About School & Courses at SPH

Course Design & Core Skills

Faculty Profile

Students Profile

## **Dr. M. Ponnaivaikko**

Vice Chancellor

I am delighted to present the Placement Brochure of the School of Public Health SRM University of the batch 2010-2012.

The School has made its niche by providing quality innovative Program in an industry oriented, professional learning, competent and competitive mindset to fulfill the aspirations of the students and to blend the work experiences of executives with updated news based curriculum in management. I am proud of what the School of Public Health has achieved within a short span of time and look at the future with optimism and confidence.

I wish a very successful career ahead to all the students of MPH, M. Sc Bio-Statistics and Epidemiology and extend a very warm welcome to the prospective recruiters to include the School of Public Health in the list of prominent institutions to be visited for campus placement. I am confident that the collaboration between healthcare industry and academia would strengthen by interaction and utility of knowledge of budding Public Health Professionals.

## From the Dean's Desk

Welcome to the School of Public Health

I am happy to introduce the School of Public Health SRM University. The School of Public Health is pursuing interdisciplinary Academic and Research Programs. It provides good learning and community oriented professional services, while maintaining highest ethical and scientific standards.

We are educating current and future Public Health leaders and ensuring an educational experience that is both relevant and practical. I find our students; faculty and staff are committed to working collaboratively to find effective solutions for future of Public Health in Indian Scenario.

In terms of health issues we are expanding globally and we work across major sectors to reduce health disparities. There are tremendous opportunities for School of Public Health to collaborate with concerned fields to design the future of Public Health in the Indian context and International scenario. I believe in adopting ways that are consistent with values and ideals upon which Public Health is founded including social justice and equity.

I am delighted to share that the School of Public Health is working with Government of India, State Governments, International agencies and Non Governmental Organizations in public health research and building the capacities of the professionals in research

I am pleased to say the students have been selected through a rigorous selection process. The students have been refined into talented Public Health Professionals on the basis of their capabilities, areas of interest and specialization, to meet the demands of industry needs. My endeavor is to invite all recruiting organizations including IT sectors, NGOs and Governmental and Non Governmental organizations to utilize the skill and acumen of our Public Health professionals.

**Prof Ch Satish Kumar**  
Dean

# About the School and the Courses

## About the School of Public Health

The Public Health programs are designed for graduates, who aspire to be leaders and professionals in public health, and are aspiring to reach high-level roles nationally and internationally. Our students come from all parts of India and International students from the Far East. They have relevant academic and work experience. Majority of our students have a prior health related degree, and we also have students from various disciplines like Arts, Humanities and Engineering. We have Doctors and Public Health Officers nominated from various States and Union Territories of India.

The School of Public Health intercepts into many inter related disciplines, which have key elements in common that bring us together. The School of Public health is a powerful medium through which we can bring equality into an unequal world. The School works on the 'hubs and spokes' model linking many departments that include Medicine, Engineering, Nursing and Management in its diverse mold to function effectively.

### Our Capabilities

Emerging as a School of Excellence in the 4 years of genesis, our faculty brings experience from multiple disciplines and has hands on expertise in local, national, and international health settings. Our capabilities in research, knowledge and practice have been tested from time to time and proved successful.

## **1. Courses Currently Offered in School of Public Health**

- a) Master in Public Health
- b) M Sc. in Bio Statistics & Epidemiology
- c) MBA/MPH
- d) M S Clinical Trials
- e) Ph. D

### **a) Master in Public Health (MPH)**

The MPH program seeks to provide students with an in depth understanding of issues in public health principles and practice, and apply this to the specific challenges in delivery, research, planning and management of health services in their national context. It is a 4 semesters program wherein 2 semesters are common to all the students of MPH. Both the semesters majorly deals with Biostatistics and Health Policies. In the 3rd semester the students go on to choose a specialization of their interest. The various specializations offered are:

- Health Management Systems
- IT & Healthcare

The 4<sup>th</sup> semester completely dedicated for a practicum thereby providing the students with relevant industry experience for about 6 months. The students would submit their dissertation to highlight their learning expertise in the Industry and viva voce whereby they defend and actualize their practical acumen earned.

