Director's Message

NITIE, incepted in 1963, has completed 50 glorious years of providing quality education to the students and industry professionals. We are celebrating Golden Jubilee of NITIE during the year 2013-2015. The ever growing and synergetic blend of technology and innovation is fuelling dynamism in global business arena. Transcending the ever changing business horizon effectively is the key challenge for today's management professionals. It is our consistent endeavour at NITIE to identify the evolving leadership and managerial imperatives of industry and employ a multidisciplinary approach to harness and channelize the latent potential of our budding management professionals.

NITIE has a legacy of professional excellence associated with it. The institute lays the foundation for conceptual and analytical reasoning, giving the students an insight into the dynamics of the corporate world. The course is fine-tuned significantly every year to stay abreast with the current business scenario. We ensure a conducive environment wherein budding professionals unlock their entire human asset potential and develop their inherent skills and insight to don the leadership roles in their own right.

A truly varied mix of academic backgrounds and work experience in various sectors such as manufacturing, information technology, banking et cetera across a number of functions including operations, finance, marketing, logistics and consulting among others; along with unique cultural orientations and diverse backgrounds, the Batch of 2014's greatest asset is its ability to combine all these to develop distinctive managerial solutions with a thrust on values and ethics.
I welcome you to partake in the initial stages of their transformation into future leaders and invite you on campus for the final placements of the Batch of 2014.

I would also take this opportunity to thank the industry for their unflinching support and constant patronage that NITIE has enjoyed. We look forward to experiencing the same synergy in the future as well.

> **"A truly varied mix of academic backgrounds and work experience in various sectors** along with unique cultural orientations and diverse backgrounds with a thrust on values and ethics is the greatest asset of the Batch of 2014"

Prof. (Ms.)Karuna Jain

Director

Invitation from the Dean

(Student Affairs & Placement)

In the mission of creating tomorrow's leaders for the country, we at NITIE are extremely focused on quality education. With a conducive environment for scholastic excellence, we encourage our students to learn by developing a holistic approach. A rigorous academic regimen supported with year round extracurricular activities not only broadens their knowledge base and skills set, but also imbibes in them the feeling of social and individual responsibility. The aim is to create well balanced individuals who would be the change agents of future, yet carry forward the legacy of NITIE.

Over the years, our rich blend of students has managed to excel in the industry and this belief has been reinforced by the consistent faith of recruiters in offering our students diverse and key roles in their organizations. The batch of 2014 has brought together a diverse mix of academic and industry background and cultures.

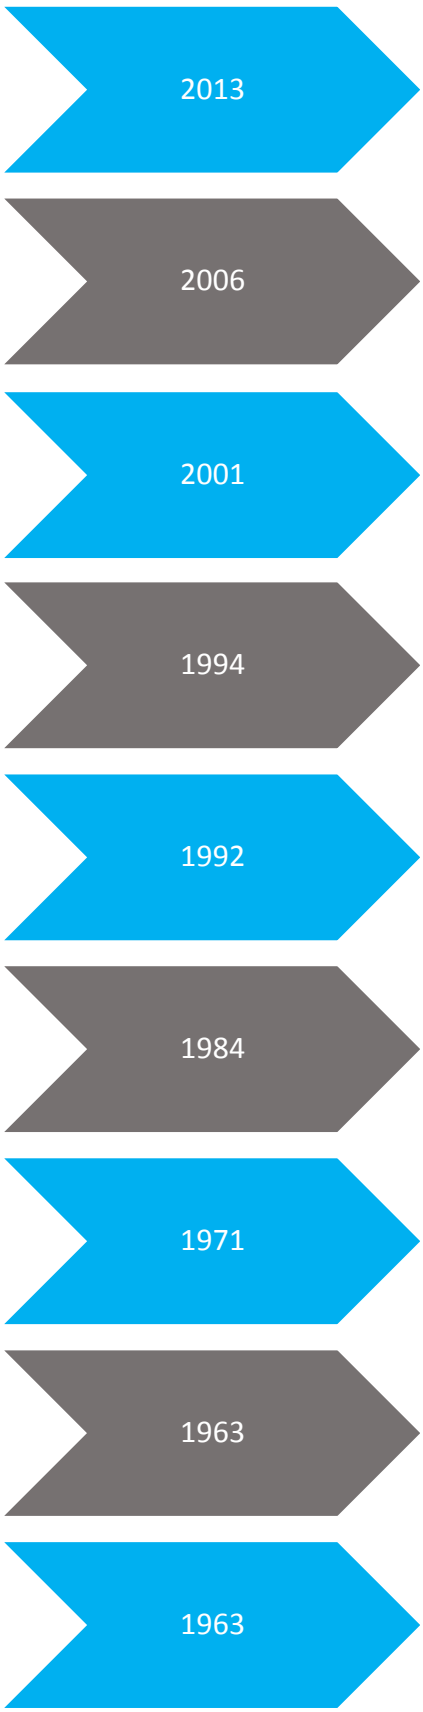
With our integrated approach towards skills and functions, their creative, leadership and innovative skills are being further honed. The journey of their transformation through the unique pedagogy of our institute is on; which we are sure, will hold them in good stead in future. I am confident that they would be able to adapt to various challenging situations with confidence and ease and surpass all expectations when it comes to fulfilling the organizational objectives.

