How to reach IIT Kanpur

Kanpur is connected by rail and road with the major cities in India. IIT Kanpur is located at a distance of about 16 kilometers from the Kanpur Central Railway Station, in the vicinity of Kalyanpur, Kanpur. **Taxis are available from the Cantt side of the Kanpur Central Railway Station (from Platform number 1 side).** The city taxis may be old-fashioned. There is a pre-paid auto and taxi booth. **The rates are about Rs. 300/- to 400/- for a taxi, and Rs. 150-200/- for an auto-rickshaw.** Sometimes you may be able to negotiate a few rupees less with the driver, if

you don't go to the pre-paid booth. For taxi services you can also call the following taxi agencies located at IIT Kanpur.

Surendra Yadav Taxi Services	0512-2595094
Rajpal Yadav Tours and Travels	0512-2595095
Amit Travels	0512-2595096

Please use <http://radiotaxikanpur.com/> for online booking of taxis. Radio cab numbers for booking via telephone/mobile are as follows:

09838204035
08052411111
05122622222
07897662244

Please make sure that you get down only at your destination and not at the IIT gate. In case of difficulty in reaching VH one may call on phone numbers of Visitors' Hostel: 0512-2597209 and 0512-2597202. If you are staying in Student Hostel, you can call Mr. Kalpant Pathak.

Air connectivity

Visitors coming over to Kanpur have to get down at Lucknow Airport, Lucknow, the capital city of the state of Uttar Pradesh, India. One can avail the taxis at the airport taxi-stand, but they can ask for any arbitrary amount. You can use the taxi service numbers listed above to book a taxi in advance. **Depending on the type of vehicle, these taxis will charge between Rs 1400/- and Rs. 2000/-.** (Charge for Air-conditioned taxi is only Rs. 100/- to 200/- extra.)

Accommodation

Accommodation for the participants is provided in the Visitor's Hostel, Hall 8, Hall 10, Hall 11, GH 2, and GH Tower. Please see the following link for details: http://www.iitk.ac.in/ncc2014/documents/accommodation_list_ncc_2014.pdf.

Internet Access

1. In the VH, all the guest rooms have DHCP (Dynamic Host Control Protocol) for direct Internet connection, i.e. no IP address, User ID or password is required for accessing the Wi-Fi enabled internet services through their laptop.
2. All other areas have DHCP, but you need to configure your computer to use a proxy server with the supplied username/password. In order to configure DHCP, follow the steps below:
 - a. Go to Start >> Settings >> Control Panel >> Network Connections >> Local area Connection >> Properties
 - b. Select Internet Protocol (TCP/IP)
 - c. Click Properties, select Obtain IP address automatically and Obtain DNS address automatically
3. Next, you need to configure your browser to use one of the following proxy servers:
 vsnlproxy.iitk.ac.in OR bsnlproxy.iitk.ac.in OR nknproxy.iitk.ac.in OR ironport1.iitk.ac.in OR ironport2.iitk.ac.in
 Set the port number : 3128

4. Proxy settings are configured as follows:
 - a. INTERNET EXPLORER
 - i. Go to Tools>>Internet Option>>Connections>>LAN Settings
 - ii. Check <Use a proxy server for your LAN> and <Bypass proxy server for local addresses>
 - iii. Set the desired proxy server (see pt. 2)
 - iv. Click on Advanced Settings
 - v. In Exceptions, add *.iitk.ac.in;172.*;localhost;127.0.0.1
 - b. MOZILLA FIREFOX
 - i. Go to Tools >> Options >> Network >> Settings
 - ii. Select manual Proxy Configuration and set the desired proxy server (see pt. 2)
 - iii. In "No Proxy for", add .iitk.ac.in, 172.16.0.0/12, localhost, 127.0.0.1
 - c. GOOGLE CHROME
 - i. Go to Wrench >> Options >> Under the Hood >> Change Proxy settings >> LAN Settings
 - ii. Check <Use a proxy server for your LAN> and <Bypass proxy server for local addresses>
 - iii. Set the desired proxy server (see FAQ 13)
 - iv. Click on Advanced Settings
 - v. In Exceptions, add *.iitk.ac.in;172.*;localhost;127.0.0.1
5. In the academic area, you can also uncheck "Proxy Server" configuration, and attempt to access internet with any browser. You will get an authentication window. Upon authenticating with the supplied username password, you will get a page saying: "The browser window is used to keep your authentication session active..." You may then open a new window or new tab to access the internet.
6. To use any other application such as mail IMAP/POP, SSH, FTP, Skype, Google Talk etc., you must first authenticate yourself by accessing the Internet through the browser and keep the authentication window minimized while you are accessing the application.