The learning outcomes of the MPH program are:

- Thorough understanding of global and national public health issues
- Insight into the Health systems and their potential impacts on future public health policy directions in both developed and developing nations
- Comprehensive understanding of the tools available to systematically assess and evaluate health needs
- Critical awareness of how the research process may be applied in the study of public health

## **b) M Sc. Biostatistics & Epidemiology (MBE)**

The curriculum of the programme focuses on the integration of major components of Epidemiology and Biostatistics and its application in Public Health. Students are expected to apply their knowledge by conducting a research study and writing a comprehensive thesis supervised by a committee.

The MBE program seeks to provide students with an in depth understanding of principles of epidemiology and biostatistics and use these subjects to characterize health of a population. The program aims at providing individuals the requisite knowledge and quantitative skills to design and conduct epidemiologic studies, manage and analyze data and use the results to recommend appropriate health interventions. With advent of modern computing facility, methods of these two subjects have been gaining increasing worldwide prominence as an important discipline of medical research.

It is a 4 semester program in that 4<sup>th</sup> semester students are completely dedicated for a practicum thereby providing the students with relevant industry experience for about 6 months. The students would submit their dissertation to highlight their learning expertise in the industry and vivo voce whereby they defend and actualize their practical acumen earned.

The learning outcomes of the MBE program are:

- Thorough understanding of advanced and emerging fields of epidemiology.
- To develop a research protocol, ethical guidelines for conducting scientific research, electronic based data management and analysis.
- To plan, design and conduct experiments efficiently and effectively, and analyze the resulting data using various statistical software to obtain objective conclusions.

## **c) MBA/MPH**

MBA / MPH in Collaboration with faculty expertise from Haas School of Management & Berkeley School of Public Health , University of California , Berkeley. It is an accelerated full time 3 year program leading to award of both Management (MBA) and Public Health (MPH) degrees. The course gives them the leverage to specialize both in Public Health and Management to make them leaders in the Healthcare system.

#### **d) M S Clinical Trials**

The need for rigorous evaluation of components of health care is increasingly recognized worldwide. Management of Clinical Trials in a CRO is very essential. This course is suitable for both those wishing to gain an overall understanding of trials before moving into the field, and aim to broaden their role in the design, management, analysis and reporting of clinical trials.

#### **e) Ph. D**

The School of Public Health has full time and part time Doctorate program (Ph.D) with Research Scholars working under guides who are faculty in the School.

## **International Training Programs**

School of Public Health caters to the International Public Health Professionals, highlights of our training program include:

- Overview of Indian Public Health Scenario to Public Health Specialist of Malaysia
- Trained a Senior Pathologist from Government Hospital Kuala Lumpur on various Investigation Techniques in Virology supported by Madras Medical College
- Trained Public Health specialists from Afghanistan on Data Management Techniques

#### **2. Research at School of Public Health**

A number of research projects are being carried out in support with International and National sponsors

# **Course Design and Core Skills**

# Master in Public Health

## First Year

### Semester - I

- Social and Behavioral Aspects of Public Health
- Epidemiology
- Communicable and Non Communicable Diseases
- Biostatistics
- Population Sciences
- Health Systems & Policies
- Maternal and Child Health – Gender Issues

### Semester - II

- Ethics in Public Health
- Health Economics & Health Financing
- Community Nutrition
- Health Promotion and Behavior Change
- Environmental Health & Sustainable Development
- Health Program Management
- Seminar in Global Health
- Research Methods

## (Third Semester Specialization)

## Second Year

### Health Management

- Strategic Management
- Organizational Behavior & Design
- Human Resource Management
- Quality Assurance and Total Quality Management
- Social Marketing & NGO Management

### IT & Healthcare

- IT Systems & Database Management
- It in Healthcare
- Business Analysis
- Healthcare Standards & Regulation
- Information Security & HCIT
- Patientcare Application
- e- Health Applications