It gives me immense pleasure to introduce to you our enthusiastic, promising and talented students of the Batch of 2014. On behalf of NITIE, I invite you for the final placements of Batch of 2014.

> **A rigorous academic regimen supported with year round extracurricular activities** not only broadens their knowledge base and skills set, but also imbibes in them feelings of social and individual responsibility.

Prof. Ashok K. Pundir
Dean
Student Affairs and Placement

About NITIE



*NITIE celebrates its **Golden Jubilee** year*

PGDITM - *A management programme to focus on systems/IT starts in response to the demand from the corporate world*

PGDISEM - *A very niche course to focus on environment and sustainability starts at the dawn of the new century*

PGDIM - *The management course begins with an aim of imparting cross functional management education*

*Name of the institute changed to **National Institute of Industrial Engineering***

Fellow Programme - *Launch of Fellow programme (Equivalent to PhD Degree) in different areas of Industrial Engineering*

PGDIE - *NITIE joins Industrial Engineering movement with its Techno-Managerial Post Graduate Programme*

*Executive Development Programmes (**EDP**) launched*

*Government of India, ILO and UNDP establish **National Institute for Training in Industrial Engineering***

National Institute of Industrial Engineering (NITIE) was established with the mission of developing industries and businesses in India so that they become prime drivers of growth of the Indian economy. Over its five decades of existence, NITIE has emerged as an epitome of academic excellence by developing leaders who, through their innovations, steer the changing industrial needs. NITIE is celebrating its 50th year of inception in 2013.

Established under the aegis of United Nations Development Programme (UNDP) and the International Labour Organization (ILO), NITIE was set up in 1963 and is as old as the evolution span of management studies in India. Amongst its policy makers and primary visionaries were luminaries like Dr. Vikram Sarabhai, Mr. S. Krishnamoorthy (Government of India), Mr. David Blickenstaff from the United Nations Special Fund, Mr. V.K.R. Menon from the International Labour Organization, Mr. H.D. Shourie, the Executive Director of National Productivity Council to name a few. NITIE is an autonomous institution under the Ministry of HRD, Government of India administered through a Board of Governors representing industry, government, labour and professional bodies.

With the aim of "Udyog Pragati", the institute endeavoured to nurture the industrial excellence employing the versatile industrial engineering tools. Nested in the sylvan woodlands between Vihar and Powai lakes, the buzz of campus activity gives away NITIE's manifestation of the spirit of India's commercial capital. With near five decades of affiliation with the industry, NITIE has emerged as one of India's "Ivy-League" B-Schools and has been acknowledged as a "**Centre of Excellence**" by Ministry of HRD in line with the IITs, IIMs and IISc as well as declared as an "**Institute of National Importance**". NITIE is equipped with the state of art learning facilities and boasts of a faculty drawn from diverse disciplines having rich experience in teaching and consultancy. NITIE provides the industry with an expertise in Industrial Engineering, Supply Chain Management, Operations Management, Consulting, Information Systems, Sales and Marketing, Finance, Strategy, Safety and Environmental Management and Human Resources.

Infrastructure

Library

The library holds over 63,000 books along with nearly 10,000 back volumes of journals. It subscribes to over 252 professional and research journals. The e-library facilities include: EBSCO, Prowess, Economic Intelligence Services, Proquest, HBR online journal. The library is also an institutional member of APICS (USA), NYAS (USA), CAPAM (Canada), TIFR (Mumbai), TISS (Mumbai), the IITs, the IIMs, TERI (New Delhi), and NPC (New Delhi) among others.

