Phase I of the Scheme (due for completion on 31 Mar 08) has been implemented successfully with a network of 227 Polyclinics (121 Non-Military Polyclinics and 106 Military Polyclinics) and 1002 empanelled hospitals all over the country. Phase II of the Scheme would start from 01 Apr 08. Establishment of 196 additional Polyclinics to cater for medicare of Veterans staying in rural/remote areas, upgradation of certain existing Polyclinics and review of certain policies and procedures for better implementation of the Scheme would be thrust areas for the Phase II.
3. Every service personal retiring after 01 Apr 03 compulsorily becomes member of ECHS by contributing his/her share. Similarly, all those who retired prior to 01 Apr 03 are required to become members. Veterans not joining the scheme and drawing medical allowance in lieu, would not be entitled to any medical facility from Armed Forces Clinics/hospitals or Polyclinics beyond 31 Mar 08. CHAPTER 6

PARENT POLYCLINIC

1. The concept of Parent Polyclinic for ESM has been introduced, so as to collate a database and cater to a known ESM load at all the ECHS Polyclinics. This will ensure better and more efficient OPD facilities. Full range of medical facilities can be availed at the parent polyclinic. The parent polyclinic for an ECHS member was initially decided based on the residential address including the district and state. However consequent upon implementation, it was found that due to the uneven spread of resident ESM population some of the members have had to register at parent polyclinics which are at a greater distance to the stipulation of district/state etc.

2. ESM at the time of applying for ECHS membership can choose the parent polyclinic which is geographically closest of the district of residence. As far as the existing members are concerned, irrespective of the parent Polyclinic mentioned on the Smart Card, they can go to the Polyclinic geographically closest to the residence and register there as the parent polyclinic.

3. To change the address/polyclinic dependency, the ESM (but for those residing in NCR) will have to submit the following to Stn HQs nearest to the new address:-

- (a) An application on plain paper giving reasons for change.
- (b) A fresh application form with relevant columns filled and super scribed 'CHANGE OF ADDRESS' on top.
- (c) Affidavit as per format endorsed on Rs.10 non judicial stamp paper duly notarized

SITL will issue fresh cards duly indicating new address and new parent polyclinic. SITL will also maintain details of old address and old parent polyclinic in their data base.

Issue of Drugs and Consumables to Outstation ECHS Members

11. ECHS Members/ Dependents suffering from chronic diseases requiring long term and continuous treatment need to visit their Parent Polyclinic at least once a month for review of medical condition/ collection of medicines. However, when they visit any outstation location, they are issued medicines from the nearest Polyclinic for only 07 (seven) days at a time, as per present policy. This has caused considerable dissatisfaction amongst the ECHS members. The policy has now been reviewed and a revised procedure evolved as laid down in the succeeding paragraphs.

12. **Acute/ Fresh Illness.** There is no change in procedure in case of occurrence of an acute or fresh illness. ECHS beneficiaries can report to any/ nearest Polyclinic for immediate medical requirement. Medicines will be issued for duration as prescribed to treat the illness.

13. **Chronic Illness/ Long Term Treatment Cases.** There are certain chronic cases where life long treatment is necessary and medicines for the same are issued by the Parent Polyclinic, after monthly review for 90 days at a time. Such patients, when visiting some other station, can now be issued medicines from any specified 'Outstation Polyclinic' of choice (other than their Parent Polyclinic) for 30 days at a time. The procedure to be followed will be as under :-

(a) A 'Temporary Attachment Certificate' is to be obtained from the Parent Polyclinic before the patient moves to a new location temporarily. Performa for the same is attached as per appendix 'A' to this letter.

(b) Part-A of Temporary Attachment Certificate (TAC) in original is to be deposited with Oi/c of Outstation Polyclinic from where subsequent issue of medicines is desired.

(c) Part-B of TAC is to be retained by the patient and endorsement is obtained on it during each time the medicines are issued to him by the Outstation Polyclinic.

(d) Part-B of TAC is to be deposited back with the Parent Polyclinic once the patient returns back to the place of his permanent residence for continuation of ongoing treatment.

(e) No medicines will be issued to the patient from the parent polyclinic for the duration for which TAC has been issued.

(f) TAC can not be issued for more than one Polyclinic for the same duration. Deposition of Part-B of one TAC is a mandatory prerequisite for recommencement of issue of medicines from Parent Polyclinic and for eligibility of issue of another TAC at a later date, if required.

(g) Once issued, a TAC will be valid for a maximum period of 06 (six) months only.

14. **Action at Parent Polyclinic.** Parent Polyclinic issuing the TAC has to ensure the following:-

(a) A 'TAC issue Register' is to be maintained as per format attached at appendix 'B' to this letter.

