Join in our Mission for Excellence

India is facing a situation which will force growth despite uncertainty. In such a situation, the future survival depends on its fully prepared to meet unprecedented situations. We at MERI, continue to stay ahead in our mission for excellence.

The guiding philosophy at MERI is to impart the best of knowledge, training and development skills across the 16,000 students of MERI. Besides theoretical knowledge with practical experience, emphasis is placed in developing the personality of the students. MERI has a strong tradition of making every student to realize his/her potentialities and to develop a sense of self-confidence. MERI has continued to prosper in all areas money has no barrier, creating an avenue for all recent placements in top organizations of India as well as abroad. The track record of great success that we have developed is evidence of the hard work put in. I would like to add that the students are our greatest asset.

DR. RAKESH KAPOOR
President, MERI

Welcome to the MERI Universe

Welcome to MANAGEMENT EDUCATION & RESEARCH INSTITUTE (MERI). We are about to embark on a journey - a journey which will stimulate your creativity and enterprise. A journey which will associate you with the skills and knowledge to build a solid foundation for your professional career. This is a journey involving a Management & IT School as nucleus. Our commitment is towards ensuring professionally oriented education to students who, after graduation, will be able to take up management roles in MNCs, SMEs, NGOs, Government, Banks, etc. We believe in excellence in the sector of management education.

Having said that, industry and academic institution is a must for us. Hence, in MERI various academic activities are conducted in an ever changing industrial and business climate. Our commitment to rendering education with academic activities and industrial training is a guarantee that a student can get a good job. We believe that through our teaching methods, the students can easily develop ways to implement their ideas. We believe in our students.

For the last 15 years, MERI has been contributing to the enhancement of MNC education programs. We have our location in the historic city of Delhi where opportunities for a learning environment is available.

Are you ready? Your decision on us, you will find the experience both educational and rewarding.

PRABU LALITAGORIWAL
Vice President, MERI

Come, evolve into a Global Manager at MERI

The importance of educational management education in the present day world cannot be emphasized. The liberalized economy in business environment requires professionals of a very dynamic and creative nature.

Management education is a discipline which is concerned with the management of business enterprises. It emphasizes on improving the functioning of business enterprises so that it contributes to the welfare of society and overall social welfare. The focus of education is a sound outlook at MERI, so that the future managers enter the real world of business with confidence.

We at MERI strongly believe that the scope exists much greater requirements. To this end, our aim is to be a major player in an entity, having MERI under its banner. Besides this, from our long term vision, we are also committed to research with the students and the faculty. The Grover and the Grover family are committed to this cause.

I have great pleasure in sending future milestones to join MERI - young men and women who are charged with a keen desire to contribute in a highly competitive global environment. The MERI is a place of learning, growth, development and creation. It is a place of 500 hours to acquire the basic skills. Creating a centre which makes MERI an proud unit of education.

DR. Y.L. GROVER
Director General, MERI

Triveni Educational & Social Welfare Society: Striving for A Winning Performance

The Triveni Educational & Social Welfare Society was established in the year 1987 by renowned educationists. It is a non-profit charitable organization registered under the Society Registration Act of 1860. The main aim of the society is to provide opportunity for poverty indicators to talented students, particularly those who belong to underprivileged families.

To develop and implement an integrated and comprehensive programme of educational development, so as to facilitate social upliftment and to promote education of poor among the masses of minorities and backward growth promoting equality and social justice and overall development of the society. The society mainly promotes education among the underprivileged sections of society, especially among the rural areas. It is committed to help poor and needy students to receive education till post-graduate level (PG). It provides free reading material, education & other services of the society.

MERI COLLEGE OF ENGINEERING & TECHNOLOGY

The Campus at Bahadurgarh, Haryana, NCR one Capital Region

Spread over a lush green sprawling campus of 35 acres, in Bahadurgarh, Haryana, the college aims to be a state-of-the-art learning institution system of education and research for students in engineering.

