INTRODUCTION AND SCHEME OF MBA COURSE

MASTER OF BUSINESS ADMINISTRATION (M.B.A.) DEGREE (Full Time, 2 Years Duration)

The M.B.A. program aims at providing various elements of system of education related to MBA degree program and addresses issues relevant to the various format of organizations i.e. Corporate, Government and any organisation performing internal business process to achieve various objectives of their stake by providing solutions to challenges arising there from. Apart from developing knowledge and skills in different areas of management, this course also provides relevant inputs as per the organization's business/ economic environments.

This program place high emphasis to the overall development of the personality of the students as manager. The structure of the program is designed so that students must study the core courses from different functional areas of management subject that are made mandatory and in the next stage various specializations are offered in functional domain areas of management subject areas where a students can opt for two specializations out of the five offered: Human Resource Management Marketing Management, Information Technology Management, Finance Management and International Business Management.

This course is of two years divided into four semesters, each semester having compulsory papers composed of 5 units of 40 sessions each of one-hour duration and for MB 107, 14 Session of practicals and for MB 108, 28 sessions of lecture. The University has a system of dual specialization. The students shall have to opt for two functional areas for their specialization, having four papers each from Specialization Group: 1 to 5 (Details of choice is give below the evaluation scheme). The electives can be offered by the department if minimum of 12 students of the total class strength is opting for the same elective.

Summer Training for 8 (eight) weeks is compulsory for every student pursuing the course, which they have to undergo between second and third semester during summer vacation break.

SUMMER TRAINING PROJECT REPORT:

1. At the end of second semester examination, every student of MBA shall undergo on-the-job practical training in organization approved by Departmental Academic Student Committee (DASC) . The training shall be of 8 weeks duration. The College/Institute shall facilitate this compulsory process (within the means of an Institution) for training for students in approved organisations by DASC and Training and Placement Department of Institute/ College.
2. The student who has gone under this training is expected to learn about the organization and analyze from both deep and wide perspective, find a live problem in the organisation and suggest solutions of a live problem. The core objective of this training is to prepare the student with the awareness of actual functioning of the organization and explore problems faced by them in a typical socio-economic-political business environment for exploring feasible solutions and suggestions.
3. During the course of training, the organization (where the student is undergoing training) in consultation with supervising faculty shall assign a real-life problem/project to the student.
4. Every student, after the completion of training shall submit a report to the College/Institute and the

organization where they have gone their training, which shall form part of third semester examination along with their training/project log book containing the details of time schedule and the learning content on the stated date in the their training schedule log-book. However, the report must be submitted by the end of August during third semester so that it is evaluated well in time and third semester results are not delayed.

5. The report (based on training and the problem/project studied) prepared by the student shall be known as Summer Training Project Report (STPR). The report should ordinarily be based on primary data and relevant secondary data from authentic database available in public domain and related to training domain. The Summer Training Project Report (STPR) should reflect holistic study of problems faced by organization where training was pursued by the student. The Summer Training Project Report (STPR) should supported by relevant tables and bibliography.

The Summer Training Project Report (STPR) should contain:

One comprehensive chapter must be included about the organization where the student has undergone training. This should deal with brief history of the organization, its organizational structure/Organographs, performance products/services and problems faced.

The physical format of “The Summer Training Project Report (STPR) should follow the following guidelines:

The average size of Report ordinarily shall be Minimum 75 and maximum to 125 typed pages in standard font size (12) and double spacing typed in A-4 size paper (back to back). Three neatly typed and soft bound (paper-back) copies of the report along with 3 copies of CD of this report shall be submitted to the College/Institute.

(i) The Report shall have two certificates. One by the Head of the Institute/College and the second by the Reporting Officer of the organization where the student has undergone. These two certificates should be attached in the beginning of the report.

(ii) The report shall be evaluated by one external examiners, the university shall appoint only one external examiner. It shall carry total of 100 marks divided into written report of 75 marks and for presentation of 25 marks. Only such persons shall evaluate the project report who has minimum 3 years of experience of teaching MBA or related subject classes in a College/University or minimum 3 years of experience in industry. Experience of teaching MBA classes as guest faculty shall be also allowed as approved examiner by the University.

