MODULE WISE CONTENT

(as finalized for batch 01)

GLOBAL STRATEGIC MANAGEMENT

<u>Key Course Objectives</u> This course will help to develop an understanding of and appreciation for the concepts of strategic management in the perspective of global markets.

Focus on a set of analytical tools, to develop skills in analyzing, evaluating, formulating, and implementing competitive strategies.

The format would emphasize case analyses and class discussion.

GLOBAL LEADERSHIP STRATEGIES

Key Course Objectives

This course presents a comprehensive, integrative, and practical focus on leadership and management. It is based upon a framework that analyzes leadership and management at different levels: individual leadership, team leadership, and organizational leadership.

- What is a Leadership Strategy?
- Creating the Leadership Strategy
- Creating the Leadership Development Strategy
- Implications for Talent Acquisition, Talent Sustainability and Leadership Practices
- Getting Results and Building the Talent your Organization Needs
- Developing Global Business Opportunities
- Managing Diversity
- Managing Crisis

COST MANAGEMENT STRATEGIES

Key Course Objectives

Cost leadership strategies are business tools that give companies a competitive advantage in the economic marketplace. Industry leading companies usually have the best plan for obtaining business inputs at the lowest cost and transforming those inputs to consumer goods or services the cheapest way possible. Understanding the needs and wants of consumers is another important factor in cost strategies.

- Understanding Costs in a Global Setting
- Structural Cost Drivers
- Operation Cost Drivers
- Strategic Use of Activity-Based Costing
- Preparing a Strategic Plan for Cost Management

ECONOMICS OF PRICING STRATEGIES

Key Course Objectives

Introduces participants to microeconomic theory and its application to business problems and decision making, such as consumer behavior and pricing theory and practice. Foreign Trade Pricing issues.

- Proactive Pricing Decisions
- Cost and the Competition Factors of the Pricing Process
- Profitable Pricing Strategies and Tactics
- Perceived-Value Pricing
- Segmented Pricing
- Price-Bundling
- Dynamic Pricing over the Product-Life-Cycle
- Product-Line Pricing
- Pricing through the Marketing Channels
- Price Competition.

GLOBAL BUSINESS ENVIRONMENT

Key Course Objectives

The course aims to introduce the students to the increasing integration of the world economy and familiarize them with a wide range of topics such as international trade theories, the international trading environment, the regulatory environment, the cultural and technology environments, and the role of competitive strategy of firms in international business.

- Application of Trade Theories
- Role of Multilateral Institutions like WTO, World Bank, and UNCTAD in International Business
- Impact of changing govt. policies on globalization and regionalization
- Legal framework of International Business
- International Arbitration and Disputes
- Antitrust Laws

RESEARCH METHODOLOGY

Key Course Objectives

The objective of this course is to provide the statistical foundations required to make informed decisions, backed up by data. The students will learn concepts that enable them to understand topics such as corporate risk, market research and quality control, which are encountered later in the programme.

- Statistical Data Analysis
- Reviewing Distributions,
- Estimation (Point Estimates and Confidence Intervals)
- Hypothesis Testing
- Multi-variate Analysis

DECISION MAKING USING IT

<u>Key Course Objectives</u> This course focuses on the core IS capabilities that IS managers must consider when managing technology within their organization. Fast-paced changes in technology require successful IS managers to quickly understand, adapt, and apply technology when appropriate.

- Core IS Capabilities
 - Business and IT vision
 - Design of IT architecture
 - IT service delivery
- Implications new technologies
- IT tools for interpreting data
- Quantitative and Statistical tools for data analysis and interpretation

- Agency agreements,
- International contracts and administrations
- Regulations of exports and imports
- Technology transfers
- Regional transactions,
- Intellectual property, product liability, and legal

CORPORATE FINANCIAL STRATEGIES

<u>Key Course Objectives</u> This is the capstone course among corporate finance courses. It deals with the co-determination of financial policy and business strategy.

MODULE COVERAGE

- Designing a financial strategy for companies after IPO.
- Designing a financial strategy along with major corporate restructuring
 - Divestitures,
 - Asset sales
 - Going private
 - Bankruptcy
- Innovative corporate financial engineering
 - Fast growing companies,
 - Companies that face a rapidly changing environment

Campanies with drastic restructuring needs.

PGDIBS 02 Ver. 1.0 26-07-2012

MACRO ECONOMIC POLICIES

<u>Key Course Objectives</u> Macroeconomics analyses the main mechanisms behind economic fluctuations in relation to short-term issues (inflation, unemployment) and long-term issues (growth, international trade).

- Managerial Decision-Making with Respect to Brands

INNOVATION AND TECHNOLOGY MANAGEMENT

<u>Key Course Objectives</u> The cost and time required to create a new product or service are so large than lack of a perfectly aligned and executed innovation strategy can be extremely wasteful.

"You must create an innovation strategy that is aligned with not only your firm's core mission and values, but with your future technology, supplier, and manufacturing strategies. Lack of alignment between product and process architectures rapidly increases cost and risk. If your development process and organization structure are not matched to each other and your firm's strategy, you're in even deeper trouble."

MODULE COVERAGE

- Innovations across Technology, Products, Design, Service,
 Distribution and Operations
- Market and Competitive Analysis
- Understanding Competitive Industries
- Evaluating a Firm's Competitive Strategy
- Legal and Business Strategies for Protecting Intellectual Property

PGDIBS 02 Ver. 1.0 26-07-2012

STRATEGY EVALUATION AND IMPLEMENTATION

Key Course Objectives

In this course, managers learn how to collaboratively develop performance goals; provide feedback and coaching toward those goals; and review performance results. These three activities make up the performance management cycle.

- Performance Management Process
- Performance Competencies of Organization
- Assessing Employee Strengths and Development Opportunities
- SMART Goal-Setting Formula

STRATEGIC ALLIANCE

<u>Key Course Objectives</u> This course examines the theory and practice of creating and managing different types of strategic alliances

- Types of Strategic Alliances
 - Joint Ventures
 - Licensing Agreements
 - Buyer Supplier partnerships
 - Consortia
- Costs and benefits of strategic alliances
- Designing strategic alliances
- Avoiding potential problems and complications
