- How will Arya Bros. account for interest over three accounting years assuming books of accounts are closed on 31st March every year. (10 x 2 = 20 Marks)

Answer

(i) Calculation of Goodwill

C brings capital for 1/6 th share in profit	=	Rs.25,000
Therefore, total capital of the firm	=	Rs.25,000 × 6 = Rs.1,50,000
Capital of old partners should be	=	Rs.1,50,000 – Rs.25,000 = Rs.1,25,000
Actual combined capital of old partners	=	Rs.60,000 + Rs.40,000 = Rs.1,00,000
So, the goodwill of the firm	=	Rs.1,25,000- Rs.1,00,000=Rs.25,000

(ii) Calculation of cash price of the asset

Number of instalments	Closing balance	Amount of instalment	Total	Interest 5/105	Opening balance
4	0	10,000	10,000	476	9,524
3	9,524	10,000	19,524	930	18,594
2	18,594	10,000	28,594	1,362	27,232
1	27,232	10,000	37,232	1,773	35,459

$$\begin{aligned}
 \text{Cash price of the asset} &= \text{Down payment} + \text{Rs.35,459} \\
 &= \text{Rs.10,000} + \text{Rs.35,459} \\
 &= \text{Rs.45,459}
 \end{aligned}$$

	To Bank A/c		95,000
	(Being purchase of 1,000, 6% Government bonds of Rs.100 each at Rs.95 each cum interest)		

(iv) Calculation of average due date taking 20th January as the base date

<i>Due Date</i>	<i>Amount Rs.</i>	<i>No. of days from 20th January</i>	<i>Product</i>
20 th January	5,000	0	0

30 th April	<u>11,000</u>	100	<u>11,00,000</u>
	<u>30,000</u>		<u>18,86,000</u>

$$\begin{aligned}
 \text{Average due date} &= 20^{\text{th}} \text{ January} + \frac{\text{Total Product}}{\text{Total Amount}} \\
 &= 20^{\text{th}} \text{ January} + \frac{18,86,000}{30,000} \\
 &= 20^{\text{th}} \text{ January, 2009} + 63 \text{ days (approx)} \\
 &= 24^{\text{th}} \text{ March, 2009}
 \end{aligned}$$

(v) Annual depreciation charged by the company up to 2008-09

$$\begin{aligned}
 &= \frac{\text{Cost price of the machine} - \text{Scrap value}}{\text{Useful life of the machine}} \\
 &= \frac{\text{Rs.5,00,000} - \text{Rs.50,000}}{10} = \text{Rs.45,000}
 \end{aligned}$$

WDV of machine at the end of 2008-09 by Straight Line Method (SLM)

$$= \text{Rs.5,00,000} - (\text{Rs.45,000} \times 3) = \text{Rs.3,65,000}$$

INTEGRATED PROFESSIONAL COMPETENCE EXAMINATION : MAY, 2010

Depreciation by Reducing Balance Method (RBM)

2009-10	2,56,000	$2,56,000 \times 20\%$	51,200	2,04,800

Depreciation to be charged in 2009 – 2010

	<i>Rs.</i>
Book value of the machine as per SLM as on 2008-09	3,65,000
Less: Book value of the machine as per RBM as on 2008-09	<u>(2,56,000)</u>
	1,09,000
Add: Depreciation for the year 2009-10 as per RBM	<u>51,200</u>
Total depreciation debited to Profit and Loss account in the year 2009-10	<u>1,60,200</u>

- (vi) As per para 32 of AS 13 'Accounting for Investments', investment classified as long term investments should be carried in the financial statements at cost. However, provision for diminution shall be made to recognise a decline, other than temporary, in the value of the investments, such reduction being determined and made for each investment individually. As per para 17 of the standard, indicators of the value of an investment are obtained by reference to its market value, the investee's assets and results and the expected cash flows from the investment.

The facts of given case clearly suggest that there is decline in the market share of the company and the investment will not fetch more than Rs.20,000. Therefore, the provision of Rs.1,80,000 should be made to reduce the carrying amount of long term investment to Rs.20,000 in the financial statements for the year ended 31st March, 2009.

