## HISTORY

The idea of starting a school that would emphasise on and implement the concept of "Learn through Life" evolved during a discussion between Mrs. Vineeta Nagarkar (former Vice Principal of Jnana Prabodhini, Pune), Dr Prakash Bhawe (a practising Radiologist) and Mrs Mrinmayee Bhawe (founder of Daffodils Nursery School, Pune) in 1992.

This was further conceived and conceptualised to merge the ancient 'gurukula' system with the emerging trends of the modern day education system.

## MOTTO

*Swadhyayshakti (Discovering inner strength).*

## PHILOSOPHY

Gurukul strives to enhance a child's physical, social, emotional, and intellectual development in the most crucial years of the child's growth. We encourage children to inculcate a positive attitude towards learning, which will hold them in good stead throughout life. To meet this goal, it is essential to help children set realistic goals and undertake challenges in school that would hone their capabilities.

Gurukul's distinct tradition, culture of innovation and indomitable school spirit, provides a fertile learning field for the New Age Child. Gurukul is an inclusive school where we have students of varying abilities helped with personalised attention. The teacher's role in this enterprise is more to inspire than to teach -- to be a facilitator, role model and a guide.

Creating a quality learning environment involves everyone --- parents, students, teachers, support staff and volunteers, each bringing a unique perspective and contribution towards fulfilling the school philosophy. They are essential ingredients of our school's continuing success.

## Spirit of Gurukul

Gurukul believes in transition from-----

- academics **to** education
- teaching and studying **to** learning and assimilation
- regimentation **to** self discipline
- shortcuts and excuses **to** accountability and responsibility
- unhealthy rivalry and stress **to** supportive friendly competitiveness
- complacency **to** excellence
- ignorance and apathy **to** awareness and involvement

**In Gurukul we believe that the best education is one –**

- ❖ that inspires children with the desire to explore and learn and one that suggests, rather than preaches
- ❖ which enables children to discover their inner strength.
- ❖ where children are encouraged to become both independent and interdependent learners with collaborative project work.
- ❖ which creates a stress free environment and encourages children to approach everyday challenges with a positive attitude.
