre as "Qatar" while filling examination form. If you want getting membership at your overseas address then you have to apply yourself. For information contact at your overseas centre.(Fee is 250 \$ for getting membership).In this case, you may join our regular postal coaching separately.

We offer a **MEMBERSHIP PACKAGE** for those Diploma holders who intend to become member of **The Institution of Engineers(India)** in order to appear in AMIE Examinations. If you intend to become member of The Institution of Engineers(India) to appear in AMIE Examinations ,then you may join this special package. In this package we will give you single window service in getting membership for appearing in AMIE examinations along with coaching material for preparation.

Under This Package

- ☛ After receiving your form(enclosed) with the requisite fee, we will send you a **membership form** with a **sample form, syllabus & rules & regulations booklet**. We will also send you **coaching material(with evaluation programme)** for Section A(Diploma stream) for ALL FOUR SUBJECTS (new scheme) of your choice. You can start studying these subjects soon after getting our course.
- ☛ You will have to fill membership form and send the form to us by regd. post/courier/speed post.
- ☛ After receiving this form, we will get it attested, thoroughly check it, enclose a demand draft of **Rs. 5800/-** (membership fee + membership pack fee). We will make this demand draft and send it to The Institution of Engineers(India), 8, Gokhale Road, Kolkata by regd. post. You will get membership at your postal address within 5 to 6 months. After getting membership, you may appear in AMIE examinations twice a year(June and December). We will send you latest information about AMIE Examinations & other activities, frequently.

The Package (Fee: Rs. 15000/-) : Membership form + Coaching material for all 4 subjects+ Evaluation programme(Test Series) + Examination form + Free Newsletter (by email) + SMS alerts + Application processing + Membership pack from Kolkata + Website support (additional course + latest exam papers + online interactive quiz + various useful downloads) + Premium E-books

Like this package?

If yes, just fill up enclosed form and send it to us by regd. post/courier/at office counter with a DEMAND DRAFT/CASH of the required fee in favour of **AMIE(I) STUDY CIRCLE** payable at "ROORKEE".

Queries on Our Course

Q. How effective your postal course is?

A. Ours is a result oriented course, and is highly effective. We know that it works. The effectiveness of the course depends on whether you make use of the lessons and assignments. The degree of effectiveness would vary with factors beyond our control, such as the extent to which you make use of them - just as what happens when you go to university. So we cannot guarantee cent percent marks. But as far as we are concerned, we are absolutely convinced that this course is capable of helping you achieve *extremely good marks* provided you read it from first page to last page.

Q. Why I should join your postal course, why not book?

A. Well, this a very interesting question. You know, generally a book covers syllabus of all the engineering colleges in India to augment the sale of the book. In other words, books are not focused according to AMIE Examinations. So you have to put extra efforts to make notes from the book so as to make it useful for your purpose. In this process you waste your precious time. Novelty of our course is that it is focussed. Focussed on AMIE Examinations. And we stay focussed on it. We do not chase any other area. That is why our postal course is better than books as far as AMIE examinations are concerned.

Q. Would I face any difficulty studying this postal course by myself?

A. This is a self study course. And so this course is meant for those AMIE aspirants who are willing to study *on their own* - without being instructed by someone else. And our study materials make this quite easy to do. It is almost impossible that you face any difficulty understanding any topic. Here are the reasons: (i) the lessons do not use language that is unclear or confusing. Notes are written in simple English, easy to understand. They convey ideas from instructor's mind to your mind quickly, easily and accurately (ii) the topics the lessons deal with are well planned and well organized (iii) the lessons do not tell you things in a hurry or leave you wondering what they mean. They explain everything slowly and patiently (iv) the lessons anticipate the sort of difficulties you may run into while learning from them, and sort of queries and questions you may like to get answered. The lessons deal with these difficulties, and answer all these queries and questions thoroughly and completely.

Q. Is your fee reasonable?

A. Yes, of course. We have taken particular care and have made sure that the fee we charge is quite fair. In fact, the fee you pay is really nothing compared to the quality of the course you will be getting. And it's nothing compared to the future benefits you will be getting.