- (vii) In the absence of a partnership deed:
- The partners will share profits/losses equally; and
 - Interest @ 6% per annum is to be paid on the loan advanced to the firm by a partner.

PAPER – 1 : ACCOUNTING

(viii) As per para 11 of AS 9 ‘Revenue Recognition’, revenue from sales should be recognised only when requirements as to performance are satisfied provided that at the time of performance it is not unreasonable to expect ultimate collection. These requirements can be given as follows:

- (i) the seller of goods has transferred to the buyer the property in the goods for a price or all significant risks and rewards of ownership have been transferred to the buyer and the seller retains no effective control of the goods transferred to a degree usually associated with ownership; and
- (ii) no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods.

(ix) Amount of insurance claim = Amount of loss due to fire × $\frac{\text{Amount of insurance policy}}{\text{Total stock in the godown}}$

$$= \text{Rs.}44 \text{ lakhs} \times \frac{\text{Rs.}60 \text{ lakhs}}{\text{Rs.}80 \text{ lakhs}} = \text{Rs.}33 \text{ lakhs}$$

(x) Total interest on hire purchase transactions = Rs.4,60,000 – Rs.4,00,000 = Rs.60,000

As balance payment is made in three equal instalments, so interest is to be allocated in the ratio of 3:2:1

$$\text{Therefore, interest for 1st year} = \text{Rs.}60,000 \times \frac{3}{6} = \text{Rs.}30,000$$

$$\text{IInd year} = \text{Rs.}60,000 \times \frac{2}{6} = \text{Rs.}20,000$$

$$\text{IIIrd year} = \text{Rs.}60,000 \times \frac{1}{6} = \text{Rs.}10,000$$

	Rs.
<i>Bills receivable</i>	15,000
<i>Freehold premises</i>	4,00,000

You are required to :

- (i) Calculate the number of equity shares and preference shares to be allotted by Careful Ltd. in discharge of consideration.
- (ii) Prepare the important ledger accounts in the books of Reckless Ltd.; and
- (iii) Pass journal entries in the books of Careful Ltd. with narration. (16 Marks)

Answer

- (i) **Calculation of the number of equity shares and preference shares to be allotted by Careful Ltd. in discharge of purchase consideration**

Calculation of purchase consideration:	Rs.
Agreed value of assets taken over:	
Bills receivable	15,000
Freehold premises	4,00,000
Furniture & fittings	80,000
Machinery	1,60,000
Stock	<u>3,45,000</u>
	<u>10,00,000</u>

PAPER – 1 : ACCOUNTING

Discharge of purchase consideration:

1. Amount paid by allotment of 13% preference shares

$$= \text{Rs.}10,00,000 \times \frac{1}{4}$$

$$= \text{Rs.}2,50,000$$

Number of 13% preference shares of Rs.100 each

$$= \frac{\text{Rs.}2,50,000}{\text{Rs.}100} = 2,500 \text{ preference shares}$$

2. Amount paid by allotment of equity shares

$$= \text{Rs.}10,00,000 - \text{Rs.}2,50,000 = \text{Rs.}7,50,000$$

Paid up value of one equity share = Rs.8 each

Hence, the number of equity shares allotted

$$= \frac{\text{Rs.}7,50,000}{\text{Rs.}8} = 93,750 \text{ equity shares}$$

(ii) Ledger accounts in the books of Reckless Ltd.

Question 6

Answer the following:

- (a) Weak Ltd. acquired the fixed assets of Rs. 100 lakhs on which it received the grant of Rs. 10 lakhs. What will be the cost of the fixed assets as per AS 12 and how it will be disclosed in the financial statements?

PAPER – 1 : ACCOUNTING

- (b) During the current year 2009-10 M/s L & C Ltd. made the following expenditure relating to its plant and machinery:

	Rs.
General repairs	4,00,000
Repairing of electric motors	1,00,000
Partial replacement of parts of machinery	50,000
Substantial improvements to the electrical wiring system which will increase efficiency of the plant and machinery	10,00,000

What amount should be capitalised according to AS 10?