Classrooms

Classrooms at NITIE are provided with latest teaching aids, which include LCD projectors, networked computers, cordless microphones and Wi-Fi routers. At the same time, we also believe in the conventional 'Chalk and Talk' method. At NITIE, the aim of each lecture session is to stimulate the minds of students through interactive discussion and two-way participation. The new academic block and library with world-class infrastructure and state-of-the-art classrooms is getting ready by the end of this year.

Computing Lab

NITIE has the latest computing facilities which complement the pedagogy and administrative activities. The IT infrastructure includes a campus-wide LAN, supported by multiple servers, 24x7 internet connectivity through a 166 Mbps dedicated leased line, 600 workstations spread across laboratories, classrooms and hostels. NITIE subscribes to specialized software packages like SPSS, Statistica, SAS, GPSS, Prism etc. Dedicated centers for training on Oracle, SAP, Baan IV Enterprise Tools also exist for imparting practical training.

Hostels

Hostel rooms at NITIE are reckoned by many to be the best amongst India's premier management institutes. Each hostel room is equipped with attached baths, 24x7 internet connectivity and spacious interiors. A new 16-Floor hostel block is getting ready during this year. The hostel life at NITIE fosters a spirit of team work and camaraderie among aspiring managers.

Recreational Facility

NITIE is equipped with modern sports facilities which include flood-lit tennis and basket-ball courts, a badminton court and a multi-utility sports field. It also maintains a scenic jogging track overlooking a pond. In addition, the hostels include library, reading rooms and a common gymnasium with state-of-the-art training equipments. Besides this indoor facilities like table-tennis, pool, carrom board and music room are also avaialable.

Faculty Profile

The NITIE faculty is the hallmark of knowledge, experience and interactive skills. With the cross-functional knowledge of various aspects of business and continuous involvement in consultancy and management development programmes, the NITIE faculty has come to be regarded as the crème de la crème amongst all business schools.

A high-calibre faculty ensures that the students receive maximum exposure to the latest insights and thinking from the industry. The members of the faculty actively engage with students for case based curricula, real world examples and strong academic theories. With a passion for the classroom, they are also experienced, dynamic and interactive group of knowledge leaders.

The combination of broad experience and devotion to scholarship translates into a faculty that is committed to staying ahead in industry trends, countering the business' most complex challenges and imparting their knowledge to tomorrow's business leaders.

The event has been epitome of practical knowledge for the management intrigued people, who have potential to climb the crest of the problem and to reach depth of the solution.

Student Initiatives

Prerana 2012

"Any intelligent fool can make things bigger, more complex, and more violent. It takes a touch of genius—and a lot of courage—to move in the opposite direction."

Prerana, born in 1995, is the annual conclave held at NITIE. The genesis of the event lies in the flagship Summer Project Contest (SPC) which seeks to unearth the best summer projects across subject areas of SCM, Marketing, Finance, HRM, Consulting, and IT.

Beginning with SPC as its sole event in the 1st edition, Prerana today has evolved into a panoply of pioneering contests. The sharpest and the brightest from the best business schools of the country arrive at NITIE every year to put mind over matter and battle it out for the top honours.

The event transforms NITIE into a hotbed of activity focussed at inspiring and driving students towards management excellence. It brings together the brightest management minds of the country, dignitaries from the top echelons of the corporate world, and trailblazers from the world of performing arts and cinema. Through this the event creates a platform for the kind of industry interface without which no management program is complete.

Prerana Business Meet marked the commencement of the five day extravaganza. The discourse this time centered around "Reviving the Indian Economy: Key Focus Areas to Sustain the Indian Growth". The panel included such luminaries as, ***Mr. Anshoo Gaur*** - President and Country Head, Amdocs Development Center India Ltd. ***Mr. Harsh Mariwala*** - CEO, Marico Industries. ***Mr. S. Hajara*** – CMD, Shipping Corporation of India. ***Mr. V. Vaidyanathan*** – CMD, Future Capital Holdings Pvt Ltd.

Prerana 2012 also hosted a series of engaging events including the Summer Project Contest, Reach(Research), Launchpad (Marketing), Beat the Street (Finance), Checkmate (Consulting), TacTix (Ops), etc. which saw corporate participation from over 40 companies with over 18 PPIs offered. A total of 120 corporate dignitaries visited the campus and the event drew a footall of 500 participants from across the premier B-schools of the country.

