B. TECH. - MBA (DUAL DEGREE) PROGRAMME

Objective of the Programme

The objective of the programme is to prepare a cadre of professionals who can integrate technology with management concepts and practices for effective decision-making.

Admission Criteria

Admission to the programme shall be for the benefit of the students of University School of Studies and Indira Gandhi Institute of Technology admitted in the B.Tech programme during the academic session 2005 and onwards.

Admission shall be on the basis of aggregate percentage of marks secured by the students in their first and second semester of the B.Tech programme. The number of seats to a particular stream of engineering shall be allotted on the basis of the actual strength of the students in the fourth semester of the B.Tech programme.

Number of Seats = 60 (Sixty)

Operational Aspects

The programme intends to cover all the essential elements of the MBA programme run by the University within five years of the B.Tech- MBA Dual Degree programme. The core management papers of the MBA programme will be covered during the third & fourth year of the B.Tech programme while the students after completing the B.Tech programme will exclusively devote their fifth year in the University School of Management Studies to cover the remaining management courses required to earn the minimum number of credits for award the MBA degree .In respect of the courses of management, which are included in the respective B.Tech schemes of syllabi and pursued by the students as a part of their B.Tech programme whether under the same nomenclature or some other nomenclature with similar course contents an exemption may be given after examining the equivalency by the Dean USMS.(On the basis of recommendation by a committee constituted by the Dean for establishing the equivalency) However, the students pursuing B.Tech programme, where the exempted courses or the contents of exempted courses are not included in their respective B.Tech schemes viz. B.Tech (BT) and B.Tech (Mechanical and Automation Engineering) etc. shall be required to study the same by taking one extra course per semester in addition to the courses offered in that semester. The additional course offered in each or any of the semesters, as the case may be, will be notified by the Dean, USMS at the beginning of such semester in which they are to be offered keeping in view the feasibility. In any case these courses have to be offered during the period of programme.

Number of Credits for the Award of Degree

The student shall have an opportunity to complete the dual degree i.e. B.Tech & MBA in five years. The student will have the option to continue or not to continue their study after completing the B.Tech programme. In case they decide not to further pursue the MBA programme, they will be eligible for the B.Tech degree alongwith certificate in management provided they earn the minimum required credits. Minimum credits to be earned for being eligible for award of degree

- (i) 86 out of total credits of 92 in respect of students who are given exemption in courses that may be exempted

- (ii) 102 out of total 108 credits in respect of students who are not given exemption in any course
- (iii) vary between 92 and 102 depending on the number of courses for which exemption is given.

To be eligible for the Certificate in Management, a student shall be required to pass all the additional management papers, to be offered during the third and fourth year of the B.Tech. Programme. Therefore, to be eligible for the certificate in management a student shall be required to earn **32** credits.

COURSE OUTLINES

B.TECH - MBA (DUAL DEGREE) PROGRAMME

I. Exempted Papers

These papers are covered by the students during their B. Tech. Programme

Paper Name	Credits
Management Process & Organizational Behaviour	4
Quantitative Methods	4
Business Communication & Personality Development	4
IT for Managers	3
IT for Managers Lab.	1
Total Credits	16

II. Additional Papers to be Covered during B. Tech.

Paper Code	B.Tech -Fifth Semester	Credits	Paper Code	B.Tech- Sixth Semester	Credits
BMS 301	Managerial Economics	4	BMS 302	Human Resource Management	4
BMS 303	Accounting for Managers	4	BMS 304	Management of Technology Innovation and Change	4

Paper Code	B.Tech – Seventh Semester	Credits	Paper Code	B.Tech – Eighth Semester	Credits
BMS 401	Business Environment	4	BMS 402	Marketing Management	4
BMS 403	Financial Management	4	BMS 404	Business Research	4

