INDIRA SCHOOL OF COMMUNICATION
Prospectus 2012 -13

6th CONVOCATION CEREMONY

Chief Guest: Jackie Shroff

Special Attraction - Staging of play Chanakya by Manoj Joshi

ISC hosted its sixth convocation ceremony for the pass outs of its post graduate programme on Janaury 18, 2012. The Chief Guest at the function was popular film actor Jackie Shroff, who handed over the Degrees. Presiding at the function was Dr. Tarita Shankar, Chairperson and Group Director, Prof. Chetan Wakalkar of the IGI. Famous Hindi play Chanakya, based on the life and work of Chanakya, the ancient Indian strategist was presented by actor Manoj Joshi and his troupe.

Jackie Shroff regaled the audience with his impromptu speech. Established as a lead actor and with a kitty of 170 films to his credit, Jackie went on to explain that DevAnand was instrumental in casting him in his film career ages ago, when he started off. Dressed in a formal black jacket, Jackie also wore the Convocation gown looking dapper. He exhorted the students to work hard and to care for their families as they grow up.

Speaking on the occasion, Dr.Tarita Shankar said, "The students at ISC are a creative lot and make justice to their work with their creative inputs". She commended the students for their short films and other endeavours. Students were awarded degree certificates and awards and honours for various achievements.

Manoj Joshi, film and theatre actor, Director of the play Chanakya, spoke about the relevance of Chanakya's political and economic strategies in today's modern times. The play Chanakya that followed the degree awarding ceremony gripped the audience with its ancient Hindi and superlative performances. Chanakya came alive amongst the audience with Joshi's apt portrayal, riveting audiences to the lively script. The crew of the play, especially lead actor and director, Manoj Joshi was offered a standing ovation.

Student awardees at the function:

● **Best Film: Mandar Pataskar**

● **Best Student Editor: Pranav Ghugre**

● **All-rounder of the year: Pallavi Sahani**

ABOUT ISC

ISC, established in 2004, is a part of Shree Chanakya Education Society's Indira Group of Institutes. (established 1994)

VISION

ISC is the instrument to create a vision, a platform of excellence that will help constantly progress the standards in the professions of news, radio/television software, advertising, public relations, and media management.

MISSION

ISC promotes innovative and independent thinking among trainees through a forward-looking academic system that provides theoretical, research and practical input.

GOALS

ISC aims at all-round growth of its trainees through various academic and managerial Concepts. Continuous evaluation, de-emphasized examinations, social development projects, fitness activities (gym, yoga, aerobics), and plenty of practical and “real-world” exposure.

FACULTY

Our teachers are coveted professionals and academicians. All the faculty members have ongoing industry exposure, helping them to relate back and forth between industry and academia, and also obtain relevant projects and assignments for trainees.

INFRASTRUCTURE

ISC boasts of its state of the art infrastructure enabling students to hone their creative abilities. It strives to keep abreast of the latest technology of the media world.

PROGRAMMES OFFERED

ISC offers you a Post Graduate Programme (PGP) in the following specializations:

1. Communication Studies (Advertising, Public Relations and Media Management)

If you're a manager by thinking but would like to be in a communication-related area, this is the field for you. With a width of options to choose from, you will be trained in concepts of marketing, advertising, public relations, corporate communications, events, etc. ISC trains you to be an all round promotions specialist of the future through an integrated approach.

Career options: Media sales and marketing, advertising account management, account planning, media and consumer research, copywriting, public relations, event management, or publishing.

2. Mass Communication (Radio-TV-Films)

By specializing in Radio-TV-Film, you learn both studio and outdoor production in both radio and television. The latest professional cameras, our two non-linear edit suites and our exquisite 920 sq. ft. studio floor ensure that you are in a producer's Mecca. You will script and produce a number of films by the time you graduate.

Career options: Production of television shows either in fiction or non-fiction formats; producing ad films for ad agencies; corporate videos; producing for radio; films; still photography.

3. Journalism (Print and Broadcast)

While both Print and Broadcast specializations are covered, it is our belief that a journalist is one by thinking, and therefore it is important for each trainee to learn both tools and techniques. You will regularly learn and practice in class and on field.

