Summer Internship Programme - 2018

The **NITK - Summer Internship Programme (NITK-SIP)** aims to promote awareness and interest in good quality academic research among young students of Engineering, Basic Sciences, Management and Humanities through an Internship during summer vacation. Students selected from eligible applicants, will get the opportunity to work on research mini-projects under the mentorship of NITK faculty during the coming summer vacation (May - July 2018)

Eligibility: Students who are presently completing the third year (or sixth semester) B.Tech/ BE, and students completing the first year (or second semester) of M.Tech/ ME/ M.Sc./ MBA are encouraged to avail this opportunity. Selection of interns will be made by respective departments based on academic performance in university examinations, paper presentations at conferences/workshops, projects executed, design contests participated, and other awards/ distinctions obtained. Preference will be given to students from Institutions with which NITK has an MoU for academic and research collaboration.

Duration: Students selected for NITK-SIP are required to be present in the campus and carry out the allotted project work over a contact period of minimum 30 days and maximum 45 days as per the requirement of individual faculty mentors.

Financial Support: No financial support shall be given to the selected Interns. However HoDs may arrange hostel accommodation and Boarding on payment basis after obtaining due permission from the Institute Hostel authorities.

Application: Students interested in NITK-SIP, are required to send a *research proposal* along with the *application form* and necessary *enclosures* by speed-post to the Head of the Department where the student wishes to carry out the internship. An advance copy of the application must also be sent by email to the Head of the Department along with scanned copies of relevant documents. The *research proposal* must contain a detailed description of the research problem that the student wishes to work on, along with a brief introduction to the problem, the proposed work plan, and the expected outcome of the project work.