The college offers courses in the field of Electronics and Telecommunications, Communication Engineering (ECE), Computer Engineering (CSE), Electrical Engineering (EEE) and Civil Engineering (CE) for Under Graduate students. The college has 350000+ students in various fields of study and plans to expand its facilities and increase the number of students every year.

With a vision to become a leading educational institution of the country in engineering and technology, MERI College of Engineering & Technology has been established by Prof. (Dr.) Renuka K. Patel, Ex-Chairperson of Department of Electrical Engineering, Delhi University.

At the Technology Campus we like to focus on international standards of education in various fields of engineering and technology. The Institute aims to establish itself as a leader in the field of engineering and technology, through its excellent teaching, Learning Support Services (LSS), Placement Services and Research.

Starting with the initial batch of students,

RAMAKRISHNA TEACHERS TRAINING INSTITUTE

The campus of Vihar Park, New Delhi

Ramakrishna Teachers Training Institute (RTTI) was established in 1960 and is a constituent of Ramakrishna Mission Ashrama. The Institute also includes higher education programmes by Directorate of Education, Government of Delhi and Subsidized Council of Technical Education (SCTE), Government of India, offering an excellent placement ratio with all students placed in reputed Government and private schools.

RAMAKRISHNA SENIOR SECONDARY SCHOOL

The School at Vihar Park, New Delhi

Ramakrishna Senior Secondary School, a co-educational English medium school run by Ramakrishna Mission Ashrama, Government of Delhi is affiliated to CBSE. The school aims at imparting quality education with emphasis on spiritual, intellectual and spiritual development of the child. The school has facilities such as sports stadium, library and auditoriums and a vast

7

MERI creates Managers for global domains

With an aim to provide the students with quality education, Management Education at MERI is designed to produce managers who can work in the corporate world and also in the public sector. From the very first day, students are exposed to the working of the business environment and the dynamics of the market. The students learn how to manage their time effectively and increase the efficiency and productivity of employees in their organization. The working of various industries is taught to students so that they can understand the industry better and work more effectively.

Based on an extensive curriculum, the students undergo different study programmes, including Business Administration, Marketing, Finance, HRM, Project Management, etc. The students are exposed to various case studies, assignments, projects, and practical training. They have access to various software tools, which include Microsoft Office, SPSS, Minitab, Eviews, SPSS, etc. The students are required to submit their assignments, projects, and reports on time. The students are given the opportunity to work on various projects and assignments.

Management Education is one of the most

FOCUSSED, COMMITTED OBJECTIVES

MERI's Objectives are:

- To engage top quality Management faculty with diversified input from areas and sectors, so that they can produce effective managers for leadership and professional competence in the concerned field.
- To develop faculty to the greatest extent to develop their inherent talents and sustain them to the best of their ability.
- To equip them who are already engaged in management review, with advanced knowledge of modern management concepts so that they can keep up with the latest developments.
- To develop the students to be able to meet the needs of modern business environment, for professional use of communication, industrial environment.
- To provide competency to business organizations to be able to compete in the field of management to implement the latest developments in management theories.
- To award need-based learning experiences for the top managers and executives to face the challenging international business as global citizens.

"The students are really keen to know about the list of subjects during the semester. May I know their present list of subjects. The information of the institution is very good. This is the best institution in India."

Our Infrastructure, Our Pride

After its former infrastructure MITE amongst the top engineering institutions of Delhi equipped the new campus with state-of-the-art facilities. Below the scope of the new governance board, MITE has invested a lot of time and money in the construction of modern facilities.

COMPUTER CENTER

The International Computer Center is well equipped with latest educational software for students. Students can access the internet through various workstations and arrangements have been made with the best technical educational institutions and universities from India and abroad. Research activities are carried out through the research centre and the administrative functions have been strengthened.

WI-FI CAMPUS

The campus is Wi-Fi enabled in addition to the conventional transmission enabling students to experience the latest technology with wireless.

PREMISES

We possess one of a spacious building with adequate and sufficient air conditioned lecture theatres, seminar hall, auditoriums, conference hall, faculty rooms, drawing rooms, lecture rooms and centralised Computer Center. A well equipped auditorium of a capacity over 1000 spectators, training facilities for video conferencing, and the learning lab for four hours through the Internet for teleconferencing.