## Semester –IV

Internship with industry

Thesis writing

Presentations

## Core Competencies

- The Masters in Public Health (MPH) grooms the students as Holistic Public Health Leaders to meet the challenges in Public Health globally. It enables the students in understanding theoretical and practical aspects of Public Health from Epidemiological, Community, Social, Economic and Financial perspectives.
- They are trained in global health issues by international and national thematic experts from the field of Epidemiology, Reproductive and Child Health, Health Economics, and Environmental Health.
- The students get hands on experience in quantitative and qualitative research techniques, collecting, and management of country level data and are proficient in advanced statistical analysis using packages like SPSS, EPI INFO, SAS, etc.
- The students are trained in the conceptualizing, developing, implementing and Managing Health Projects and Programs and Behavior Change Campaigns.
- The students are enabled to apply the techniques in the global arena for the attainment of MDGs.

## Health Management Specialization

- The students are trained by eminent professional experts to meet the ever increasing need of the health industry for Professional Managers and Consultants.
- They get trained in Strategic Management of health programs and projects integrating the concepts of Organizational Behavior and Human Resources Development.
- They also develop skills in Social Marketing and Health Management Information System.

## Information Technology and Health Care Specialization

- Students are trained by industry experts to cater to the felt need in the software and health industries for Business Analyst, Application Analyst, and Business Process Consultants.
- Health informatics in Public Health industry
- They are trained in various concepts of e-health and their Applications.
- They acquire hands on training in conceptualizing, designing, and analysis of Information Management Systems as per International Healthcare Standards.
- They are also trained in concepts of Software Development Life Cycle and Testing

# Master of Science in Biostatistics and Epidemiology

## First Year

### Semester - I

- Fundamentals of measures of disease frequency
- Statistical Inference
- Sampling Methods
- Demography and Health Statistics
- Fundamentals of measures of discrete
- Clinical Epidemiology
- Computer Skills (EPIINFO/MINITAB)

### Semester - II

- Design of experiments
- Regression analysis
- Categorical data analysis
- Cohort & case control studies
- Clinical trials
- Computer skills (SPSS\SAS)
- Summer internship

## (Third Semester Specialization)

## Second Year

### Semester - III

- Applied multivariate analysis
- Non-parametric methods
- Health system informatics
- Spatial methods for spatial epidemiology
- Epidemiology of communicable & non communicable diseases
- Advanced & emerging specialities in Epidemiology

### Semester - IV

Internship with Industry

# Core Competencies

The students learn fundamentals of Biostatistics and Epidemiology to begin with and go on to Sampling Clinical Epidemiology and various statistical oriented software skills and techniques like SAS, Epi Info and other related software skills. Advanced study of Communicable and Non Communicable Diseases and emerging issues in Epidemiology are an extended part of learning curriculum. Industry experience completes the learning curriculum.

## Bio Statistics

- Students are trained at the end of every module with relevant data sets which are gathered for our previous research activities
- They are specially concentrated in the areas like clinical research data, spatial analysis of data
- Students are trained practically to use various software like SAS, SPSS, Epi info, and Open Geoda
- Various industrial experts train the students in respective domains to sharpen their competency skills
- They are also exposed to data sets obtained from NFHS, DLHS, UNICEF, and Census of India

## Epidemiology

- Students are trained to handle issues relating to Communicable and Non Communicable diseases
- They are trained in sampling techniques and various forms of Data analysis
- They are trained in Advanced and emerging trends in Clinical Epidemiology

# Faculty Profile

## **Prof. Ch. Satish Kumar**

Dean

Area of Specialization : Health Systems Research, Policy Research in Public Health, Program formulation and Health Management and Qualitative Research

## **Prof. M Bhagwandas**

Professor

Specialization in Biostatistics, Total Quality Management, Data Mining, Health Analytics and Spatial Statistics

## **Prof. Kamaraj**

Professor

Clinical research, Pharmacovigilance, Medical writing, Medicoregulatory, Medicomarketing and Clinical Trial Teaching & Training

## **Dr. Anil Kumar Indira Krishna**

Associate Professor

Specialization in Program Evaluation, Need Assessment, Large Scale Survey, Monitoring and Evaluation, Health System Research