(iii) The defence of his/her “The Summer Training Project Report (STPR)” is open house and in camera and all the members of SAC should be present. In the absence of internal supervisor due to any exigencies, the HOD of the concern department shall nominate one faculty from the department. It is mandatory that the student shall make presentation in the presence of teachers and students. The student is expected to answer to the queries and questions raised in this examination.

DISSERTATION:

In fourth semester, students have to submit a '*DISSERTATION*' on a topic (from the specialization areas) to be assigned by the Department MBA under the supervision of a core faculty member of the department.

The '*DISSERTATION*' report shall carry 100 marks (External). The evaluation of the project report shall be done by one external examiner and shall consist of f o l l o w i n g :

The *DISSERTATION* shall contain the following contents along with the prescribed certificates for this project:

- i. Introduction
- ii. Objectives
- iii. Scope of the Study
- iv. Literature Review
- v. Importance of the study
- vi. Research methodology used
- vii. Analysis of data collected
- viii. Recommendations
- ix. Conclusions
- x. Annexure/s (It shall contain relevant charts, diagrams, data and bibliography).

A certificate of the supervisor certifying the authenticity of the 'Dissertation' must be attached. The student shall submit three copies of the 'Dissertation' to the Office of the Head of the Department by their respective supervisor. The number of pages in the 'Dissertation' shall not be more than minimum 150 pages and maximum 125 pages excluding annexure pages. The 'Dissertation' report should be typed in A-4 size paper, with font size 12 typed, back to back of each paper along with written CD of this 'Dissertation'.

MB 301: CORPORATE FINANCE

Unit - I: (8 sessions)

Introduction to Corporate Finance: Corporation- The Role of Financial Manager – Agency Problem. **NPV as Investment Decision Criteria:** Comparing NPV with other methods of investment Decisions: The problems of multiple rates of Return, Mutually Exclusive Projects, Capital Rationing. **The Investment Decision:** The Cash Flow, Equivalent annual Costs, Project Interactions.

Unit – II: (8 sessions)

MB MK 02: MARKETING RESEARCH

Unit - I (8 sessions)

Marketing Research – Definition, Scope, Significance, Limitations, Obstacles in acceptance. Ethics in marketing research. Marketing Intelligence system Research process – Management dilemma (problem) – decision problem – research problem – hypothesis statement – characteristics of a good hypothesis – drafting the research proposal. Various sources of market Information – Methods of collecting Market Information - Secondary data – sources – problems of fit and accuracy. Syndicated services.

Unit - II (10 sessions)

Marketing research techniques: Market development research: Cool hunting – socio cultural trends, Demand estimation research, Test marketing, Segmentation Research - Cluster analysis, Discriminant analysis. Sales forecasting – objective and subjective methods Marketing Mix Research: Concept testing, Brand Equity Research, Brand name testing, Commercial eye tracking – package designs, Conjoint analysis, Multidimensional scaling - positioning research, Pricing Research, Shop and retail audits, Advertising Research – Copy Testing, Readership surveys and viewer ship surveys, Adtracking, viral marketing research.

Unit - III (6 sessions)

Marketing effectiveness and analytics research: Customer Satisfaction Measurement, mystery shopping, Market and Sales Analysis .Exploratory designs – Descriptive designs - Longitudinal and cross-sectional analysis. Qualitative research techniques – i) Based on questioning: Focus groups, Depth interviews, Projective techniques. ii) Based on observations: ethnography, grounded theory, participant observation. Causal research – Basic experimental designs – internal and external validity of experiments.

Unit - IV (6 sessions)

Primary data – Questionnaire design - Administration and analysis considerations in design - Attitude measurement – scaling techniques. Observation method of primary data collection. Web based primary data collection – issues of reach, analysis, accuracy , time and efficiency. Sampling – sampling methods – sampling and non sampling errors – sample size calculation – population and sample size - large and small samples - practical considerations in determining sample size.