"The education system, with the faculty and students, are knowledgeable and enthusiastic. It's the right place to make future."

-Mr. Ashutosh Kumar, Director, IIT Kanpur, India

12

Our Infrastructure, Our Pride

LIBRARY

The fully automated Library having more than 20,000 books on various topics & reference is also equipped with a computerized system for book issue, return, renewals etc. Besides we have e-books from Kindle and Amazon. It has an collection of nearly 2000+ American literature and 400+ Indian books.

HOSTELS

Hostels with proper security and separate accommodation for boys and girls are available near to the and latest amenities facilities. All rooms are equipped with all latest facilities.

GYMNASIUM

The Gymnasium has all the facilities. Various sports activities, including tennis, badminton, etc.

"I am associated with the hospital. The doctors take patients."

-Dr. Jayant Patel, Doctor, Global Delivery Network

Courses of Highest Standards

POST GRADUATE DIPLOMA IN MANAGEMENT

(Full Time & Part Time)

Post Graduate Diploma in Management (Diploma) is offered by MITE approved by the All India Council for Technical Education (AICTE), Ministry of HRD, Govt. of India since 1995. The Post Graduate Programme is aimed at all round development and creation of approximately 600 managers for the system using methodology of an unique institution immediately after leaving this institution. This is achieved through a programme specially designed by the faculty to bring into the classroom the actual industrial scenario and requirements. Programme inputs cover the functional areas of Production, Finance, Marketing, HRM, and Information Technology.

MASTER OF COMPUTER APPLICATIONS

Full Time three year Master Programme in Computer Applications affilated by IGNOU started with the University since 1999 and approved by AICTE, Ministry of HRD, Government of India. Course contents are designed by the university with the assistance of IT professionals and are updated periodically to meet the demand of the changing IT industry. The curriculum includes basic fundamentals as well as advanced subjects focusing on the current technological scenario.

"ITP - The ultimate platform for IT professionals to serve the practical needs of the country. Management functions in India"

15

GLOBAL COLLABORATIONS GALORE!

Global Academic Collaborations

MERI has signed MOU's with 100 plus colleges & universities across the globe. The main objective of academic partnerships is to enhance international exposure. The focus is on exchange programs, joint research, joint academic activities, joint publications, joint organizing international conferences and programs. By doing this it makes these joint academic activities on the rise at the cost of the basic interest of interest, for instance, Meris Korea and India, IIMB, were signed at the French Embassy.

- University Bourgogne, Dijon, France
- Institut National des Sciences Informatiques, Paris, France
- University of Lorraine, Suresnes, France
- University of Alberta, Edmonton, Canada
- University of Paris, Dauphine, France
- IIMB Institute of Management & Technology, Bangalore, India
- Korea Maritime University, Pusan, South Korea

These MOUs provide joint delivery of programmes and joint academic and research links.

After the Global Degree Programmes, meritorious students will be provided with 100% funding towards international internships. Applications for last semester in the partner institutes across the world have been received.

21

GLOBAL EXPOSURE FOR MERIANS

International Affiliations

MERI is the member of various affiliated bodies of business schools around the world.

International Student Exchange Programs

To facilitate international exposure the members of MERI are involved in student exchange programmes & community projects. At present, there are 100+ international exchange programmes involving students from 30 countries while exploring the international dimensions of their studies. So far, 800+ students went our partner institutions for exchange programmes.

International students at MERI

At MERI, you can witness cultural exchange learning at a simple, where opportunities are everywhere, where you might do different things year after year, and when the people around you can be related and unrelated as well as be naturally diverse, friendly, and open to each body. MERI is a networking, learning, and exchange platform for students, faculty, and staff, and a place where students can learn about the world through the exchange programme with international students. International students are also the prime generators of partners, innovative ideas, and innovative research. Whenever you're learning, you're growing, you're making, and making a difference.

The students from Godavari Institute of Technology, the service provider of students in France. This case study is a complete success in internationalization.