## **Dr. Rajan Patil**

Assistant Professor

Areas of Specialization include Environmental and occupational Health, Disease Surveillance, Epidemic and Pandemic management, Veterinary public health

**Dr. B. Kalpana**

Assistant Professor

Specialization in Organizational Behaviour and Design & Human Resources in Public Health

**Ms. Geetha Veliah**

Assistant Professor

Specialization in Behaviour Change Communication and Qualitative Research

**Mr. Suresh Mariaselvam**

Assistant Professor

Health Policy and Management in general and specialised in IT for Healthcare, MIS-GIS, Environmental health and Public health preparedness during Emergencies

**Dr. Somashekar.N.R**

Assistant Professor

Non Communicable Disease Epidemiology, Tobacco Control and Health Policy, Health Economics, Public Health Nutrition, and Evaluation

**Mr. T. Kannan**

Lecturer

Disability and aging, multivariate statistical analysis

**Dr. Thirumal A**

Teaching Assistant

Area of specialization: Systematic Reviewing, Global Positioning Systems, Geographical Information Systems

# Advisory Committee Members and Faculty Profile

Chairperson

**Dr. Nirmala Murthy**

Hon President, Foundation for Research  
in Health Systems, Ahmedabad Committee Members

**Prof. R.K. Mutatkar**

Health Science University  
Pune

**Dr. D.K. Srinivas**

Former Dean of JIPMER, Pondicherry  
Currently: Curriculam Advisor  
Rajiv Gandhi Health Sciences University  
Bangalore

**Dr. Dick Eric Zoutman**

Professor, Department of Pathology  
and Molecular Medicine, Community  
Health & Epidermilogy, Microbiology &  
Immunology and Medicine Queen's University

**Dr. Premila Webstar**

Director Education and Training  
Department of Public Health  
Oxford University

**Dr. K.R. Thankappan**

Associate professor  
School of Public Health  
Sri Chitiratirunal Institute of Medical  
Science and Technology  
Trivandrum