Unit - V (10 sessions)

Data analysis – Univariate – Bivariate– Multivariate. Simple and cross tabulation, simple and multiple regression, Factor analysis. Hypothesis testing – Types of tests and test selection, One sample test, Two- Independent Sample tests, Two-related sample tests. Chi-square test, tests for large and small samples.

1. Das / Malhotra - Marketing Research: An Applied Orientation, 6e, Pearson
2. G C Beri - Marketing Research, McGrawhill
3. Easwaran - Marketing Research: Concepts, Practices and Cases, 1/e, Oxford University Press
4. Cooper – Marketing Research , McGrawhill
5. Nargundkar – Marketing Research

6. MB MK 03: SALES & DISTRIBUTION MANAGEMENT

Unit - I(8 sessions)

Introduction to Sales Management: Scope and Importance; The Evolving Face of Personal Selling; Personal Selling Process and Approaches; Sales Organization Structure; Sales Strategies, Sales Forecasting; Sales Territory Design.

Unit - II (8 sessions)

Sales Force Management: Sales Force Job Description; Recruitment and Selection; Training Sales Personnel; Sales Force Motivation; Compensation; Sales Quotas: Evaluating Sales Performance; Use of Information and Communication Technology (ICT) in Sales Management.

Unit - III (8 sessions)

Distribution Planning and Control: Functions of Intermediaries; Types and Role of Channel Intermediaries in India for Consumer and Industrial Products: Wholesale and Retail Structure, Complex Distribution Arrangement -Structural Separation and Postponement.

Unit - IV (8 sessions)

Channel Strategy and Design; Selection, Motivation and Evaluation of Intermediaries; Managing Channel Dynamics, Relationships and Channel Conflict; Ethical and Legal Issues in Sales and Distribution Management in Indian context.

Unit - V (8 sessions)

Distribution System and Logistics: Physical Distribution System –Objectives and Decision Areas; Customer Service Goals; Logistics Planning; An overview of Transportation, Warehousing and Inventory Decisions; Efficient Supply Chain Management (SCM); Integration of Sales and Distribution Strategy

Suggested Readings:(In Alphabetical Order)

1. Coughlan - Marketing Channels, 7e, Pearson
2. Havaladar - Sales and Distribution Management, McGraw Hill
3. Jobber - Selling and Sales Management, 7e, Pearson
4. Panda - Sales and Distribution Management, Oxford University Press,
5. Tanner - Sales Management , Pearson

MB MK 04: MARKETING OF SERVICES

Unit - I (6 sessions)

Introduction to Services: Nature of Services; Characteristics of Services– Intangibility, Inconsistency, Inseparability and Inventory; Search, experience and credence attributes, Classification of Services; Consumer versus Industrial Services. Global and Indian Scenario in services sector: Importance of Services Marketing; Service as key differentiator for manufacturing industries.

Unit - II(6 sessions)

Services Marketing Mix: Introduction to the 7 Ps of Services Marketing Mix; Product-Service Continuum; Standalone service products; Service products bundled with tangible products; Service Life Cycle.

Unit - III(10 sessions)

Distribution: Place – Distribution Strategies for Services; Challenges in distribution of Services; Role of Internet in distribution of Services. Promotion: Promotion objective for Services; Personnel Selling, Advertising and Sales Promotion; Role of Relationship Marketing in promoting services. Pricing: Factors involved in pricing a service product; demand variation and capacity constraints; Capacity Planning, Measures to respond to changes in demand; Reshaping demand using effective pricing. People: The key role of service employees in a service business; Services marketing triangle; Service profit chain, Concept of Service encounter – Moment of Truth; Training and development of employees; Motivation and empowerment.

Unit - IV(8 sessions)

Physical evidence: Nature of physical evidence; Importance of physical evidence in services; Service scopes. Process: Service as a process and as a system - Different process aspects and managerial challenges - Strategies for managing inconsistency – Customer role in services - Customers as ‘co-producers’; Self Service Technologies, – Customer Service in Service Marketing

Unit - V(10 sessions)

Customer Satisfaction & Service Quality: Monitoring and Measuring customer satisfaction, Order taking and fulfilment ; Service Guarantee - Handling complaints effectively; Defects, Failures and Recovery. Concept and Importance of quality in Services; How customers evaluate service performance, Service Quality Models Parsuraman-Zeithamal-Bitner (PZB) Gaps Model, SERVQUAL, and SERVPERF Gronroos model Technology & Service Strategy: Applying technology to service settings, e-services.

