The Organization

DELHI METRO RAIL CORPORATION (DMRC) was registered on 03-05-95 under the Companies Act, 1956 for Implementation and subsequent operation of Delhi MRTS. It has equal equity participation from GOI and GNTCD. Delhi Metro is a state of art metro rail system in India. To ensure reliability and safety in Train operations, it is equipped with the most modern communication and train control system.

The Institute

Since inception, DMRC has appreciated the need of competency building in rail based urban transportation systems. In its efforts to impart world class training, a dedicated Training Institute was set up & inaugurated on 19/07/2002 in Shastri park train depot of DMRC. The Training Institute is ISO 9001:2008 accredited for design, development and delivery of training programmes. It is equipped with state of art training infrastructure with most advanced simulators for training in the field of operations and maintenance. It is also the only institute in the country which is equipped with all modern facilities to impart customized training on almost all aspects of operations and maintenance of rail based urban transportation systems. We have distinction of training not only DMRC employees but also employees from other metro systems such as Bangaluru Metro, Chennai Metro, Jaipur Metro, Mumbai Metro and Kochi Metro. We are also considering training proposals from neighboring countries in the field of urban rail transportation.

Training Methodologies

Classroom Lectures	Simulator Training	Group Discussions	Role Plays
Computer Based Training (CBT)	Soft Skills Training	Case Studies	

Infrastructure & Facilities

The Infrastructure has a sprawling campus of 10000Sqm and is located at relatively quieter but otherwise very well accessible location in Delhi, Shastri Park Train Depot, DMRC'S oldest maintenance depot is just adjacent, which comes handy in providing practical exposure to the trainees.

Classrooms

The Institute has 26 classrooms sufficient to cater to a classroom training of 830 trainees at one go.

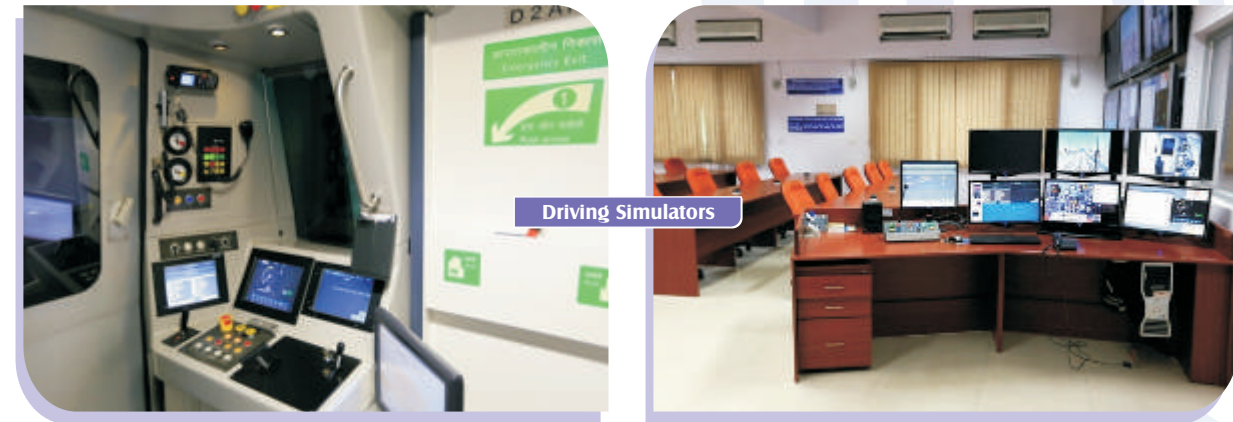

All the Classrooms are air conditioned to alleviate the notorious Delhi heat and dust and all rooms are well equipped with all modern aids of teaching i.e. a projector, dedicated computer system and interactive boards in some of them.

The classrooms are planned to be equipped with smart Card Based attendance Systems and Computerized Feedback System for better training management.

Simulators

The Institute has two state of the art full scope simulators for the ROTEM and BOMBARDIER trainsets. The simulators have observer stations with Marker Buttons so that upto 15 trainees can observe and note down points while one of them works at the simulator. More full scope simulators are being planned for Phase III.

Maintenance Simulators

Recognizing need of innovative simulation based training for train maintenance staff, we have introduced maintenance simulators for 7 subsystems of train with interactive 3D Computer based training.

OHE Lab is equipped with CBT based knowledge of OHE equipments, their specifications, size material used & warning board's photographs.

COMPUTER LABS

The Institute has 4 well equipped computer labs to impart Computer Based Training (CBT) to trainees.

ATS SIMULATOR

The Institute has 6 Model Rooms that are dedicated to different disciplines like Signaling, Rolling Stock, Maintenance, AFC, Over Head Traction, Telecom & CCTV etc

LIFT FOR TRAINING

FULL SCALE MODEL OF ESCALATOR

AIR GAS CIRCUIT BREAKER

AUDITORIUM

The Auditorium has a seating capacity of 115. It is well equipped with multimedia System.

YOGA & MEDITATION HALL

To ensure holistic development of the trainees, regular courses on yoga and meditation are conducted under qualified teachers. The Training Institute is also equipped with a fully air conditioned Health club with all modern gymnasium equipments.

LIBRARY

The Institute has a dedicated library headed by a qualified and experienced librarian. At Present there are about 4000 books, journals and manuals and 1800 library members. New books are being added regularly.

Canteen

A Canteen with 200 seating capacity is attached with the Training Institute that serves healthy, hygienic and nourishing food at reasonable rates.

Hostels

Facility of accommodating the trainees is available in the form of a hostel. The boy's hostel has 112 rooms with attached bathrooms. A total of 224 trainees can be accommodated in the boy's hostel. Mess and entertainment facilities are also available for the trainee's. The girls hostel can accommodate 50 trainees and is located amongst the staff quarters of DMRC with proper security and sufficient privacy. A separate common room for entertainment is available for the girl's hostel as well. There are separate hostels for boys and girls. 12 Ac suites & 8 Ac rooms are available for executive trainees.