Career options: Reporting for newspaper, television, Web or news agency; news writing; news production; producing socially relevant videos (documentaries); photojournalism; publishing.

PROGRAMME STRUCTURE

The approach at ISC is to guide the trainee into this relatively new field through a “funnel approach”, beginning with a broad understanding and moving progressively toward more independent and intensive learning in a specialized path. At the end of the tenure, each trainee demonstrates an extensive comprehension of communication, and in-depth training in the specialization of choice. The PGP is divided into Level A (9 months) & Level B (9months)

Level A (9 months)

Candidates can opt for only Level A and on successful completion of the same, can apply for Level B. It is advisable to enroll for Level B for advanced knowledge about the specialization. Level A of the course comprises of 13 modules intending to lay a foundation for a preliminary understanding of the processes and patterns of communication. Trainees begin with training in teamwork, strategy, communication skills, and functional cohesion. Classroom input covers a broad spectrum of subjects in Journalism (Print and Broadcast), Mass Communication dealing in (Radio Television and Film Studies) and Communication Studies (Advertising, Public Relations and Media Management). Practicum is in still photography, news mapping and monitoring, specialized software, event management, and some video production. Several projects also form a part of the curriculum. All modules are mandatory. Towards the end of Level A, you would be equipped to choose your specialization, and defend it to the Academic Committee through a presentation done with some intensive industry research.

After choosing a specialization, a trainee takes two kinds of input: a) a set of mandatory modules, common to all specializations, b) a set of specialization modules, common to one of the three broad specializations. Practical input is mainly in the form of specialized software and audiovisual tools, plus independent projects or assignments in specialized modules. On completion of Level A, the candidates are eligible to move on to Level B.

Level B (9 months)

During Level B of the course, a trainee a) learns to interact in a professional environment, b) learns from and contributes to the organization, c) makes useful contacts with industry professionals. The trainee, both mandatory modules and specialization modules get a deeper understanding of the same. The trainees are required to take up independent project-based work which is mandatory. This research and project-based work begins by choosing a topic, doing the necessary research and finally making a presentation in defense of the Dissertation that they have done.

Level B is followed by a 60 days Internship in an organization, leading to final placements. Students opting for Level B get an additional advantage of getting an opportunity to intern with a media organization and get assistance from the Institute for internships and final placements.

THE LEARNING APPROACH

INTERACTIVE CLASSROOMS

While classroom sessions are the basic format of learning, application of concepts in various ways remains the key to being a successful trainee at ISC. Specialization classes are held in a group-discussion format, with the faculty member as the facilitator, in our specially designed graduate-seminar halls.

PRACTICUM

The first step toward accomplishing our objectives is prolific practical training and exercises, in our computer labs (for various software skills), studio and media lab (for video production and postproduction skills), still photo lab, and outdoors. Milestone films from around the world are screened several times a week and analysed. Apart from the hundreds of classics which ISC owns in the digital format, the National Film Archive of India (NFAI) and ISC are in an arrangement for regularly screening a variety of films.

SPECIALIZATIONS

Choosing a specialization can be an overwhelming and uncertain process. ISC strives to streamline this process for the trainee through a scientific method. Trainees familiarize themselves in the first semester with the various options. At the end of this term, they visit organizations in several of the communication industries. They then make a “defense” proposal on the

specialization of their choice to industry experts and faculty members. Advisors' opinion, supplemented by the evaluation of this proposal and presentation thereof, helps in the choice of best specialization.

ADVISEMENT

A careful process of academic and career selection that each trainee undertakes through his/her tenure at ISC. Advisors (senior faculty members) meet advisees (trainees) in informal environments, where they understand and address academic, career and psychological needs. Advisement sessions are crucial to a trainee's decision on a specialization.

INTERNSHIPS

ISC trainees go through a mandatory internship. The winter internship spans two months, ensuring adequate learning and experience in companies, with an active effort to obtain a final placement in that organization.

PROJECTS

A key aspect in the learning at ISC in the very first semester is independent handling of industry projects, outdoor activity, field visits and a mandatory Corporate Social Responsibility project.

