## FROM THE DESK OF CHAIRMAN, CCMT-2014

It is my privilege to extend warm greetings to all aspiring candidates for M.Tech. / M.Arch./ M.Plan. admission and welcome all of them to the Centralized Counselling Process 2014. Education is considered as one of the important pillar for the national development effort and Technical Education is an integral and most essential part of it. It is a powerful tool to build knowledge-based society of the 21st century. It is our constant endeavour to improve and expand technical education, of which selection process is of primary and fundamental importance. In our dedicated effort to achieve this aim, and to empower the technocrats to become excellent human resource and also to contribute meaningfully to the Nation and the human society, CCMT 2014 is resolute to select bright students for M.Tech., M,Arch., and M. Plan. programmes in premier technical institutes of the country.

This year SPA Vijayawada, IIT Allahabad, Central University of Rajasthan, NIT Meghalaya, NIT Goa, NIT Puducherry, and NIT Nagaland have also joined CCMT to provide convenient and efficient window to the aspiring students for admission to their post graduate programmes. Similar to the last year, all the admissions in participating institutes will be made on the basis of GATE score in the respective categories. To have consistency and to make the admission process standardised, no change in the admission process has been done. To provide better opportunity to all eligible candidates of getting admission and full utilization of resources available with participating institutes, there will be four rounds of online Counselling. Single application for all participating institutes will reduce physical, mental and financial burden on the candidates. Further, all participating institutes will be acting as Reporting – cum – Help Centres. Any candidate may seek help and report to his or her nearby participating institution (as per the schedule) for seeking help regarding confirming the admission. Besides participating institutes, some other Reporting – cum – Help Centres at Metro Cities are also being added for convenience of the students.. With twenty six NITs and several Centrally Funded Technical Institutes having more than 400 programmes with different eligibility conditions and restrictions, CCMT team at MNIT Jaipur, participating institutes, all service providers are putting in the best of their efforts to facilitate all aspiring and deserving candidates.

Being an online process of counselling, it is my duty to advise all the aspiring candidates to read, compile and analyze complete information about the institutes, programmes offered, eligibility conditions, fee structure, and all other relevant facts before filling the application form and their choices for institutes and programmes. Choice filling, editing choices, locking of choices are important processes and should be done by the candidates very carefully. Candidates are also advised to go through the Information Brochure for details of the steps and schedule of admission process in order to avoid any mistake or missing any important process/date.

I am sure that the CCMT 2014 admission process will provide a simplified and better way of admission without compromising with the quality of students and efficient utilization of national resources. I once again take this opportunity to wish all stakeholders the very best in the CCMT 2014 counselling process.

## **ABOUT CCMT.....**

Centralized Counselling for M.Tech./M.Arch./ M.Plan. (CCMT) is an admission process for providing a convenient platform for the students to apply for M.Tech./M.Arch./M.Plan. programmes, based on their GATE score of year 2013 or 2014, in various NITs across the country and some Centrally Funded Technical Institutions such as ABV-IIITM Gwalior, IIITDM Jabalpur, IIIT Allahabad, National Institute of Foundry and Forge Technology Ranchi, Sant Longowal Institute of Engineering and Technology Longowal, SPA Vijayawada, and Central University of Rajasthan. This centralized system has replaced the older system, in which a student had to apply to various institutes and then visit these institutes individually to appear for interview/counselling. This system used to cause lot of difficulties to students such as multiple applications, travelling long distances to various institutes across the country for their respective admission process and missing some institutes due to common admission dates. Centralized counselling provided a system wherein the students can fill one online application from their homes and apply to all the programmes of all participating institutions to which they were eligible. Overall convenience of students has increased enormously due to centralized counselling and simplified their efforts tremendously.

CCMT was successfully organized by MNIT Jaipur for twenty six participating Institutes in 2013 and twenty participating NITs in 2012. This year also, CCMT is being organized by MNIT Jaipur with seven more participating Institutes namely SPA Vijayawada, IIIT Allahabad, Central University of Rajasthan, NIT Meghalaya, NIT Goa, NIT Puducherry, and NIT Nagaland in centralized counselling, thus extending more opportunities to aspiring students.
