

RANGIA COLLEGE

A profile

Founded on August 5, 1963, Rangia College ranks among the front line colleges of Assam. Located in a serene atmosphere away from the mainstream urban life, the college provides a natural surrounding conducive to healthy academic pursuits. The college imparts education in three streams- Arts, Science and Commerce. With the commerce stream coming under the system of government financial assistance, the college has been making steady progress both academically and infrastructurally against all kinds of adversities in achieving the

avowed goals and objectives. It is worthwhile to mention that the college which was graded at the B⁺⁺ level in NAAC's accreditation in 2004, has successfully undergone the process of reaccreditation in September, 2010 and earned the distinction of upholding its qualitative competence by being graded at the 'B' grade with CGPA of 2.80 on four point scale.

Physically and infrastructurally, the college has achieved quite significantly during all these years even though much has yet to be done. That the college has the potential to contribute towards excellence has been recognised by the department of Science and Technology, Government of India by selecting our college for a grant of the DST special package for the North-East. It is worth mentioning that renovation of the existing science laboratory structure has been going on with the release of phase wise instalment of the grant. Further, a sophisticated, full-fledged computer laboratory has also been setup. Steps have been taken to up grade classrooms with the provision of modern equipments, teaching aids and different software by the financial assistance provided from University Grants Commission. All the departments will be computerised shortly with net connectivity. Further, BSNL has provided twenty numbers of internet connection which will benefit the students in net accessibility. Rangia College campus will be well connected by wi-fi

system for greater interest of students community and academic fraternity. Keeping in view the diversified needs of students, Institute of Distance and Open Learning (IDOL) Centre, Rangia College also offers certain subjects at degree level for Arts and Commerce Stream. College is going to introduce Commerce Stream at Higher Secondary Level including Computer Science & Application as one of the optional subjects approved by AHSEC from this current session with a view to cater the emerging needs of students. Rangia College has established an Institutional Bio-tech HUB sponsored by Department of Biotechnology (DBT), New Delhi with the aim of research in field of biotechnology and introduction of this subject later on. Accordingly, a special package has already been released as first instalment and project is going on. This must indeed be regarded as a significant leap forward to be a stepping stone to further development. The Career-Oriented Certificate course and PGDCA course under the Gauhati University syllabus have been introduced from the session 2009-2010 with the financial support of the U.G.C. With a view to providing wider flexibility to the degree-level science students, Computer Science as a subsidiary subject was introduced in Three year Degree Course [TDC (1+1+1)] Science stream with effect from the 2010-11 academic year.

The journey of the college towards achieving the avowed goal of attaining quality and excellence goes on and on under the able stewardship of a dignified Management with the unstinted sense of commitment from an extremely dedicated faculty and ably supported by a diligent and sincere staff. The Internal Quality Assurance Cell established a few years back, has been providing all the impetus and fillip in the direction of maintenance of internal quality in all the spheres of the college. Needless to mention, the vibrant presence of various units– the N.C.C., Youth Red Cross, the Bharat Scouts and Guides, the N.S.S. etc. have been the embodiment of a notable feature of the corporate life that has gone a long way towards building a congenial atmosphere.

The college has followed the Semester System as introduced by the Gauhati University at degree level from the 2011-12 academic year.

In the aftermath of the NAAC's inspection in connection with reaccreditation and in the context of its report new vistas have opened up. The college Management has taken note of the imperatives and initiated measures to be taken in the right direction to keep the momentum going.

With all these and other highlights, the college is marching ahead to translate into reality the dream of academic upliftment which the indefatigable, dedicated band of educational enthusiasts had dreamt of half a century ago. The Golden Jubilee Celebrations of the college will start on 5th August 2012 with a year long programme. In this centet the college is bound to augmented with a renewed energy for achieving new heights.

MISSION OF THE COLLEGE

The Rangia College solemnly pledges to relentlessly pursue the mission of "transmission of knowledge, wisdom, skill and competence from one generation to another"

VISION OF THE COLLEGE

Rangia College has a vision of building the college as a center of academic excellence within the next ten years.

GOALS AND OBJECTIVES

- ❑ To give the educational facilities to the young generation particularly belonging to the socially and

economically backward communities of the entire North Kamrup area.