MB IT 02: KNOWLEDGE MANAGEMENT and BUSINESS INTELLIGENCE

Unit - I (10 sessions)

Overview of Knowledge Management: Data, Information and Knowledge; History of Knowledge Management, Demystifying and Importance of Knowledge Management, Information Management Vs Knowledge Management; Knowledge Management's Value Proposition, Users Vs Knowledge Workers, Role of Consultant in Knowledge Management Strategic Dimensions of KM: Knowledge Management Strategies, Strategic Drivers, Impact of Business Strategy on Knowledge Strategy, Porter's Five forces Model, Resource Strategy Model, Strategic Advantage, Knowledge Maps, Strategic Knowledge Resources, Balanced Scorecard and Knowledge Strategy

Unit - II (10 sessions)

Knowledge Management System: Knowledge Management Processes; Knowledge Management Systems: Types of Knowledge Systems, Knowledge Management Architecture, Knowledge Management System Implementation, Knowledge Discovery in Database; Knowledge Management Infrastructure; Tools & Techniques in KM: Knowledge Management Mechanisms & Technologies, Role of IT in KM, Knowledge Portals and Knowledge Management Tools, Communities and Collaborations, Intelligent Techniques in Building KMS, Data Mining in KM; Scope, Cost Efficiency and Reliability of Technologies to Support Knowledge work; Measurement Systems for KM, Knowledge Audit, Knowledge Divestiture, IP Protection, KM Certifications; Practices of Knowledge Management in Modern Global Organizations

Unit - III (6 sessions)

Business Intelligence and Business Decisions: Decision Support Systems; Group Decision Support and Groupware Technologies, Expert Systems.

Unit - IV (8 sessions)

SQL Server and Data Warehousing: - Features, System Databases, Creating Databases and Tables, Constraints, Data Manipulation Language, OLTP & OLAP, Data Marts, Data Warehousing, Data Warehouse Architecture.

Unit - V (6 sessions)

Data Mining and Knowledge Discovery: Data Mining Techniques; Applications of Data Mining. Knowledge Management: Knowledge Assets, Knowledge Generation, Knowledge Storage, Knowledge Utilization, Knowledge Management Technologies.

SUGGESTED READINGS (In Alphabetical order)

1. Anahory, Data Warehousing in the Real World, Pearson
2. Awad - Knowledge Management, Pearson.

4. Jawadekar – Knowledge Management, McGrawhill
5. Paulraj Ponniah - Data Warehousing fundamentals, Wiley.
6. Turban - Decision Support Systems and Business Intelligence Systems, 9e, Pearson

MB IT 03: Enterprise Resource Planning and Database Management System

Unit - I (8 sessions)

ERP: Enterprise Perspective: An Overview, Features of ERP, MIS Integration, ERP drivers, Trends in ERP, ERP in India. ERP: System Perspective: Management Information System, Operations Support System, DSS, Transaction Processing System, Network Structure of ERP System, ERP Work flow, Process modelling for ERP Systems, Communication in ERP Systems, OLTP, (On Line Transaction Processing), OLAP (On Line Analytical Processing), Enterprise Integration Application Tools for ERP.

Unit - II (10 sessions)

ERP: Resource Management Perspective: Business Modules in ERP Packages, Finance, Production, Human Resource, Plant Maintenance, Materials Management, Quality Management, Sales and Distribution, Resource Management, Business Process Reengineering, Relationship between ERP & BPR, ERP Implementation Life Cycle, Implementation methodology, ERP Project Management & Monitoring. ERP: Key Issues: ERP and E-Commerce, ERP Culture, ERP and CRM, ERP and SCM, ERP Selection Issues, ERP in Public Sector Enterprises, Pre and Post Implementation Issues, ERP Vendors, Key ERP Consultants in India, Future Directions in ERP.