PBM Panelists 2012: (seated. from left): Prof Ashok Pundir - Student Affairs & Placement, NITIE. Mr. Anshoo Gaur - President and Country Head, Amdocs Development Center India Ltd. Mr. Harsh Mariwala - CEO, Marico Industries. Dr Amitabha De - Ex-Director. NITIE. Mr. S. Hajara – CMD, Shipping Corporation of India. Mr. V. Vaidyanathan – CMD, Future Capital Holdings Pvt Ltd.

Student Initiatives

Litmus 2012

LITMUS is an IT conclave where the leading players of the industry, renowned academicians and Ivy-League B-school students converge to discuss the role of Information Technology in ever changing business scenarios. trend. Since its inception, LITMUS has provided a platform for business leaders, renowned academicians and B-school students to tackle some of the most crucial issues which business leaders face today.

Litmus '12 comprised of a panel discussion and a case study competition. In Biz-Talk, the esteemed panelists had an enlightening discussion on "Cloud, Social, Computing, Information and Mobility – How are companies coping with this rapid shift in trends" that left an impression in the audiences' minds. The panelists comprised of ***Mr. Anantharaman Balakrishnan***, Vice President - Sales, EMC. ***Mr. Abhijeet Joshi***, Pathways Operation Manager, Amazon. ***Mr. Biswajit Mohapatra***, Global Integrated Delivery Leader - Business Application Modernization, IBM India. ***Mr. Sunzay Passari***, Founder & CEO, iPlatini.netiPlatini.net

Professor R.Ramaswamy, Information Technology Application Group, NITIE.

Mr. Anantharaman Balakrishnan, Vice President - Sales, EMC.

Mr. Abhijeet Joshi, Pathways Operation Manager, Amazon.

Mr. Biswajit Mohapatra, Global Integrated Delivery Leader - Business Application Modernization, IBM India.

Mr. Sunzay Passari, Founder & CEO, iPlatini.netiPlatini.net

Samiksha 2012

Samiksha, a series of corporate panel discussions, has come to serve as the ideal platform for thought leaders and industry captains to come together to deliberate on contemporary business problems. By employing the collective wisdom of both the present and the future leaders, Samiksha focusses on the disruptive forces that would be instrumental in shaping the businesses in the future. With the challenging times ahead, and a fundamental shift in the business environment, the Samiksha series attempts to fuel businesses in the new millennium with path breaking ideas. It takes the atmosphere of learning beyond the binds of class room & curriculum.

Few of the topics for the panel discussion were as follows:

- Rising NPAs and Regulatory Reforms in Banking Sector
- Next Generation Supply Chain - Bigger Steps, Smaller Footprints
- Power Deficit in India - Quenching Energy Thirst
- FDI in Retail and its Implications on Supply Chain

Samiksha Panelists 2012: (From left):

Mr. Narendra Kethineni, Principal, Tata Strategic Management Group

Mr. Milind Kulkarni, GM, Kansai Nerolac Paints Ltd.

Mr. R.K. SInha, COO, Godrej Consumer Products Ltd.

Mr. Devdip Purkayastha, President, Chep India

Mr. Abhishek Bhattacharya, VP-SCM, Pepsico India

Student Initiatives

Envision 2012

Envision is an annual event organized by students of NITIE that aims at bringing the leaders from industry, academicians and students from the participating institutes together to discuss environment & safety related risks and share their perspectives on the same. Envision emphasizes the imperative need to discover solutions which are sustainable in nature.

The events in Envision 2012 comprised of of a Case study competition "Engauge", Panel Discussion "Ecolloquim" and an Individual Speaker session named "Green Lantern". The esteemed speakers and dignitaries during Envision 2012 are ***Mr. Erick Vega***, Country Head EHS Schlumberger, ***Mr. Alok Dayal***, Senior Director Environment, IDFC, ***Mr. Sudeep Roy***, GM-EHS ,Philips, ***Dr. Paravastu Rambabu***, CEO General Carbon, ***Mr. Sanjay Shrivastava***, GM-EHS, ABG Cement, ***Mr. Manoj Karmarkar***, AVP- EHS, PI Industries, ***Mr. Dhananjay Vyavhare*** - OHS Head, Nokia Siemens Network, ***Mr. Shaswat DC***, Executive Director Saaga Interactive Pvt. Ltd.