III. Papers to be covered during the Fifth Year of the Programme at USMS

Paper Code	B.Tech- Ninth Semester	Credits	Paper Code	B.Tech – Tenth Semester	Credits
BMS 501	Operations Management	4	BMS 502	E-business	4
BMS 503	Management of International Business	4	BMS 504	Strategic Management	3
BMS 505	Entrepreneurship and Small Business Development	4	BMS 506	Major Project	8
BMS 507	Summer Internship	6	BMS 508	Business Intelligence & Applications	3

Note: 1. All students must specialize in one major area and one minor area. Five papers must be taken for the major area and three papers for the minor area of specialization.
2. Three elective papers must be taken in the ninth semester and two elective papers in the tenth semester from the area selected for major specialization

List of Electives for the Ninth Semester	List of Electives for the Tenth Semester

Summer Training Project

Course code: BMS 507

Credits: 6

The students who opt to continue with the MBA Programme are required to undergo industry internship of 6 to 8 weeks during the intervening period between completion of B.Tech Programme and commencement of 9th Semester and submit a report in duplicate to the school along with soft copy in the form of CD, at least one month before commencement of end term examinations of 9th Semester. The format of the report is given below:

- Introduction
- Objective of the Research Undertaken
- Literature Review
- Research Methodology
- Results and analysis
- Conclusions
- References
- Appendices-to include questionnaire, if any

The performance of the student during the internship will be assessed by the supervisor under whom the student is placed in the organization in the format prescribed (Annexure-A). During the period of internship the student shall be in continuous touch with the internal guide who is designated by the school from amongst the faculty members and is required to give at least one presentation during the internship period before internal guide. The internal guide shall evaluate the performance of student based on the / her own assessment as well as the assessment provided by the supervisor under whom the student is placed in the organization. The internal evaluation will carry 40% weightage. The students shall also be assessed by the external examiner to be appointed by the University on the basis of presentation with regard to the project work done by the student being evaluated and the assessment report received from the organization where the student has undergone his / her internship. The external evaluation will carry a weightage of 60%.

Major Project

Course Code: BMS 506

L-0 Credits-8

Every student will be assigned a project at the end of the Ninth Semester and it will be pursued by him/her under the supervision of an internal supervisor. One hard copy and a soft copy of the Project Report will be submitted by the students prior to the date of the commencement of the End-Term Examinations for the Tenth Semester. The format of the report is given below:

- Objective of the Research Undertaken
- Literature Review
- Research Methodology
- Results and Analysis
- Conclusions
- References
- Appendices – to include questionnaire, if any

The student shall be required to make a mid-term presentation to the project guide.

The Project shall be evaluated by External (60 marks) and Internal (40 marks) Examiners. The internal assessment shall be done on the basis of a presentation before a Committee consisting of a minimum of two faculty appointed by the Director/Dean of the Institute, which shall include the internal supervisor. The external assessment shall be done on the basis of Viva Voce and the project report.

Systems Analysis and Design

Course Code: BMS 533

L-3 P-0 Credits: 3

Objectives: To teach techniques and approaches to students so that they may analyze and develop business systems more effectively and efficiently.

Course Contents:

Section 1: (10 Hours)

- Systems Development Life Cycle: Planning, Analysis, Design, Implementation.
- Systems Development Methodologies: Structured Design, RAD, JAD, Prototyping.
- Project Team Roles and Skills.
- Project Initiation: Identifying Business Value, Feasibility Analysis.
- Project Management: Creating a Work Plan, Project Staffing, Controlling the Project.

Section 2: (10 Hours)

- Systems Analysis: Developing an Analysis Plan.
- Process Modeling: Data Flow Diagrams (Gane and Sarson, DeMarco and Yourdan), Use Case Diagrams.
- Data Modeling: Entity Relationship Diagrams.
- System Design: Physical Data Flow Diagrams, Physical Entity Relationship Diagrams.
- Architecture Design: Computing Architectures, Infrastructure Design, Global and Security Issues.