Unit - III (10 sessions)

Purpose, Advantages and Disadvantages of DBMS, Data Models, Schemas and Instances, DBMS Architecture and Data Independence, Types of DBMS – Hierarchical, Network, Relational, Object Oriented and Object Relational. ER-Model – Basic concepts, Design Issues, Mapping Constraints, Keys, E-R Diagram, Design of an ER Database Schema, Reduction of E-R Schema to Tables. SQL: Background, Basic Structure, Set Operations, Aggregate Functions, Null Values, Nested SubQueries, Derived Relations, Views, Modification of Database, Joined Relations, Data Definition Language, Domain Constraints, Referential Integrity.

Unit - IV (6 sessions)

Oracle: Basic Architecture, Data Definition, Data Manipulation (LIKE Operator, String Commands, Numeric Function, Date Function, Translate and Decode Function), Introduction to PL/SQL (Conditional, Logic, Loops, Go to Statements, Exceptional Handling, Triggers, Procedures, Functions, Cursor, LOB's).

Unit - V (6 sessions)

Structure of Relational Databases, Relational Algebra, Functional Dependencies, Normal forms NF1, NF2, NF3 and BCNF, Multivalued Dependencies and Fourth Normal Form, Join Dependencies and Fifth Normal Form. Transaction, Concurrency: ACID Properties, Transaction State, Locks, Deadlock Condition, Two- Phase Locking Protocol.

SUGGESTED READINGS (In Alphabetical order)

6. Weston - Takeovers, Restructuring and Corporate Governance, 4/e , Pearson

Human Values & Professional Ethics

(Syllabus for the Value Education Course to be introduced in MTU Colleges/Institutes)

Subject Code-AU-301/AU-401

Course Objective

This introductory course input is intended

- a. To help the students appreciate the essential complementarity between ‘VALUES’ and ‘SKILLS’ to ensure sustained happiness and prosperity which are the core aspirations of all human beings.
- b. To facilitate the development of a Holistic perspective among students towards life, profession and happiness, based on a correct understanding of the Human reality and the rest of Existence. Such a holistic perspective forms the basis of value based living in a natural way.
- c. To highlight plausible implications of such a Holistic understanding in terms of ethical human conduct, trustful and mutually satisfying human behavior and mutually enriching interaction with nature.

Thus, this course is intended to provide a much needed orientational input in Value Education to the young enquiring minds.

Course Methodology

- The methodology of this course is universally adaptable, involving a systematic and rational study of the human being vis-à-vis the rest of existence.
- It is free from any dogma or value prescriptions.
- It is a process of self-investigation and self-exploration and not of giving sermons. Whatever is found as truth or reality is stated a proposal and the students are facilitated to verify it in their own right based on their Natural Acceptance and Experiential Validation
- This process of self-exploration takes the form of a dialogue between the teacher and the students to begin with and within the student himself/herself family.
- This self-exploration also enables them to evaluate their pre-conditionings and present beliefs.

Human Values & Professional Ethics

Subject Code-AU-301/AU-401

Total No. of Lectures : 28
Total No. of Practice Sessions: 14 (of 1 hr. each)

L-T-P:2-1-0

Content for Lectures:

Unit-I

Course Introduction - Need, Basic Guidelines, Content and Process for Value Education (6)

1. Understanding the need, basic guidelines, content and process for Value Education.
2. Self Exploration-what is it? - its content and process; 'Natural Acceptance' and Experiential Validation-as the mechanism for self exploration
3. Continuous Happiness and Prosperity-A look at basic Human Aspirations
4. Right understanding, Relationship and Physical Facilities-the basic requirements for fulfillment of aspirations of every human being with their correct priority
5. Understanding Happiness and Prosperity correctly-A critical appraisal of the current scenario
6. Method to fulfill the above human aspirations: understanding and living in harmony at various levels.