**Mr. Vasimalai**

Executive Director  
DHAN Foundation

# Adjunct Faculty

## **Dr. Nirmala Murthy**

Director

Foundation for Research in Health Systems

Hon President, Foundation for Research

in Health Systems, Ahmedabad Committee Members

## **Dr. P. Subramaniam**

Public health Expert

Public Health Nutrition

## **Mr. Kapil Garg**

Associate Professor

IHMR, Jaipur

## **Prof. Jayshree Suresh**

Dean

School of Management, SRM Universtiy

## **Dr. K.R.John**

Professor and Head

Health Economics, SRM Universtiy

## **Dr. S. Gopalakrishnan**

Professor

Communicable and Non communicable Diseases

SRM Universtiy

## **Dr. Nageshwari**

HOD

Thoracic Medicine, SRM Universtiy

**Dr. Ganesh**

Assistant professor  
IT and Health Systems, SRM Universtiy

**Dr. Venkat Pulpaka**

Professor  
Behavior Change Communication, SRM Universtiy

**Ms. Lakshmi Priyadarshini**

Chief Dietician  
Nutrition, SRM Universtiy

**Mr. Sudarshan**

Assistant Professor  
Environmental Engineering, SRM Universtiy

**Dr. Venugopal**

Associate Professor  
Occupational Health, SRM Universtiy

**Dr. Radha Madhavan**

HOD  
Epidemic and Pandemic Management, SRM Universtiy

**Dr. Varsha**

Nutrition specialist  
Clinical Nutrition

**Dr. Prema**

Professor  
Adolescent Health, SRM Universtiy

# Visiting Faculty

**Padmashri Dr.P.K. Rajagopalan**

Retd. Director  
Vector Control Research Centre, ICMR

**Prof. K. Srinivasan**

Former Director  
International Institute for Population Sciences  
Mumbai

**Dr.Pavithra Mohan**

Health Specialist  
UNICEF New Delhi

**Dr.J.P.Mulliyal**

Retd. Principal  
CMC, Vellore

**Dr. Sathish Kumar**

Chief UNICEF Tamil Nadu & Kerala

**Prof. M. Gabrielle**

Professor and Head,  
Department of Philosophy  
Madras Christian College

**Dr. Abhijit Das**

Director  
Centre for Health and Social Justice  
New Delhi

# **Student Profiles**

# Ms. Abirami.R.S.

**Age:** 22 yrs

## Educational Qualification

MPH (Specialized in Health Management)      SRM University      2012

B.S. Physician Assistant      BITS-Pilani University      2010

**Experience:** Internship in Surgical Intensive care unit as physician assistant for one year.

**Languages :** English, Tamil, Hindi, Malayalam      **Email :** [abiramirs2010@gmail.com](mailto:abiramirs2010@gmail.com)      **Mobile:** 9551077183

## Strengths

- Good soft skills
- Hardworking
- Adaptability and commitment
- Ability to manage different situations
- Proficiency in computer work

## Core skills

- STATA IC 11 – ANALYSIS OF DATA
- Strategic planning and management
- TQM and NGO management

## Internship

One month-working on The Tamil Nadu Government Health Insurance Scheme: Kalaingar Kapitu Thittam, its perception & experiences among beneficiaries

## Areas of interest

- Communicable & Non-communicable diseases prevention.
- Strategic Health Management
- Maternal and child health services
- Clinical research and trials
- Hospital Management and Information System( HMIS)

## Training/workshops

- Completed Management Development Program on 'International Training Program In Up-Scaling Care And Support Program for People Living With HIV/AIDS' , IIHMR, Bangalore,
- Participated in workshop on Pervasive IT solutions for health care organized by TIFAC-CORE in Pervasive computing technologies in Velammal Engineering College, Chennai,
- Participated in 'Operation Golden Hour' on Cardio-vascular emergencies conducted by Madras medical mission, ICVD, Chennai, August 2008,Attended Masicon' 09, International Conference of Laparoscopic surgery on Upper GI in Global Hospitals & Health City , Chennai.

## Proposals/Papers

Presented a scientific paper on the title "Low cardiac output and its management in severe LV Dysfunction" in the 8<sup>th</sup> Annual Scientific Conference of the "Indian Association of Physician Assistants", held in the GKNM Hospital, Coimbatore, 2010, Developed an intervention project for Low Satisfaction among users of Kalaingar Kapitu Thittam, Designed implementation plan for Improvement of cardiovascular health status among working population in Chennai.

## Publications

- Research study on the title "The Tamil Nadu Government Health Insurance Scheme: Kalaingar Kapitu Thittam, Perception & Experiences among Beneficiaries.-SRM Public Health Series, Vol 1, 2012

# Dr. Amutha Prasad .R

**Age:** 26 yrs

## **Educational Qualification**

MPH ( Specialized in Health management)      SRM University      2012

Bachelors in Naturopathy and Yogic Sciences, Tamil Nadu Dr.MGR  
Medical University, Chennai      2009

## **Experience**

- Worked for 1 year as consultant cum yoga instructor in centre for special children

**Languages:** Tamil, English, Malayalam, Hindi

**Email:** [dramuthaprasad@gmail.com](mailto:dramuthaprasad@gmail.com)

**Contact No. :** 9751920480

## **Strengths**

- Good team player
- Conducting health camps
- Managing situations

## **Core skills**

- Concept of Six Sigma
- Project management

## **Internship**

- One month study on treatment seeking behavior among Fisher women of Kanyakumari District

## **Areas of interest**

- Nutrition
- Women's health
- Maternal and child health
- Preventive care for non communicable diseases

## **Proposals**

- Developed intervention project for creating awareness on prevention of communicable diseases among fisher community.
- Designed implementation plan for Nutritional education program for fisher women in Kanyakumari District

## **Publications**

A study on Treatment seeking behaviour among fisher women in Kanyakumari District -SRM Public Health Series Vol 1, 2012

# Dr. Ankita Singh

**Age:** 25 yrs

## Educational Qualification

MPH (Specialized in Health Management)	SRM University	2012
Bachelors of Dental Surgery	Ram Manohar Lohia AWADH University, Faziabad	2009

## Experience

- One year experience in handling dental procedures, as an intern in the year 2008.