(b) Entries are to be made in this Register, both at the time of issue of the certificate and receipt/ submission of Part-B of TAC.

(c) Part-B of TAC is to be kept in file for records and audit.

(d) If Part-B of a Particular TAC is not received within the stipulated validity period of 06 (six) months, the Oi/c Polyclinic is required to confirm from the concerned outstation Polyclinic about the welfare/ status of the patient and amend his records if required, with necessary authentication.

(e) The phrase 'TAC issued' will be entered in MIS against the patient's/ ESM's name while updating OPD records.

(f) Further continuation of issue of medicines to a patient who has been issued with TAC will only commence after its Part-B has been duly submitted back in the Polyclinic.

15. TACs will be utilized only for issue of drugs and consumables. They will under no circumstances be utilized for issue of non expendable items.

16. ECHS patients will be provided treatment for all known diseases, including referral to empanelled hospitals, at any Polyclinic he reports. The purpose of TAC is to enable issue of drugs for longer duration to chronic patients. However, this does NOT debar a patient from availing of requisite treatment without a TAC.

17. When a patient seeks planned/specific treatment in a station other than the station of his Parent Polyclinic, a specific referral is to be generated by Parent Polyclinic to the 'other' station to enable further management. However, when an ECHS beneficiary falls sick or requires treatment while visiting some 'other' station, he is fully entitled to report to the nearest Polyclinic and avail of any treatment.

Referral Procedure for Outstation Patients

18. When an appropriate Service/Empanelled Hospital is not available in the station, polyclinics may refer patients to other town/stations. All referrals to Service Hospitals in 'other' stations can be made directly by Parent Polyclinic and patient need not report to that 'other' station ECHS polyclinic for the same. However, all referrals to empanelled facilities will be routed through the local ECHS Polyclinic of the station.

(b) Smart Card(s) will be ready for delivery to the member on 30th day of depositing the membership form. **No intimation will be given for readiness** of the Smart Card for collection.

10. Card must be kept carefully, as no medical treatment will be possible at any polyclinic/referral facility ECHS without the membership card.

11. **First Time Registration & Activation of Smart Card.** It is mandatory for members and dependants to report jointly or singly to the nearest Polyclinic indicated in their application form along with Smart Card for recording of fingerprint biometric data of the pensioner and each member of his/her family. This activity will be automatically undertaken at the concerned ECHS Polyclinic when the ECHS member or his/her dependent(s) go for treatment during their first visit after receipt of Smart Card.

12. ECHS Smart Card will not be usable at any ECHS Polyclinics unless activated.

13. **Use of Polyclinic Facilities.** When visiting a Polyclinic subsequently, it is mandatory for the pensioner or his/her dependant to carry the ECHS Smart Card as proof of eligibility. The Polyclinic may not accept the individual for treatment in its absence. Following sequence of action will take place at the Polyclinic :-

- (e) Once authenticated, all personal information is read from the Smart Card along with his/ her photograph, compared with the Polyclinic database, and is displayed on the monitor of the receptionist.
- (f) The receptionist allots the doctor, puts the waiting list number and prints the medical examination slip.
- (g) The patient meets the Polyclinic doctor with the medical examination slip and the doctor records the diagnostics and medicines.
- (h) The patient comes back to the receptionist and the relevant details are respectively captured into the MIS and Smart Card.
- (j) In case the patient is referred to a diagnostic centre for tests or referred to an empanelled hospital or to a specialist, a referral slip is generated by the receptionist and the relevant information is entered in the Smart Card. The record is flagged for future update of financial input.
- (k) The patient goes to the Polyclinic pharmacy store for collection of medicines and in the event of any referrals, visits the referral faculty for treatment.

14. **Action on Loss of Smart Card.** As per existing procedure, an FIR is to be lodged in case of loss and intimated to Regional Centre ECHS from where the Card was issued. Consequent to reporting, a fresh Smart Card will be issued within 60 days. The issue of duplicate Smart Card would be on payment of Rs. 90/- for each Card. Safety of Smart Card(s) is paramount as the ECHS member/dependant will be unable to use ECHS benefits till receipt of new Card. On loss of a third Smart Card, account of which will be kept by the system, the pensioner will cease to be a member of the Scheme.

15. **Interim Arrangements in Lieu of Smart Card.** Till such time issue of Smart cards commences, any pensioner who has paid his contribution shall be permitted to use the Receipt provided to him by the Station Headquarters or Regional Centre, as the authority for availing treatment

under the ECHS for himself/herself and for his/her authorized dependants. Orders to this effect have been passed to all service hospitals, and similar instructions will be passed to empanelled hospitals. However, along with the receipt, the member shall be required to carry/produce some authentic document/identification of his/her own or dependant's identity. This is only a temporary measure, and will be cancelled as soon as Smart Card issue commences.