Unit-II

Understanding Harmony in the Human Being-Harmony in Myself (6)

7. Understanding human being as a co-existence of the sentient 'I' and the material 'Body'
8. Understanding the needs of Self ('I') and 'Body' - Sukh and Suvridha
9. Understanding the Body as an instrument of 'I' (I being the doer, seer and enjoyer)
10. Understanding the characteristics and activities of 'I' and harmony in 'I'
11. Understanding the harmony of I with the Body: Sanyam and Swasthya; correct appraisal of Physical needs, meaning of Prosperity in detail
12. Programs to ensure Sanyam and Swasthya
-Practice Exercised and Case Studies will be taken up in Practice Sessions.

Unit-III

Understanding Harmony in the Family and Society -Harmony in Human-Human Relationship (6)

13. Understanding harmony in the Family- the basic unit of human interaction
14. Understanding values in human - human relationship; meaning of Nyaya and program for its fulfillment to ensure Ubhay-tripti;
Trust (Vishwas) and Respect (Samman) as the foundational values of relationship
15. Understanding the meaning of Vishwas; Difference between intention and competence
16. Understanding the meaning of Samman, Difference between respect and differentiation; the other salient values in relationship
17. Understanding the harmony in the society (society being an extension of family):
Samadhan, samridhi, Abhay, Sah-astitva as comprehensive Human Goals
18. Visualizing a universal harmonies order in society-Undivided Society (Akhand Samaj),
Universal Order (Sarvabhaum Vyawastha) - from family to world family.
-Practice Exercise and Case Studies will be taken up in Practice Sessions.

Unit-IV

Understanding Harmony in the Nature and Existence - Whole existence as Co-existence

(5)

19. Understanding the harmony in the Nature
20. Interconnectedness and mutual fulfillment among the four orders of nature-recyclability and self-regulations in nature
21. Understanding existence as Co-existence (Sah-astitva) of mutually interacting unites in all-pervasive space.
22. Holistic perception of harmony at all levels of existence

-Practice Exercise and Case Studies will be taken up in Practice Sessions.

Unit-V

Implications of the above Holistic Understanding of Harmony on Professional Ethics

(5)

23. Natural acceptance of human values
24. Definitiveness of Ethical Human Conduct
25. Basis of Humanistic Education, Humanistic Constitution and Humanistic Universal Order
26. Competence in professional ethics;
 - a. Ability to utilize the professional competence for augmenting universal human order.
 - b. Ability to identify the scope and characteristics of people friendly eco-friendly production systems
 - c. Ability to identify and develop appropriate technologies and management patterns for above production systems.
27. Case studies of typical holistic technologies, management models and production systems
28. Strategy for transition from the present state to universal Human Order;
 - a. At the level of individual: as socially and ecologically responsible engineers, technologies and managers.
 - b. At the level of society: as mutually enriching institutions and organizations

Content for Practice Sessions:

Unit-I

Course Introduction - Need, Basic Guidelines, Content and Process for Value Education

PS 1: Introduction yourself in detail. What are the goals in your life? How do you set your goals in your life? How do you differentiate between right and wrong? What have been your achievements and shortcomings in your life? Observe and analyze them.

Expected Outcome: the students start exploring themselves; get comfortable to each other and to the teacher and start finding the need and relevance for the course.

PS 2: Now a days, there is a lot of voice about many techno-genic maladies such as energy and natural resource depletion, environment pollution, global warming, ozone depletion, deforestation, soil degradation, etc. - all these seem to be man-made problems threatening the survival of life on Earth- What is the root cause of these maladies & what is the way out in your opinion?

On the other hand, there is rapidly growing danger because of nuclear proliferation, arms race, terrorism, criminalization of politics, large scale corruption, scams, breakdown of relationships,

generation gap, depression & suicidal attempts, etc - what do you think, is the root cause of these threats to human happiness and peace - what could be the way out in your opinion?

Expected Outcome: the students start finding that technical education without study of human values can generate more problems than solutions. They also start feeling that lack of understanding of human values is the root cause of all problems and the sustained solution could emerge only through understanding of human values and value based living. Any solution brought fear, temptation or dogma will not be sustainable.

