Other Benefits

- Surrender Value/Paid Up Value**

The policy acquires paid-up value and/or surrender value only if at least 3 full policy years' premiums have been paid and 3 full policy years have elapsed.

If premiums have been paid for first 3 policy years and thereafter premiums are not paid within the grace period, the policy will be treated as paid-up.

The Sum Assured payable on death or maturity of paid up policies will be reduced based on the number of premiums paid and the survival benefits already paid. The Sum Assured so reduced will be called the Paid-up Sum Assured. The Paid-up Sum Assured along with any vested bonuses will be called the Paid-up Value of a policy. If the policy is not subsequently reinstated, this paid-up value will be payable on maturity or earlier death of the life assured. A paid-up policy will not participate in any subsequent distribution of profits.

The policyholder may terminate an in-force or paid-up policy before death or maturity by surrendering the policy for a surrender value.

The Guaranteed Surrender Value (GSV) as defined in Section 113 of the Insurance Act, 1938 is 30% of all premiums paid excluding first-year premiums, extra premiums, if any. However, if any survival benefit had become payable or has been paid on life assured surviving to the stipulated date(s), the premiums prior to the date(s) of such survival shall not be taken into account when calculating the GSV. Cash value of the allocated bonuses, if any, will also be added.

The Non-Guaranteed (Special) Surrender Value (SSV) will be based on an assessment of the asset share progression at different durations of the policy. This assessment would be based on past financial and demographic experience of the product / group of similar products and likely future experience and will be reviewed from time to time depending on changes in internal and external experience and likely future experience. The surrender value will depend on the term of the policy, the number of years for which premium have been paid and duration elapsed at the time of surrender.

The surrender value will be expressed as a discounted value of the paid up value of the policy.

On surrender, the higher of the Non-Guaranteed SSV and the GSV will be paid.

Surrender value will be available after the completion of 3 policy years from policy inception.

No surrender value is payable on the riders

Simple Reversionary Bonuses would be declared as a percentage rate, which apply to the basic sum assured in respect of the basic policy benefit (not of riders). Reversionary Bonus is declared based on our long term view of investment returns, expenses, mortality and other experience.
