B Qualitative disclosure about LCR::

The main drivers of LCR Results:

LCR is computed as a % of stock of HQLA to the net cash outflows over the next 30 calendar days. The LCR promotes short-term resilience of banks to potential liquidity disruptions by ensuring that they have sufficient high quality liquid assets (HQLAs) to survive an acute stress scenario lasting for 30 days.

For all nine months, i.e., April'15 to December'15, Bank's LCR has been more than the minimum regulatory requirement of 60% for 2015 calendar year and for the residual months i.e., from January'16 to March'16 Bank has maintained LCR well above the regulatory threshold i.e 70% for 2016. LCR of the bank for the annual financial year 2015-16 stood at 150.1097%.

The bank is having an adequate stock of unencumbered high-quality liquid assets (HQLA) that can be converted easily and immediately in private markets into cash to meet liquidity needs for a 30 calendar day liquidity stress scenario.

The net cash outflows for the next 30 days has been arrived at after deducting the cash inflows from the outflows for the period. The inflows and outflows have been arrived at based on RBI prescribed haircuts and run-off factors.

Composition of HQLA

The Level 1 Assets of our bank comprises of Cash in hand & ATM, Excess CRR and SLR, MSF (2% on NDTL) and FALLCR (8% on NDTL). Level 1 asset is the main driver of HQLA, contributing around 97% in the total HQLA of the Bank.

Level 2A and Level 2B assets are well within the cap of 40% and 15% of the stock of HQLA respectively after the required haircut.

Corporate Bonds not issued by a Bank/Financial/NBFC which have been rated AA- or above by an Eligible Credit Rating Agency have been classified under Level 2A assets. Similarly shares not issued by a Bank/FI/NBFC which have been rated not lower than BBB- have been classified under level 2B Assets.

Outflows & Inflows:

Deposits are the main source of funds for the Bank comprising around 85% of total liabilities.

Currency mismatch in LCR::

LCR is expected to be met and reported in a single currency. The bank is not having significant liabilities and HQLAs in any foreign currency.

Description of the degree of centralization of liquidity management and interaction between the group's units:

The Bank does not belong to any group and does not have any associate, subsidiaries, joint venture, etc.

7. The amount of advances for which intangible securities such as charge over rights licences, authority etc., has been taken as collateral security and the value of such collateral security ----- NIL -----

8. The Bank held its 88th to 93rd Annual General Meetings on 29.01.2016 as per the Hon'ble High Court order dated 26.11.2015 passed order to allow the conduct all the pending Annual General Meetings. The bank conducted all the six Annual General Meetings together.

9. In respect of certain branches/offices where additional information was required, the data available at Controlling/Head office was considered.