**Languages:** English, Hindi.

**Email:** dr.ankitasenger@gmail.com

**Contact No.:** 9445912941.

## Strengths

- Good leadership quality
- Willingness to learn new things
- Planning and managerial skills
- Ability to work and manage a team effectively
- Good communication skills
- Focused
- Creative thinking and innovative thinking

## Core skills

- Knowledge in C++ programming software.
- Social marketing and HMIS.
- Strategic Planning and management of health programs.

## Internship-

Internship at Sardar Patel Post Graduate Institute of Dental & Medical Sciences, Lucknow from 1<sup>st</sup> Jan 2008 to 31<sup>st</sup> Dec 2008.

## Areas of interest

- Maternal and Child Health.
- Child Rights.
- Global health.
- Environmental health.
- Reproductive health.
- Behaviour Change Communication.
- Disaster management.

## Training/workshops

- Attended "Rapid Health Assessment Programme" funded by UNFPA in SRM University
- Workshop on 'Pervasive IT Solutions for Health care TIFAC, Core in Pervasive computing technologies', Velammal Engineering College, Chennai

## Proposals

- Developed intervention project for improving Immunization Status of Children Visiting a Health Center in Uri-sector Jammu & Kashmir: Reasons for Drop-outs from Immunization
- Designed implementation proposal for increasing the immunization status among children visiting health center in Uri sector J&K.

## Publications

Carried out a summer research project on- "Immunization Status of Children Visiting a Health Centre in Uri-sector Jammu & Kashmir: Reasons for drop-outs from immunization".-SRM Public Health Series, Vol 1, 2012

# Dr. R. Archana

**Age:** 25 yrs

## **Educational Qualification**

Masters in Public Health	SRM University	2012
BDS	Meenakshi University	2009

**Experience:** Worked for 6 months as Assistant dental surgeon at Profile dental clinic

**Languages :** English, Tamil, Hindi, Telugu

**Email:** [archanarengasamy107@gmail.com](mailto:archanarengasamy107@gmail.com)

**Contact No.:** 9840863343

## **Strengths**

- Confident
- Team player
- Adaptive
- Communication skills
- Presentation skills

## **Core Skills**

- Strategic Planning
- Research

## **Internship**

One month study on 'Injuries and its management among primary school children'

## **Areas of interest**

- Special children
- Child care and primary education
- Women empowerment

## **Training/workshops**

- Attended seminars on Posterior composite, A Sensitive issue by Sri Ramachandra dental college
- Inner circle program by Dr. Reddy's foundation for health education

## **Proposals**

- Developed intervention project for Injuries and its management among primary school children, Tamilnadu
- Designed implementation plan "First aid for all" Training school teachers on first aid in Tamilnadu

## **Publication/paper**

- Injuries and its management among primary school children (SRM Public Health Series, Vol 1, 2012)

## **Presented paper on**

1. Dental stem cells at Dentistry 2009, International Dental conference, NIMHANS Bangalore
2. Radiation injuries to pulp at 62<sup>nd</sup> Indian Dental Conference, Nagpur
3. Cardio Pulmonary Resuscitation at All India IDA conference, Bangalore

# Dr. S. Banu Priya

**Age:** 28 yrs

## **Educational Qualification**

MPH (Specialized in Health management) SRM University, Chennai 2012

BDS Tamil Nadu DR.MGR Medical University, Chennai 2007

## **Experience**

- Worked for 15 months as Lecturer at Penang International Dental College, Vinayaga mission University
- Worked for 15 months as Assistant Dental Surgeon in a Dental clinic in Salem

**Languages:** English, Tamil, Hindi

**Email:** banupriyaprabhu@gmail.com

**Contact No.:** 099625111479

## **Strengths**

- Hard working
- Commitment to work
- Sincere
- Good presentation skills
- Good computer knowledge

## **Core skills**

- Analyzing and conducting public health related research
- Ability to develop community level programs

## **Internship**

- One month study on Hygiene behavior among rural middle school children, Vandavasi, Thiruvannamalai (Knowledge & Practice Assessment)

## **Areas of interest**

- Child & women health
- Environment & sanitation
- Non-communicable diseases

## **Training/workshops**

- Attended Twelfth ISDR (Indian Society for Dental Research) conference held in Salem.

