**\*Note:**

1. If a candidate appears in 4 subjects his/her name will be included in the entire merit list wherever possible. For example if a candidate appears in Biology, Chemistry, Mathematics and Physics, his/her name will be included in all the Merit lists where ever he/she qualifies.

**GENERAL INSTRUCTIONS FOR GIVING ANSWERS  
ON OMR ANSWER SHEET**

1. All questions are to be attempted on the Answer-sheet as per instructions printed on the question booklet and OMR answer sheet.
2. **The Answer-sheet is designed for computer evaluation. Please follow the instructions given on the Answer-sheet strictly otherwise it may make evaluation by the computer difficult. Any resultant loss to the candidate on the above account i.e., not following the instructions completely, shall be of candidate only.**
3. Each question is followed by four answer choices labelled A, B, C and D. Select the answer you think is the best response and darken the bubble bearing the correct response label against the serial number of the question. For example if you think answer to question number 2 is D then mark as follows:

Q. 2                      (A) (B) (C) (D)

The Answer marked as under shall be considered as wrong:

(A) (B) (C) (D)      (A) (B) (C) (D)      (A) (B) (C) (D)      (A) (B) (C) (D)      (A) (B) (C) (D)      (A) (B) (C) (D)

4. For marking answers use **Black Ball/Gel Pen only**.
5. If you do not want to answer any question, leave all the bubbles corresponding to that question blank.
6. Be very careful in filling in the bubble in the first instance since erasing or changing it will spoil the response and go to the disadvantage of the candidate.
7. In order to open the Question Booklet remove the paper band gently.
8. **Write your Roll Number on the answer-sheet as also on the Question Booklet only in the space provided for the purpose and at no other place in the question Booklet and Answer Sheet.**
9. For calculations, the use of log tables is permitted. Use of Calculator is not allowed.
10. For rough work, the sheets marked ROUGH WORK at the end of the Question Booklet be used. No rough work shall be done on the Answer-sheet under any circumstances.
11. Penalty for wrong answers (Negative marking)

Negative marking will be adopted for evaluation i.e. marks will be deducted for wrong answers. The total marks to be awarded to a candidate in a paper after imposing the penalty will be calculated by the following formula (Assuming that each question carries 2 mark):

For each correct answer to a question, 2 marks will be awarded. However, if the answer is wrong 1/2 mark will be deducted. For example, these marks will be calculated as under:

P = Number of correct answers.

Q = Number of wrong answers

R = Number of unattempted questions

(An unattempted question means, the bubbles corresponding to that question is left blank).

Then the final score will be  $2P - 1/2Q$ , calculated to second place of decimal.

It will also be checked that  $P + Q + R = \underline{\text{Total No. of questions in the Paper}}$ .