Ecolloquim Panelists 2012: (seated. from left):
Dr. Pravin Sarkar,
Head Environment - WNS Global Services
Dr. Paravastu Rambabu,
CEO General Carbon
Dr. Prasad Modak,
Executive President and Founder, EMC
Mr. Sudeep Roy,
GM EHS - Philips
Mr. Dhananjay Vyavahare,
OHS Head, Nokia Siemens Network
Mr. Manoj Karmarkar,
AVP EHS - PI Industries

The NSC^2 Way

NITIE Students' Consulting Club, otherwise known as NSC^2 develops competencies among the student fraternity at NITIE by aiming to build long-term relationships with consulting organizations. The Raison d'être of the club is to bridge the gap between the industry and the student community in order to create an environment for the students to gain insights into the industry and provide them a platform to explore career options to ultimately develop a career in the same.

NSC^2 organised "**Consul-Talks**" – Lecture series delivered by consultants from E&Y and Accenture Management Consulting as well as "**Zenith**" – A unique workshop-cum-event aimed at equipping students with Consulting tools and strategies, testing their skills on live business problems and presenting results to the end client

B-Gyan

B-Gyan is an industry-institute interaction initiative at NITIE. It is an endeavor to amalgamate the rich experiences of the corporate world with the academic acumen of the students to create meaningful insights into the world of business.

A series of extramural lectures on varied management related topics, it draws very enthusiastic participation from the stalwarts of the corporate world. Eminent speakers such as Mr. Kannan Rajarathnam (Head-Corporate Performance Management, Hinduja Group), Mr. Biju Dominic (CEO, Final Mile Consulting), Mr. Steve Remedios (Head - Customer Marketing, HUL), Mr. Anil Uttamchandani (VP, Head - Portfolio Counseling, Citibank) and the likes have used these lectures as a platform to connect with the students.

Student Initiatives

Empresario

Empresario is an endeavour by the students of NITIE to spread the wave - "Entrepreneurship Everywhere".
It is all about the change creators, it's about dreaming, about believing in beauty of one's dream, about the will to chase the dreams and finally it's all about realizing them. Since its inception in 2004, Empresario has grown many manifolds with new initiatives and mushroomed participation from student as well as the corporate. ***Dr. Vidya Murkambi***, Chairperson, Shree Renuka Sugars Ltd. was awarded '*The Most Inspiring Entrepreneur*' for the year 2012.

Dápprendre-My story session, hosts eminent entrepreneurs like **Mr. Ravi Kiran**, Co-Founder, VentureNursery and **Mr. Bhavish Aggarwal,** CEO and Co-Founder, Olacabs to enlighten the young inquisitive brains with various facets of Entrepreneurship.

Dr. Amitabha De felicitating Dr. Vidya Murkumbi, CoFounder, Shree Renuka Sugars with "EMPRESARIO-Most Inspiring Entrepreneur of the Year Award, 2012"

Engineers' Day

This year at NITIE, faculty members and students enthusiastically celebrated Engineer's Day for the first time. The ceremony was inaugurated by the institute's Director Dr. Karuna Jain, Prof. A. K. Pundir (Dean, Student Affairs and Placement) and Prof. Seema Unnikrishnan (Dean, Academics). The chief guest at the event was Mr. A. K. Juneja, General Manager (Commercial Division) at NTPC Ltd.

As a part of the Engineer's Day celebrations, a new product generation contest was launched. The students were asked to put on their thinking caps and come up with a new product concept. Mazz Khan Pathan bagged the first prize for conceptualizing an eco-mobile charger. Harshita Singh was declared as the first runner up for suggesting a stair climbing design. Other winning entries suggested ideas ranging from developing an air controlled device to a three wheeled battery cum human operated vehicle. The event turned out to be successful and the celebrations are only expected to grow bigger year by year.

Chief dignitaries along with the Organizing Team of Engineer's day

Avartan

Avartan , a journey of a thousand miles begins with a single step. Decades ago NITIE decided to take a step towards making a mark on the business school fraternity through the inception of such events as Lakshya (circa. 2000), Prerana (circa. 1995), Empresario (circa. 2003) , Envison (circa. 2002), and Litmus (circa. 2007). The prime objective of these festivals has always been to provide the much needed industry interface for the students.

On auspicious occation of Golden Jublee celebration of NITIE, Avartan would see the amalgamation of Prerana and Lakshya with the cultural festival – Denovo and the sports meet – Josh. Avartan refers to a rhythmic cycle of Indian music. Chosen as the name for the grand unification, it captures the essence of various events coming together in harmony to create a symphony that befits NITIE.

Course Overview - PGDIE

Post Graduate Diploma in Industrial Engineering (PGDIE)

About Us

PGDIE..A League Ahead…A Different Genre ..