- (c) What are the advantages of pre-packaged accounting software?
- (d) Raw materials inventory of a company includes certain material purchased at Rs. 100 per kg. The price of the material is on decline and replacement cost of the inventory at the year end is Rs. 75 per kg. It is possible to convert the material into finished product at conversion cost of Rs. 125.

Decide whether to make the product or not to make the product, if selling price is (i) Rs. 175 and (ii) Rs. 225. Also find out the value of inventory in each case.

(4 x 4 = 16 Marks)

Answer

- (a) Paragraphs 8 and 14 of AS 12 'Accounting for Government Grants' deal with the presentation of government grants related to specific fixed assets. It prescribes two different methods for recognition of a government grant. In the first method, Government grants related to specific fixed assets should be presented in the balance sheet by showing the grant as a deduction from the gross value of the assets concerned in arriving at their book value. Hence in the given case, fixed assets should be presented at Rs.90 lakhs (Rs.100 lakhs less Rs.10 lakhs) in the balance sheet of Weak Ltd.

Under the second method, government grants related to depreciable fixed assets may be treated as deferred income which should be recognised in the profit and loss statement on a systematic and rational basis over the useful life of the asset, i.e., such grants should be allocated to income over the periods and in the proportions in which depreciation on those assets is charged. In this case, fixed assets will be shown at Rs.100 lakhs in the balance sheet of Weak Ltd. and the corresponding grant amounting Rs.10 lakhs will be treated as deferred income to be recognized over useful life of the fixed asset.

- (b) As per para 12.1 of AS 10 'Accounting for Fixed Assets', expenditure that increases the future benefits from the existing asset beyond its previously assessed standard of performance is included in the gross book value, e.g., an increase in capacity. Hence, in the given case, repairs amounting Rs.5 lakhs and partial replacement of parts of machinery worth Rs.50,000 should be charged to profit & loss account. Rs.10 lakhs

INTEGRATED PROFESSIONAL COMPETENCE EXAMINATION : MAY, 2010

incurred for substantial improvement to the electrical wiring system which will increase efficiency should be capitalized.

(c) Advantages of Pre-Packaged Accounting Software:

1. **Easy to install:** The CD or floppy disk is to be inserted and the setup file should be run to complete the installation. Certain old DOS based accounting softwares require some settings to be added in the system configuration file and the system batch file. These instructions are generally provided in the user manuals.
2. **Relatively inexpensive:** These packages are sold at very cheap prices nowadays.
3. **Easy to use:** Mostly menu driven with help options. Further the user manual provides most of the solutions to problems that the user may face while using the software.
4. **Backup procedure is simple:** Housekeeping section provides a menu for backup. The backup can be taken on floppy disk or CD or hard disk.
4. **Flexibility:** There is certain flexibility in formatting of report as provided by some of the softwares. This allows the user to make the invoice, challan, GRNs look the way they want.
6. **Very effective for small and medium size businesses:** Most of their functional areas are covered by these standardised packages.

(d) As per para 24 of AS 2 'Valuation of Inventories', materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. However, when there has been a decline in the price of materials and it is estimated that the cost of the finished products will exceed net realizable value, the materials are written down to net realisable value. In such circumstances, the replacement cost of the materials may be the best available measure of their net realisable value.

(i) When selling price is Rs.175

Incremental Profit = Rs.175 – Rs.125 = Rs.50

Current price of the material = Rs.75

Therefore, it is better not to make the product. Raw material inventory would be valued at net realisable value i.e. Rs.75 because the selling price of the finished product is less than Rs.225 (100+125) per kg.

(ii) When selling price is Rs.225

Incremental Profit = Rs.225 – Rs.125 = Rs.100

Current price of the raw material = Rs.75.

Therefore, it is better to make the product.

Raw material inventory would be valued at Rs.100 per kg because the selling price of the finished product is not less than Rs.225.