PS 3:

1. Observe that each one of us has Natural Acceptance, based on which one can verify right or not right for him. Verify this in case of:
 - (i) What is Naturally Acceptable to you in relationship-Feeling of respect or disrespect?
 - (ii) What is Naturally Acceptable to you - to nurture or to exploit others?
Is your living the same as your natural acceptance or different?
2. Out of the three basic requirements for fulfillment of your aspirations-right understanding, relationship and physical facilities, observe how the problems in your family are related to each. Also observe how much time & effort you devote for each in your daily routine.

Expected Outcome

1. The students are able to see that verification on the basis of natural acceptance and experiential validation through living is the only way to verify right or wrong, and referring to any external source like text or instrument or any other person cannot enable them to verify with authenticity; it will only develop assumptions.
2. The students are able to see that their practice in living is not in harmony with their natural acceptance most of the time and all they need to do is to refer to their natural acceptance to remove this disharmony.
3. The students are able to see that lack of right understanding leading to lack of relationship is the major cause of problems in their family and not the lack of physical facilities in most of the cases, while they have given higher priority to earning of physical facilities in their life ignoring relationships and not being aware that right understanding is the most important requirement for any human being.

Unit-II

Understanding Harmony in the Human Being-Harmony in Myself

PS 4: List down all your desires. Observe whether the desire is related to Self (I) or Body. If it appears to be related to both, see which part of it is related to Self (I) and which part is related to Body.

Expected Outcome: the students are able to see that they can enlist their desires and the desires are not vague. Also they are able to relate their desires to 'I' and 'Body' distinctly. If any desire appears related to both, they are able to see that the feeling is related to I while the Physical facility is related to the body. They are also able to see that 'I' and 'Body' are two realities, and most of their desires are related to 'I' and not body, while their efforts are mostly centered on the fulfillment of the needs of the body assuming that it will meet the needs of 'I' too.

PS 5:

1. (a) Observe that any physical facility you use, follows the given sequence with time:
Necessary & tasteful-unnecessary & tasteful-unnecessary & tasteless-intolerable

- (b) In contrast, observe that any feeling in you is either naturally acceptable or not acceptable at all. If naturally acceptable, you want it continuously and if not acceptable, you do not want it any moment.
2. List down all your activities. Observe whether the activity is of 'I' or of Body or with the participation of both 'I' and Body.
3. Observe the activities within 'I'. Identify the object of your attention for different moments (over a period of say 5 to 10 minutes) and draw a line diagram connecting these points. Try to observe the link between any two nodes.

Expected Outcome:

1. The students are able to see that all physical facilities they use are required for limited time in limited quantity. Also they are able to see that in case of feelings, they want continuity of the naturally acceptable feelings and they do not want feelings which are not naturally acceptable even for a single moment.
2. The students are able to see that activities like understanding, desire, thought and selection are the activities of 'I' only, the activities like breathing, palpitation of different parts of the body are fully the activities of body with the acceptance of 'I' while the activities they do with their sense organs like hearing through ears, seeing through eyes, sensing through touch, tasting through tongue and smelling through nose or the activities they do with their work organs like hands, legs etc. are such activities that require the participation of both 'I' and body.
3. The students become aware of their activities of 'I' and start finding their focus of attention at different moments. Also they are able to see that most of their desires are coming from outside (through preconditioning or sensation) and are not based on their natural acceptance.

PS 6:

1. Chalk out programs to ensure that you are responsible to your body-for the nurturing, protection and right utilization of the body.
2. Find out the plants and shrubs growing in and around your campus. Find out their use for curing different diseases.

Expected Outcome: The Students are able to list down activities related to proper upkeep of the body and practice them in their daily routine. They are also able to appreciate the plants wildly growing in and around the campus which can be beneficial in curing different diseases

Unit-III

Understanding Harmony in the Family and Society -Harmony in Human-Human Relationship

PS 7: From small groups in the class and in that group initiate dialogue and ask the eight questions related to trust. The eight questions are:

- | | |
|---|--|
| 1 a. Do I want to make myself happy? | 1b. Am I able to make myself always happy? |
| 2 a. Do I want to make the other happy? | 2b. Am I able to make the other always happy? |
| 3a. Does the other want to make him happy? | 3b. Is the other able to make him always happy? |
| 4a. Does the other want to make me happy? | 4b. Is the other able to make me always happy? |

What is the answer?