"Companies that are not adequately engaged in industrial engineering are like houses build on sand. At Toyota we have a saying: IE makes money" - Taichi Ohno.

PGDIE is one of the very few courses that enjoy corporate excellence for over four decades. Since its Inception it has been enabling students with methodologies and systematic approaches to deal with diverse industrial challenges. It has continuously evolved since 1971 and is designed to transform engineers into management professionals capable of steering organizations along the growth path. As part of the couse curriculum, the capstone project aims at exposing them to advanced topics (or even subjects) that cater to research activities.

Scope of the programme

The most distinctive aspect of PGDIE program at NITIE is the flexibility that it offers. PGDIEans work to make things better, be the processes, products or Systems. PGDIE covers a gamut of domains viz, Operations Management, Supply Chain Management, Financial Management, Marketing Management, Systems and IT Management, Project Management, Manufacturing, Productivity Management, Quality Management, Ergonomics/Human Factors, Strategic Planning, System Engineering, Logistics Management, Enterprise Resource Planning to name a few. Thus an Industrial engineer from NITIE has seamless career opportunities in a gamut of industries viz Consultancy, FMCG, IT/ITES, Banking/Finance, Manufacturing, Pharmaceuticals, Textile, Real Estate etc.

Admission Process

The meticulous admission procedure of its **42 years old course**, Post Graduation Diploma in Industrial Engineering (PGDIE) Program, ensures that only the "crème-de-la-crème" first class engineers who have already qualified the prestigious Graduate Aptitude Test for Engineering makes it through the institute's hallowed portals. In order to uphold the tradition of excellence this course has to offer, students are filtered through a multi level admission process of GD and PI resulting in the selection of only the brightest and the best. Candidates achieving top rank and constituting arguably the best brains of each engineering discipline at the national level, are made to undergo a rigorous GD and PI process, whereby the attitude as well as aptitude of the candidates, essential to join this course, are put to test.

Course Overview - PGDIM

Post Graduate Diploma in Industrial Management (PGDIM)

About Us

Post Graduate Diploma in Industrial Management (PGDIM) aims to groom the brightest engineering minds of the country into young managers who will not only design better procedures and systems but also manage the associated technologies successfully. The program strives to leverage the students' expertise in handling scientific management principles, methodologies, quantitative and analytical skills for developing the ability to adapt, apply and integrate these skills to enhance managerial effectiveness. PGDIM blends classroom work and hands-on industry internship.

The program strives to develop a holistic outlook that views the organization as an entity and not as a composition of fragmented functional areas. The interpersonal and leadership skills that the students develop as part of this course help them to manage human issues present in complex industrial scenarios, with emphasis on teamwork that builds shared vision and objectives. The practical knowledge that the students gain helps them to hone their skills to develop enterprises into smoothly functioning and efficient supply chains of products, services and information while enforcing internal and external customer relationships.

Admission Process

NITIE is rather fastidious when it comes to admissions to the Post Graduation Diploma in Industrial Management (PGDIM) Program. Only the best of first class engineering graduate applicants makes it to the institute. The institute seeks students who are not only intelligent and highly professional but who can also bring fresh perspectives and energy, during their interactions with teachers and peers. In addition to a superior academic record and professional achievements, NITIE values analytical thinking, teamwork and interpersonal skills.

In consonance with these objectives students are put through a multi-level admission process. The process starts with **CAT - Common Admission Test,** followed by group discussion exercise for candidates clearing the cut off and ends with interview sessions. The selection process at NITIE is arguably amongst the toughest in the country, enabling only the brightest to come on board.

Course Overview - PGDITM

Post Graduate Diploma in Information Technology Management (PGDITM)

About Us

The 21st century has brought with it a rapidly changing world characterized by falling market barriers. The need of the hour is a manager who can function effectively and effortlessly in this demanding environment and exploit emerging IT, communication and process technologies to the advantage of the enterprise. To lead industry in this new era, one also needs self-reliant "intrapreneurs" who can provide the necessary vision and leadership. There is an ever growing need of managers who understand the business processes better and who can use the technology to the advantage of the client. The programme includes a wide spectrum of topics which enable students to move into the areas of Business Analysis, IT Marketing, Business Development (pre-sales) and Project Management. In addition to the classroom training, students get an opportunity to have hands-on learning in the latest technologies which are being used to spruce up the businesses the world over. Guest faculties from prestigious organizations are invited to enrich the learning experience of the students. This 2 year residential course aims at developing:

- An aptitude for identifying business needs and transforming them into IT systems for global enterprises
- An understanding in three main areas of IT management (IT enterprise management, knowledge and information management, and Internet and Web technologies)
- Skills which can contribute to organizations by improving business processes
- Leadership qualities to proficiently drive the organization into the next century

Admission Process

NITIE takes only the best-in-class engineers with relevant IT work-experience or a penchant for IT learning for its Post Graduate Diploma in Information Technology Management (PGDITM). The institute lays emphasis on analytical skills and professionalism. The course is a rich blend of students who bring in their related expertise. In addition to a superior academic record and professional achievements, NITIE values logical reasoning, teamwork and interpersonal skills.

In consonance with these objectives students are put through a multi-level admission process. The process starts with **CAT** - ***Common Admission Test*** followed by group discussion exercise for candidates clearing the cut off and ends with interview sessions. The selection process at NITIE is arguably amongst the toughest in the country, enabling only the brightest to come on board.

Course Overview - PGDISEM

Post Graduate Diploma in Industrial Safety and Environmental Management (PGDISEM)

About Us

In this era of globalization, organizations face a multiplicity of challenges in evaluating the long-term impacts of their business decisions. They need cross functional managers with an ability to understand various business functions. The Post Graduate Diploma in Industrial Safety and Environmental Management (PGDISEM) programme was started in the year 2001 taking into consideration the industry demand for such managers. The PGDISEM curriculum encompasses both managerial and technical aspects of business.

PGDISEM is a unique programme that lays emphasis on sustainable environmental management and is the only programme of its kind in South-east Asia. In addition to general management courses, the course also extensively covers Safety and Environmental Management so that it provides future managers with the skill sets needed to handle real world challenges and lead the transition to sustainable business practices in corporate across industry sectors. Apart from classroom learning, emphasis is also laid on industrial visits, practical case studies, guest lectures, student presentations and management games.

Admission Process

The PGDISEM course seeks students with strong intellectual ability, superior interpersonal skills and a desire to create value for business and society. In addition to a superior academic record and professional achievements, NITIE evaluate each candidate for their passion to work in the field of Environment, Health & Safety.

The selection criteria of NITIE start with short listing candidate based on their CAT percentile, followed by group discussions and personnel interview. NITIE welcomes diversity in all forms like work experience, educational background but above all, NITIE values the zeal of students to be a leader in the knowledge led productivity movement. The selection process at NITIE is arguably amongst the toughest in the country, enabling only the brightest to come on board.

Why Recruit at NITIE?

At NITIE, we maintain the highest standards of excellence by providing a positive learning environment to the students. Right from the rigorous input selection process, which entails screening of first class engineers with strong analytical and problem solving skills – till the admission of a select few, the process assumes the highest quality.

The batch of 2014 has a fine blend of fresh graduates and students with prior experience in domains as diverse as ***FMCG, Automobiles, Engineering, Oil and Gas, Power, Banking, Telecom, Real Estate, Technology and IT.*** Students with prior international exposure during their professional stint contribute further to the learning environment with their broadened views.

NITIE is proud to have an excellent resource of highly knowledgeable and esteemed faculty. It has a high faculty-student ratio and a strong base of highly acclaimed visiting faculty from across specialisations guiding the students and sharing their experience. Further, through different certification courses, a very high degree of academic rigour is maintained.

NITIE has always gone beyond the traditional when it comes to building leadership skills and developing a culture of innovation amongst its students. Student initiatives like ***Lakshya, Prerana, Litmus, Marksfete, Mastishk*** are carried on very successfully round the year, thus putting the virtues of responsibility and team building spirits right across. The contribution of the forums in adding an air of finality to the academic demands cannot be over emphasized

Events like Samiksha and B-Gyan ensure valuable industry insights to the students from the business stalwarts thus reinstalling our belief that the best learning takes place by extensive interfacing with the industry and ensure the same through the summer internships as well as live weekend projects. All these provide the student a firm fundamental knowledge, giving them flexibility to achieve success in a wide range of sectors, industries and functions.

NITIE has always invested in the overall growth of individuals and thus produced managers of tomorrow, who take initiatives, try to learn from every opportunity and successfully handle their responsibilities.

Placements 2013

National Institute of Industrial Engineering (NITIE) once again emphatically proved its resilience to poor economic conditions by achieving 100% placements with an average CTC of Rs. 11.47 Lakhs while placing a huge batch of 375 students in the placement season of 2012-13. This year we saw participation from 112 companies. A wide variety of profiles like SCM, Operations, Marketing, Finance, Consulting, Strategy and IT were on offer.

