However, one documentary evidence (proof of thesis submission) from the candidate's Institute/University is required to be submitted at the time of admission.
2. For all course based degrees [B.Tech, M.Sc., MBA, M.Tech (Regular)] results need to have been published before admission is granted. In exceptional cases when a university will not be in a position to publish result by the time of admission, submission of qualifying degree result may be permitted till 30<sup>th</sup> September 2015, but not beyond.

Differential academic qualifications across the departments have been made considering the departmental requirement, availability of candidates in the respective departments and uniform growth of all departments in the Institute.

## D. Qualifying Degrees and Primary Disciplines for Admission to Ph.D/ M.Tech (Research) Programmes

The following are the minimum academic eligibility criteria to be eligible for applying to a programme. However, a higher short listing criteria (possibly different for different departments) may be set by the Department during scrutiny of applications depending on the departmental requirement, number and quality of applicants. In addition to the minimum eligibility criteria, following mandatory eligibility criteria will be used for short listing the candidates. Therefore, merely satisfying the minimum eligibility criteria does not guarantee a candidate to be called for interview and mere attending an interview does not guarantee a seat for admission.

1. In addition to the minimum eligibility criteria (based on B. Tech, M.Sc., MBA, MA, M. Tech and M. Pharm examinations) a candidate should score minimum 60% marks or 6.5/10 CGPA throughout career to be eligible for admission to Ph.D. or M.Tech.(Res) programme. The DRC, however, may make one exception (marks <60% or Grade < 6.5/10) at its discretion from among the results of 10<sup>th</sup>, +2, BA, B.Sc., Diploma etc. if the candidate has superior academic performances otherwise. Further exception if any will be put up to the full Senate for consideration.
2. For admission to Engineering and Science disciplines (except Life Science), a candidate should have passed Mathematics in +2 Science.
3. Science students admitted to Ph.D. programme in Engineering need Mathematics in +3 level. Students without Mathematics in +3 level may be admitted under the condition that they will have to register for 16 credits of 100 and 200 level Mathematics and 100 level Computer Science courses (Theory and Practical) in addition to their normal course requirement, and secure at least C grade in each course.