What is the answer?

Intention (Natural Acceptance)

Competence

Let each student answer the questions for himself and everyone else. Discuss the difference between intention and competence. Observe whether you evaluate your intention & competence as well as the others & competence.

Expected Outcome: The students are able to see that the first four questions are related to our Natural Acceptance i.e. intention and the next four to our Competence. They are able to note that the intention is always correct, only competence is lacking! We generally evaluate ourselves on the basis of our intention and others on the basis of their competence! We seldom look at our competence and others' intentions as a result we conclude that I am a good person and other is a bad person.

PS 8:

1. Observe on how many occasions you are respecting your related ones (by doing the right evaluation) and on how many occasions you are disrespecting by way of under-evaluation, over-evaluation or otherwise evaluation.
2. Also observe whether your feeling of respect is based on treating the other as yourself or on differentiations based on body, physical facilities or beliefs.

Expected Outcome: the students are able to see that respect is right evaluation, and only right evaluation leads to fulfillment in relationship. Many present problem in the society are and outcome of differentiation (lack of understanding of respect), like gender biasness, generation gap, caste conflicts, class struggle, dominations through power play, communal violence, clash of isms, and so on so forth. All these problems can be solved by realizing that the other is like me as he has the same natural acceptance, potential and program to ensure a happy and prosperous life for him and for others though he may have different body, physical facilities or beliefs.

PS 9:

1. Write a note in the form of story, poem, skit, essay, narration, dialogue to educate a child. Evaluate it in a group
2. Develop three chapters to introduce 'social science-its need, scope and content' in the primary education of children

Expected Outcome: The students are able to use their creativity for education children. The students are able to see that they can play a role in providing value education for children. They are able to put in simple words the issues that are essential to understand for children and comprehensible to them. The students are able to develop an outline of holistic model for social science and compare it with the exiting model.

Unit-IV

Understanding Harmony in the Nature and Existence - Whole existence as Co-existence

PS 10: List down units (things) around you. Classify them in for orders. Observe and explain the mutual fulfillment of each unit with other orders.

Expected Outcome: The students are able to differentiate between the characteristics and activities of difference orders and study the mutual fulfillment among them. They are also able to see that human beings are not fulfilling to other orders today and need to take appropriate steps to ensure right participants (in terms of nurturing, protection and utilization) in the nature.

PS 11:

1. Make a chart for the whole existence. List down different courses of studies and relate them to different units or levels in the existence.
2. Choose any one subject being taught today. Evaluate it and suggest suitable modifications to make it appropriate and holistic.

Expected Outcome: The students feel confident that they can understand the whole existence; nothing is a mystery in this existence. They are also able to see the interconnectedness in the nature, and point out how different courses of study related to the different units and levels. Also they are able to make out how these courses can be made appropriate and holistic.

Unit-V

Implications of the above Holistic Understanding of Harmony on Professional Ethics

PS 12: Choose any two current problems of different kind in the society and suggest how they can be solved on the basis of natural acceptance of human values. Suggest steps you will take in present conditions.

Expected Outcome: the students are able to present sustainable solutions to the problems in society and nature. They are also able to see that these solutions are practicable and draw roadmaps to achieve them.

PS: 13

1. Suggest ways in which you can use your knowledge of Technology/Engineering/Management for universal human order, from your family to the world family.
2. Suggest one format of humanistic constitution at the level of nation from your side.

Expected Outcome: The students are able to grasp the right utilization of their knowledge in their streams of Technology/Engineering/Management to ensure mutually enriching and recyclable productions systems.

PS:14 The course is going to be over now. Evaluate your state before and after the course in terms of:

- a. Thought
- b. Behavior
- c. Work and
- d. Realization

Do you have any plan to participate in the transition of the society after graduating from the institute? Write a brief note on it.

Expected Outcome: The students are able to sincerely evaluate the course and share with their friends. They are also able to suggest measures to make the course more effective and relevant. They are also able to make use of their understanding in the course for a happy and prosperous society.