Section 3: (10 Hours)

- User Interface Structure Design: User Interface Design Principles and Processes, User Interface Design Components.
- Data Storage Design: File and Database Formats, Optimization for Data Storage and Data Access.
- Program Design: Structure Chart, Program Specification.
- Construction: System Construction Process, Managing Programming, Designing Tests, Developing Documentation.
- Installation: System Installation Process, Conversion Strategies, Change Management, Post- Implementation Activities.

Section 4: (12 Hours)

- Object-Oriented Analysis and Design, and Testing: Object Concepts, Introduction to the Unified Modeling Language, Use Case Diagrams, Sequence Diagrams, Class Diagrams, Statechart Diagrams.

Network Applications and Management

Course Code: BMS 537

L-3 Credits: 3

Objectives: The course aims to combine the fundamental concepts of data communications and networking with emphasis on business applications.

Course Contents:

1. **Data Communication Concepts and Applications:** Introduction to Data Communications, Components of Data Communications, Trends in Computer Communications and Networking, Network Applications. (10 Hours)
2. **Fundamentals of Data Communications and Networking:** Physical Layer: Architectures, Devices and Circuits, and Data Transmission. Data Link Layer: Media Access Control, Error Control in Networks. (10 Hours)
3. **Networking:** Network Layer: Network Protocols, Network Addressing and Routing. Local Area Network (LAN): LAN Components, Ethernet (IEEE 802.3), Token Ring (IEEE 802.5), Selecting a LAN, Improving LAN Performance. Back Bone Networks: Backbone Network Components, Fast Ethernet, FDDI. Metropolitan Area Network (MAN) & Wide Area Network (WAN): Dialed Circuit Services, Dedicated Circuit Services, Circuit-switched and Packet-switched Services, Improving MAN & WAN Performance. (10 Hours)
4. **Network Management:** Design of Business Networks, Network Management, and Network Security. (12 Hours)

Text Books:

1. Jerry, FitzGerald and Alan, Dennis (2002). Business Data Communications & Networking. John Wiley & Sons.
2. Tanenbaum, A. S. (2004). Computer Networks. Pearson Education.

Reference Books:

Database Management Systems

Course Code: BMS 539

L-2 Credits: 2

Objectives: This course will help students to understand how databases can be used to store an organization's information.

Course Contents:

1. Purpose, Advantages and Disadvantages of DBMS, Data Models, Schemas and Instances, DBMS Architecture and Data Independence, Types of DBMS – Hierarchical, Network, Relational, Object-oriented and Object relational.
(04 Hours)
2. ER-Model – Basic concepts, Design Issues, Mapping Constraints, Keys, E-R Diagram, Design of an E-R Database Schema, Reduction of E-R Schema to Tables. SQL: Background, Basic Structure, Set Operations, Aggregate Functions, Null Values, Nested Sub Queries, Derived Relations, Views, Modification of Database, Joined Relations, Data Definition Language, Domain Constraints, Referential Integrity.
(10 Hours)
3. Oracle: Basic Architecture, Data Definition, Data Manipulation (LIKE Operator, String Commands, Numeric Function, Date Function, Translate and Decode Function), Introduction to PL/SQL (Conditional, Logic, Loops, Go to Statements, Exceptional Handling, Triggers, Procedures, Functions, Cursor, LOB's).
(10 Hours)
4. Structure of Relational Databases, Relational Algebra, Functional Dependencies, Normal forms NF1, NF2, NF3 and BCNF, Multivalued Dependencies and Fourth Normal Form, Join Dependencies and Fifth Normal Form. Transaction, Concurrency: ACID Properties, Transaction State, Locks, Deadlock Condition, Two- Phase Locking protocol.
(08 Hours)

Text Books:

1. Silberschatz, A. H. F. Korth, Sudarshan, S. (2002). Database System Concepts. McGraw-Hill.
2. Koch, G. & Loney, K. (2002). Oracle 9i, The complete reference. TMH.
3. R. Elmsari & S. D. Navathe (2004). Fundamentals of database systems. Addison Wesley.