## **Proposal**

- Developed intervention project on promoting hygiene practice among rural middle school children
- Designed an implementation plan for School based hygiene promotion among rural middle school children

## **Publications**

- Hygiene behavior among rural middle school children, Vandavasi, Thiruvannamalai (Knowledge & Practice Assessment) , SRM Public Health Series, Vol 1, 2012

# Mr. Bijesh Basnet

**Age :** 24 yrs

## Educational Qualification

MPH (Specialized in Health Management)	SRM University	2012
BPH	Purwanchal university, Nepal	2008
General Medicine & Surgery	CTEVT, Nepal	2005

## Experience

- Worked as an Academic Chief (2008 to 2010) of Health Assistant/Lab Technician/Radiography programme.
- Worked in a Emergency Department in the post of General Medicine and Surgery (2006-2010) Koshi Zonal Hospital Biratnagar, Nepal

**Languages:** Nepali, Hindi, English

**Email:** [bijubasnet@gmail.com](mailto:bijubasnet@gmail.com)

**Contact No.** 009779842354046

## Strengths

- Group mobilization
- Good analytic logic
- Leadership Qualities
- Can work under pressure and conflicts

## Core skills

- Strategic Management
- NGOs Management
- Disaster Management

## Internship

One month on studying the prevalence, determinants and level of nicotine dependency among the adolescent students of higher secondary school in Biratnagar Sub-metropolitan city, Nepal

## Areas of interest

- Health system and policies
- TB/HIV&AIDS
- Maternal, child Health & adolescent health
- Health economics and financing

## Training/workshops

- Participated in 2-day seminar on "Healthy Ageing: Care for the older People of Nepal" jointly organized by Institute of Medicine (IOM), AMDA Nepal, National Senior Citizen Organization Network Nepal (NSCONN)& CONNECT for CHANGE (Cfc)
- Participated in the workshop on Pervasive IT solution for health care at Vellamal Engineering College, Chennai.
- Participated on Indian National Congress 2011 held at SRM University, Chennai
- Organized and conducted a workshop on World AIDS Day (1<sup>st</sup> Dec, 2007) from Public Health Students Society, Biratnagar.
- Conducted Community Health Diagnosis in Sanischhare VDC of Morang district including: Data collection, data analysis, data interpretation, planning, implementation of Micro Health Project and report writing as group leader in the year 2007.
- Conducted District Health Management Practice in District public Health office (DPHO) in Sunsari, Nepal in the year 2008 for 2 months.

## Publications

A Study on Prevalence, determinants and level of nicotine dependency among the adolescent students of higher secondary school in Biratnagar Sub-metropolitan city Nepal (SRM Pubic Health Series, Vol 1, 2012)

# Mr. Bikash Mohesri

**Age :** 25 yrs

## **Educational Qualification :**

MPH (Specialized in Health Management)	SRM University	2012
BCA	Makhanlal Chaturvedi National University of journalism and communication, Bhopal	2009

**Experience:** Worked as Trainee Associate in Medhassu e-solution India Pvt Ltd, Guwahati- 8 months

**Languages:** English, Hindi, Assamese, Bengali, Nepali, Rajasthani

**Email:** [mohesri.bikash@gmail.com](mailto:mohesri.bikash@gmail.com)      **Contact No.:** +918939018306

## **Strengths**

1. Good computer skills and data analysis skills
2. Ability to work efficiently in stressful conditions.
3. Hard working.
4. Good communication skill and interpersonal skills
5. Aptitude to learn and adapt to new challenges.

## **Core skills:**

- MYSQL in handling data.
- Data collection, collation and analysis related to public health research.
- Monitoring and evaluation.
- Developing indicators

## **Internship**

Internship with centre for children studies in collaboration UNICEF Odisha at Bhubaneswar.

## **Areas of interest**

- Maternal and Child health
- Bio statistic
- Epidemiology.
- Project management.
- Quality in health care.