PUBLICATIONS

Our journalism trainees write, edit, design and publish Offbeat, a monthly community news magazine & I-view a quarterly e-newsletter that focuses on human-interest stories in our community. ISC trainees also contribute to Tapasya, the group journal, by interviewing, writing, assisting in editing, editorial and pre-press coordination.

INFRASTRUCTURE

Audiovisual Studio. One of the largest in Pune, our 900 sq. ft. professional studio boasts of the latest equipment –

- Sony's PD series camera units, Nikon FM10 still cameras, Nikon D60 Digital SLR Cameras, Final Cut Pro, Pro 6 Liquid Edition, and Adobe Premiere edit suites.
- Digital Video Editing setups equipped with AVID COMPOSER, FINAL CUT PRO, ADOBE PREMIERE and LIQUID.
- Panasonic Vision Mixer and Audio Mixer for Online Video Production.
- Multi camera set up in the studio for shooting
- Digital Audio Recording system for Professional Audio recording
- News production TELEPROMPTER for News Broadcast production

Resources. ISC trainees can now log into more than 50,000 e-books, journals and periodicals. Our fast-growing interdisciplinary library also houses an excellent collection of reference and recommended books, journals, as well as a vast collection of videocassettes, video CDs and DVDs. Our reading rooms offer the space and ambience to trainees to study individually or in groups.

Computer lab/ students using laptops at the premise

Wired! Our growing population and campus size notwithstanding, Indira is now a fully wired campus, using server-based technology, the latest Pentium computers and on optic fiber. ISC trainees use a dedicated lab with 40 machines loaded with the latest versions of specialized software, and can also use any of the 500-odd terminals in six other labs on campus.

Residing on campus : ISC offers residential accommodation in furnished hostels on- and off-campus. Equipped with a mess serving wholesome, hygienic food, washers/dryers, and separate buildings for men and women, our hostels will also soon be wired on optic fibre and equipped with computers in the rooms. Availability is limited and on first-apply basis.

Other facilities : The campus has four indoor auditoriums, an open-air amphitheatre, a conference centre, swimming pool, gymnasium and a poolside conference hall. You may also choose to play basketball, table tennis, pool and cricket.

Apart from all that counting... Many of our trainees vouch that the best part of ISC is the atmosphere an unusual mix of hectic activity and entertainment, of a no-nonsense commitment from faculty and staff that infectious rubs onto trainees, of stringent but open-door policy, of a systematic but personalized approach: a true blend of learning through hard work and fun. Besides, there are plenty of opportunities to display your cultural and sporting talents.

DR. KEVAL J. KUMAR

Dr. Kumar is an acclaimed academician, a Ph.D. in Mass Communication from the University of Leicester, U.K. He was the founder-director of the Resource Centre for Media Education and Research, Pune, and the reader and Dean of the Department of Journalism at the University of Pune.

Total fees	55,000

PLACEMENTS

ISC attempts relevant, high-quality placements in prestigious organizations all over India. Top media channels, production houses, ad and PR agencies, research organizations and companies have already visited our campus for recruitment. In addition, a large number of trainees had received formal or informal offers during internships.

The objective of ISC is to build the platform for quality placements through building young professionals and managers! We actively connect with the communication industry and encourage companies to recruit our trainees. Projects and other activities at ISC greatly enhance the chances of placements. ISC's Placement Cell is a clearing house of databases, and prepares and distributes brochures in the industry, and accepts and actively matches requests from the industry for candidature. Our Corporate Relations Manager heads the Placement Cell, and interfaces closely with the industry on an ongoing basis. The Placement Cell applies on behalf of the trainees for internships and jobs, and helps to train the trainees in employment communication.

However a word of caution, ISC does NOT guarantee placements. We encourage trainees to enter quality, relevant careers and our advisors at best counsel trainees on the best careers suited for them. Trainees are groomed and encouraged to also use their own skills to network with industry professionals. ISC creates plenty of opportunities for trainees to engage in such networking, and in our experience, trainees who networked well on the ISC platform found the best acceptance in the industry.

Here's where our trainees have found a career:

Communication Studies

1. Adfactors PR Pvt. Ltd., Mumbai