International offers were made by IFFCO,Sharjah and one of the world's biggest mining companies, Rio Tinto. The Highest package was 63870 Australian dollars offered by Rio Tinto.

The highest domestic package was Rs. 24.01 Lakhs, offered by UHC. FMCGs, the likes of P&G, HUL, ITC, PepsiCo, Colgate Palmolive, RB, Asian Paints etc. continued recruiting from NITIE despite the slowing market conditions. Amazon, Cognizant, Wipro and Infosys continued their strong association with us and recruited in double digits. Wipro was the highest recruiter making 14 offers, followed closely by Cognizant and Infosys making 12 offers each.

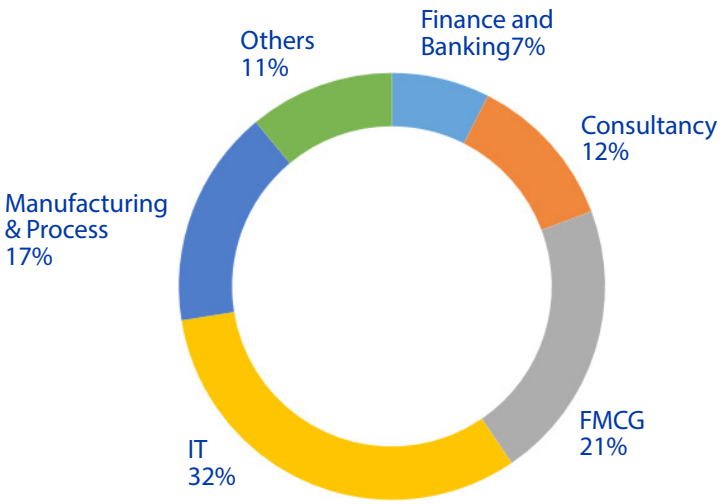
We also saw a rise in the number of PPOs offered. A total of 71 PPOs was offered to the 2013 batch by the likes of CitiBank, Cummins, PepsiCo, GSK, RB, HUL, Tata Motors etc.

Pharma sector saw increase in participation with UHC, Dr. Reddy's, Mylan, Abbott & Ranbaxy offering roles ranging from SCM to IT. The presence of manufacturing was also healthy with the auto sector,with the likes of Hero Motocorp, Bosch, Schaeffler and Maruti, as well as the non-auto sector, with the likes of Freudenberg, TASL, VVF and OPG Power, recruiting in good numbers .

The consulting domain, which recently has seen an increase in traction at NITIE, with the student community enthusiastically welcoming The Big 4, CBC, ZS associates amongst others also included domain specific consults like GeP and Bristlecone. IT, ERP and Analytics based roles were also offered by the likes of JDA, Ramco,Honeywell, HCL, Dell, Bridge i2i etc. The BFSI sector made its presence felt with Citi, DBOI, ICICI, Yes and Neogrowth participating in the final recruitment process. Other sectors like Realty, EPC and Logistics were also represented by players prominent in their respective areas.

2013 Placement Statistics	
Highest Salary (Domestic)	INR 24.01 Lakhs
Highest Salary(International)	AUS $63870
Average Salary	INR 11.47 Lakhs

Sector wise placement



Recruitment Process

The recruitment process facilitates your interaction with the students of NITIE, whom you would be considering for further association.

The process comprises the following stages –

Pre Placement Talks

The process begins with the Pre-Placement Talks, a platform for candid and free interaction between the company and the students. It normally starts with the company presentation introducing the company, its growth path and the career opportunities within the company, followed by an interactive discussion.

Selection Process

The selection process is based on the institute rules and regulations and the company's recruitment process.

Lateral Recruitment Process

In Lateral Recruitment Process (LRP), students having prior work experience of 20 months and above, participate. The Lateral Placements are likely to happen in last week of November/first week of December 2013. During LRP, students are offered "higher than entry" level placements. LRP provides the opportunity to both students and the corporate to leverage the candidates' rich and diverse experience.

Campus Recruitment Process

During the Campus Recruitment Process (CRP), freshers and students with prior work experience of less than 20 months, participate. CRP is tentatively scheduled during first half of January 2014. NITIE follows a slot process wherein companies are slotted on different days based on various criteria – Profiles Offered, Career Growth Opportunity, Remuneration, Past Relationships with the company etc.