## **Training/workshops**

- Documentation of clinical trial-module on fundamentals and basic issues at Tuberculosis research Centre (ICMR), Chennai
- Workshop on Pervasive IT Solutions for Health care TIFAC, Core in Pervasive computing technologies, Velammal Engineering College, Chennai
- Rapid Assessment in Capacity building of NGOs Organized by School of Public Health, SRM University

## **Proposals**

- Developed intervention project on enhancing the utilization of ASHA Radio Programme among ASHA
- Designed implementation plan for Community Health Program with Maternity Hospital for Mother & Child care

## **Publications**

A details process of data collection and data management at different levels of ICDS in Keonjhar district Odisha (SRM Public Health Series, Vol 1, 2012)

# Mr. Dilip Chandra Baroi

**Age:** 44 yrs

## **Educational Qualification**

MPH (Specialized in Health Management)	SRM University	2012
PG Diploma in Health Education	The Tamilnadu Dr.M.G.R. Medical University	1990
Bachelor of Arts	Pondicherry University	1988

## **Experience**

20 years as Health Educator and IEC Officer, Central Govt, Andaman & Nicobar Islands

**Languages-**English, Hindi

**Email-**dilip.mph@gmail.com

**Contact No.:** 9566222589

## **Strengths**

- Planning and managerial skills.
- Ability to work and manage a team effectively.
- Good communication skills.

## **Core skills**

- Social marketing
- Strategic Planning and management of health programs.

## **Internship-**

One month study on 'Awareness of HIV/AIDS among Junior College students at Port Blair, Andaman and Nicobar Islands

## **Areas of interest**

- Disaster management.
- Maternal and Child Health.
- HIV/AIDS

## **Publications**

- A paper on 'Awareness of HIV/AIDS among Junior College students at Port Blair, Andaman and Nicobar Islands' published in SRM Public Health Series-Volume 1, 2012

# Dr. P. Dinesh Raj

**Age:** 23 yrs

## Educational Qualification

MPH (Specialized in Health Management)	SRM University	2012
Bachelors in Physiotherapy	Tamilnadu Dr. M.G.R Medical University	2010

## Experience

- Worked as Data Analyst and assisted in report writing for PARA, Ravullapalem, Andhra Pradesh
- Member of organizing committee for awareness on 'World Stroke Day-2009' at HPCL, Chennai
- Guest lecture on HIV/AIDS for nursing assistant students

**Languages:** English, Hindi, Telugu, Tamil, Malayalam

**Email** p.dineshraj@gmail.com

**Contact No.:** +91 9884377499

## Strengths

- Team coordination and mobilization with leadership
- Multilingual and good communicator
- Willing to learn new things
- Ready to take responsibility
- Commitment and dedication to the assigned task

## Core skills-

- Monitoring and evaluation
- Health care quality management
- Research designing

## Internship

- Summer internship on 'KAP of HIV/AIDS among migrant workers' at SRM University

## Areas of interest

- HIV/AIDS
- HMIS
- Water and sanitation
- Hospital Administration

## Training/workshops

- Completed Management Development Program on 'International Training Program In Up-Scaling Care And Support Program for People Living With HIV/AIDS', IIHMR, Bangalore
- Attended "Rapid Health Assessment Programme" funded by UNFPA in SRM University
- Workshop on 'Pervasive IT Solutions for Health care TIFAC, Core in Pervasive computing technologies', Velammal Engineering College, Chennai

## Proposals

- Developed intervention project on Promotion of condom usage among migrant workers in Krishnapatnam port, Andhra Pradesh
- Designed an implementation plan for halting and reversing HIV/AIDS status in 3 mandals of Nellore District Andhra Pradesh

## Publications

- Assessment of Awareness Regarding Village Health and Sanitation Committees among People and VHSC Members" for RAHP-Phase-2 (Rapid assessment for health programs) funded by UNFPA (submitted to GOI)
- Study on Knowledge, Attitude and Practice of HIV/AIDS among migrant construction workers (SRM Public Health Series, Vol 1, 2012)

# Ms. Divya Narayanan
